

THINK GOLD IS PART OF STORE OF RUSS. SOVIET

United States Worried Over Inflow of Suspicious Treasure Coming.

NO MARKS BY WHICH IT CAN BE KNOWN

American Bankers Hesitate to Sign Any Documents in Connection With Case.

New York, April 4.—(By wire)—A considerable portion of the gold which is coming to this country from England and France may be of Russian origin, has caused officials of the United States Treasury to apply to the authorities at Washington for a ruling as to whether all gold tendered to the assay office must be accompanied by affidavits of ownership and origin. If the rule is given that these affidavits must be made, it is believed that the flow of gold to this country will be decidedly curtailed, for it is understood that very few bankers here care to put their signatures to the documents.

U. S. Attitude.

At the present time, and for some months past, the assay office, on instructions from Washington, has been declining to accept gold known to be of Russian origin, and in cases where a suspicion exists that the metal may have come from Soviet territory, an affidavit is required. The only exception to this rule is in the case of gold coming here in the form of bars bearing the official stamp of the Royal Swedish Mint. The gold is generally regarded as Soviet gold, which has been smuggled at the Swedish Mint, and is in payment for Soviet gold sold to that institution. Because of the amicable relations between the United States and Sweden, Assistant Secretary of the Treasury, S. Parker Gilbert, Jr., and Director of the Mint, Raymond T. Baker, have ruled that the assay office may not refuse to purchase this gold.

Marks Not Used.

Very recently some doubt as to the origin of gold being sent here by the United States and French officials has been raised and the assay office officials are puzzled as to whether they are complying with the ruling against receiving Soviet gold. This British and French gold does not have any governmental markings. The practice in both countries is to have the metal assayed and run into bars by private assayers, who do not work exclusively for their governments but for the banks of England and France. Thus, it is pointed out, it might be possible for some Europeans to get Russian gold into England and France, have it turned into bars by the same agencies which work for the governments, and then transfer it here and sell it. There are only three government mints outside of the United States, which put distinctive markings on gold bars. These are the Swedish Mint, the Canadian Mint at Ottawa, and the British Indian Mint at Bombay. All other governments use unmarked bars, some of them using special forms, but most of them using conventional indications. Under these circumstances with private assayers doing a majority of the work, the chances of converting Soviet gold into the ordinary commercial form are considered great.

Mexican Bandits Caught And Slain

Brownsville, Tex., April 4.—Five Mexican followers of the Cardenas brothers' "ten man revolution" were captured by rurales Saturday night near San Fernando, south of Matamoros, coast marshalled and executed at four o'clock Sunday morning. Official announcement of the executions was made in Matamoros today. General Manuel Cardenas escaped but is being closely pursued by government troops. The entire band of revolutionists now is practically wiped out, the announcement said.

Castellamare, March 24.—Arrived: A. L. Kent, St. John, N. B.

After The "Fiu" Four Children Had Whooping Cough

Whooping Cough, although usually a disease of childhood, is by no means confined to that period, but may occur at any time of life. It is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than in male children.

Whooping Cough starts with sneezing, watering of the eyes, irritation of the throat, feverishness and cough. Dr. Wood's Norway Pine Syrup is highly recommended by mothers everywhere for the relief of this trouble, as it helps to clear the clogged-up passages of the mucous membrane, brings the mucus down, and in the way brings on the "whoop" which brings the so-much-sought-for relief and leads to the cure.

Mrs. J. M. Rouse, Imperial, Sask., writes:—"After the 'flu' last fall, my four children took whooping cough, and one of them developed bronchitis. After using two or three bottles of Dr. Wood's Norway Pine Syrup they were greatly relieved of their nasty coughs. It is an especially good remedy for children, and is so nice they take it readily, and ask for more."

Dr. Wood's Norway Pine Syrup is sold in 4oz. and 8oz. bottles at all dealers bearing the name of Dr. T. M. M. Co., Toronto, Ont.

Expects To Sell Coal To Montreal

Roy M. Wolvin Thinks 600,000 Tons Will be Taken from Cape Breton.

Halifax, N. S., April 4.—Roy M. Wolvin, president of the Dominion Steel Corporation, stated today that apparently there was some misunderstanding underlying a report from Ottawa that the Dominion Coal Company has turned down an order from the Canadian National Railway for 600,000 tons of coal to be delivered at Montreal by steamers of the Canadian Government merchant marine.

Mr. Wolvin said that the Dominion Coal Company had made a proposition to the Canadian National Railway for a large amount of coal for delivery at Montreal and Lewis, during the next several months, but that the railway people had not yet accepted the offer.

Expects Offer Accepted

He fully believed the offer would be accepted, as the price was very favorable, compared with that of other available coal, and he was sure the Government Railway would use Nova Scotia coal wherever possible in preference to American.

Meanwhile the Dominion Company is delivering to the Canadian National Railway coal contracted for delivery during the past winter and which the railway was unable to take as contracted. This coal, he said, would probably fill the requirements of the railway during April.

\$150 Found In This "April Fool" Wallet

Lay In Street Passed By Hundreds of Skeptics, But Jitney Driver Takes Chance.

Moncton, P. E., April 4.—From early morning until noon Friday a rain-soaked wallet lay in the street at Pitt street and Edmund avenue while scores of pedestrians passed it with a sneer. "That joke is played out, it's been wearing whiskers a foot long since the time when Columbus discovered America," declared a Lord-Cadogan man as he stepped into a jitney to go downtown. "They can't April fool us so easy as that."

It was a smartly dressed woman when her attention was directed to the wallet. Finally, Albert Phillips, a jitney driver, picked up the wallet and took it to his home. He found it contained \$150. Phillips gave his auditors the laugh and said he intended to make an effort to locate the owner.

Government Control Ceases In England

Predicted That Prices Will Drop Somewhat As a Result of Open Competition.

(Copyright, 1921, by Public Ledger.) London, April 3.—Everything that Englishmen trade in and enjoy, excepting intoxicants, was freed from Government control Friday and the public proclaimed April 1 as emancipation day. No longer will Britons be told what they must pay or charge for food or coal. They will be able to buy or sell a ship without authority from a shipping ministry, which has outlawed its rule, and the manufacture of munitions will be thrown open to natural competition. A great many food commodities already had been released from control but the Government still held a firm grip on meat, butter and flour, and now holds huge quantities of these articles which it will sell at market prices, which in some cases will be at a loss. Opinions differ widely on the effect of the new freedom. Some say some lines of prices will drop while others say well varied in business taste the opposite view. The experience heretofore has been that when an article was released from control the price shot upward for a short time and then dropped below the control price.

Much Activity Around Doorn Now

Dutch Watching Doings of the Hohenzollerns Very Closely at Present Time.

The Hague, April 4.—There has been much coming and going of prominent Germans as well as ex-Princes at the ex-Kaiser's residence at Doorn lately. Visitors arrive continually, spend a few days and return to Germany. Both the ex-Kaiser and his oldest son are watching the Hohenzollern situation with the keenest interest, but the Dutch are watching the Hohenzollerns more closely than ever, and even intercept considerable correspondence. "It is learned," however, that some correspondence is dispatched from other parts of Holland.

I am in a position to deny again from official sources all rumors regarding the ex-Prince's flight by the Holland train. Government officials state that this is impossible without the consent of the Allied Powers. The ex-Kaiser always receives all important news from Berlin by telegraph and is said to have been in a nervous and excitable state in the last few days.

HON. MR. FISHER BETTER.

Ottawa, April 4.—Hon. Sydney Fisher, former minister of agriculture in the Laurier cabinet, who has been ill for some time, was reported today as considerably improved.

STOPPED BY HEADACHES

Years of Suffering Ended By "Fruit-a-tives."

112 Hazen St. St. John, N. B. "It is with pleasure that I write to tell you the great benefit I received from the use of your medicine 'Fruit-a-tives,' made from fruit juice. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors, but nothing seemed to help me until I tried 'Fruit-a-tives.' After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since. I am ANNE B. WADE, 112 Hazen St. St. John, N. B. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

IN THE EDITOR'S MAIL

RAILWAY AFFAIRS.

To the Editor of The Standard: As last we observe from indications and suggestions given to the public by the press that the Railway situation in Canada has become the all absorbing topic of the politicians at Ottawa. It is fortunate that the realization of the tremendous burden has at last appeared in the Cabinet and members of Parliament, resulting, probably in some drastic economies and the employing of an expert to explain the situation to the public. It is interesting to note that the railway is being re-organized, re-placed and substituted wherever, whenever, and whatever pleases him to remedy the situation.

It is hardly necessary to make the assertion that this and this only, by the appointment of such a man, is the one solution of the difficulty. The Montreal Gazette is again to the fore with a powerful article discussing the problematical future of the running of the Canadian Railways. In its explanatory reasoning the conclusion is that for every dollar our government railways earn it costs in operation one dollar and twenty-five cents. In other words, we are losing twenty-five cents on every dollar we are supposed to make. This unfortunate position seems to be the fate of the Canadian Railways, we must lose twenty-five cents on every dollar we are supposed to make. From a business point of view, no; from patriotic outlook, we are inclined to say, yes; but before any drastic measure is made to transfer the railway to a private syndicate by all means let the best railway expert be engaged with a free hand, independent of politics, politicians or any other entanglements that might undo or discourage him in his good work.

It does not seem reasonable or sensible that the people of Canada should be asked to carry on and operate these roads at such an enormous loss with undoubted injury to the country, delaying advancement in other directions, and the waste of money and men equally as important as the railways.

I firmly believe and think any thinking man will assert, with confidence, that reorganization such as would be brought about by a successful, experienced, courageous and independent railway man at the head of affairs, a different contentment would be reached at the end of a first year, or possibly the second year, showing a small loss or better still a little profit.

Public criticism and public discussion of the railway is the country, influencing the politicians causing them to pay more attention to the rumblings of public sentiment.

In conclusion, Mr. Editor, I can only wish and hope that Canada will be fortunate enough to secure the right and proper railway man in the right and proper place.

Yours truly,
MONCTON CONSERVATIVE.
Moncton, N. B., March 28.

Poor Shipbuilding Outlook In Canada

1920 Figures Show 351 Vessels of 204,633 Gross Tons Were Made.

Ottawa, Ont., April 4.—Complete returns for 1920 about the Canadian shipbuilding industry turned out, according to statistics issued by Department of Marine, a total gross tonnage of 204,633, representing 351 vessels.

Vessels built and registered in 1920 numbered 339, as follows: Wooden sailing vessels 121, wooden steam vessels 64, wooden gas vessels 119, metal vessels, steam, 35, gas, 10, point of gross tonnage the steam metal vessels led with 120,177 tons; wooden sailing vessels, 22,758 tons; steam, wooden vessels, 17,829 tons; gas metal vessels, 116 tons.

Vessels built but not registered in Canada during the year were 22 in number, 13 of them being wooden steam vessels, 9 steel steam vessels and 1 wooden sailing vessel with gross tonnage. Steel steam vessels, 41,135 tons; wooden steam vessels, 4,129 tons; wooden sailing vessels, 245 tons.

British Columbia, with 138 in the number, led the province in the number of vessels turned out, but Quebec, with only 46 vessels, led in gross tonnage with 703,323 tons, as compared with British Columbia's 66,661 tons. Nova Scotia turned out ninety vessels, all small. Ontario is credited with but seventeen vessels, showing how the industry has fallen off in that province. New Brunswick turned out five vessels, Prince Edward one, and Saskatchewan one.

Prospects for 1921 are not as good. There are fifteen vessels for the Maritime Marine shipyard, but delivered, with only 46 vessels, led in gross tonnage with 703,323 tons, as compared with British Columbia's 66,661 tons. Nova Scotia turned out ninety vessels, all small. Ontario is credited with but seventeen vessels, showing how the industry has fallen off in that province. New Brunswick turned out five vessels, Prince Edward one, and Saskatchewan one.

Sir Thomas White Need Not Resign

Deputy Minister of Justice Claims Former Finance Minister Qualified to Sit.

Ottawa, April 4.—Sir Thomas White, as government representative on the board of arbitration, now engaged in investigating the property value of the Grand Trunk Railway, is not disqualified from acting as member of the House of Commons for the constituency of Leeds and Grenville, in the opinion of E. I. Newcombe, deputy minister of justice.

The opinion of the deputy minister is based on the fact that the member of the House of Commons for the constituency of Leeds and Grenville, in the opinion of E. I. Newcombe, deputy minister of justice.

Wrote the Premier

On September 10 the former minister of finance wrote to Rt. Hon. Arthur Meighen, then prime minister, asking him to be desired of ascertaining whether such appointment would disqualify him as a member of the House of Commons, under the provisions of the Constitution and House of Commons Act; and whether, in the event of there being no disqualification, the case was one in which parliament might authorize his payment as arbitrator without disqualifying him as a member.

He asked the prime minister to refer the matter to the department of justice for its opinion thereon. "There is no doubt whatever as to my qualification, I should prefer to resign my seat," he wrote. "On the other hand, if I am not disqualified by the appointment, it seems undesirable to put the country to the expense of a by-election in Leeds."

ROTARY CLUB CONDUCT FINANCIAL CAMPAIGN FOR BOY SCOUTS.

The Rotary Club of St. John have undertaken a financial campaign for the Boy Scouts Association of New Brunswick. The amount to be secured is \$3,000.00, and the campaign is being conducted in St. John and throughout the Province.

A committee of Rotarians of which Major E. H. Weyman is chairman, will make a tour of the business section of St. John on Tuesday and Wednesday of this week and will give all who wish an opportunity to subscribe to the funds of an organization which has for its object the training and Canadianization of our boys.

During the past year approximately 1,500 boys have received Scout training in New Brunswick and at present St. John has a membership of 500 Boy Scouts and Wolf Cubs.

The movement which is non-military, non-sectarian, and non-political was launched by Sir Robert Baden-Powell in Great Britain in 1908, since that date it has spread over the entire civilized world. According to a census taken last June there are 20,000 Boy Scouts in the Dominion of Canada and the movement is rapidly growing and is being taken up by religious, educational and philanthropic institutions everywhere.

The Boy Scouts Association is the only boys organization that has lived a different contentment would be reached at the end of a first year, or possibly the second year, showing a small loss or better still a little profit.

Public criticism and public discussion of the railway is the country, influencing the politicians causing them to pay more attention to the rumblings of public sentiment.

In conclusion, Mr. Editor, I can only wish and hope that Canada will be fortunate enough to secure the right and proper railway man in the right and proper place.

Yours truly,
MONCTON CONSERVATIVE.

Builders On Strike

Northampton, Mass., April 4.—Most of the building trades unions of this city went on strike today in protest against a reduced wage schedule announced by the building trades employers association. The masons decided to remain at work for the present.

5c. a Day Hood's Sarsaparilla

The best spring medicine treatment that can be given to the blood is Hood's Sarsaparilla. It is a wonderful remedy for impurities of the blood, rheumatism, skin diseases, scrofula, eczema, to give nerve, mental and digestive strength and to build up after protracted illness, influenza, grip and fevers.

Get a bottle of Hood's Sarsaparilla and begin to take it today. Hood's Pills, small, safe, mild, laxative; larger, an active cathartic.

Zam-Buk
Canada's Greatest Healer
The Wonderful Gum that heals the mouth and throat.

DIED.

GILBERT.—At East Boston, Friday, April 2d, 1921, at his late residence, 276 Douglas Avenue, Florence, beloved wife of Fred W. Munro.

Funeral from her late residence, Tuesday afternoon at 2:30.

Missing Link In Murder Not Found

Yarmouth, April 4.—The Crown Prosecutor and Chief of Police steadfastly refuse to let go of the facts concerning the supposed clue discovered in the Perry murder case during the visit of Dr. W. D. Finn here Friday.

One question is agitating the public mind and that is what action will follow the report of Dr. Finn. Many are inclined to think an arrest will be made; a few others say no. An arrest is not at present in sight, and will not likely be until the missing link in the chain of evidence is found.

Dr. Finn, in speaking of the case, Friday, said that this murder mystery was a most beautifully staged picture. He felt that the question was, Who and where are the missing actor or actors?

Millmen Accept Wage Reduction

Longer Hours, Too, Part of Plans of Burr Lumber Company.

Fredericton, N. B., April 4.—Edward Burr, of this city, president of the Burr Lumber Company, whose mill is at Cardigan Station on the G. N. R., announced this morning that the employees had accepted the company's proposals for a ten-hour working day and a reduction of 15 per cent in wages. The mill, it is said, would open on the new basis next week and will cut lumber carried over from last year. The company carried on no logging operations during the past winter because of the market situation.

Mr. Burr, in making the announcement, said that the acceptance of the longer working hours and reduced wages, said there was not a dissenting voice among the company's employees. "The men said they expected some such action would be necessary," said Mr. Burr.

A new system with division of the mill into sections, with inspection and records of work performed on each lot under care, will be inaugurated this year, ensuring prompt attention to every lot.

It was with much regret that the directors heard of the death last September of the late A. W. Adams, for the past few years a valued and interested member of the board. His place as a director has been filled by the election of Frank A. Kinnear.

Crown Brand Syrup

The Ideal, economical sweetener for cooking. Keeps in definitely. Sanitary, air-tight tins guarantee absolute purity.

The Great Secret

The election of directors resulted as follows: Judge J. G. Forbes, Peter Campbell, C. E. Scammon, R. H. Doerflinger, F. H. Hamilton, Col. E. T. Sturdee, C. L. Rising, J. A. Lihely, G. A. Kimball.

These

"WHAT to get for your loved ones? To-day, tomorrow, every day in the week."

This is woman's and the source of endless worry.

True, there are when most women pleasure and pride in being and baking, but you are not feeling up to the mark it does get nerves and become worry—a nerve-ache.

Since meals are to life, the old proverb "what to eat" must be needed not be a

Fernhill Cemetery Annual Meeting

President Submitted 73rd Annual Report — Col. E. T. Sturdee Elected President.

The annual meeting of the 73rd anniversary of Fernhill Cemetery was held yesterday afternoon with Col. E. T. Sturdee, president, in the chair. There was no new business brought up. Satisfaction was expressed in regard to the present state and management of the cemetery grounds. The retiring president submitted the following report for the year: "The seventy-third annual report of the directors is hereby submitted, included in which are several items from the twenty-seventh annual report of the present superintendent."

Financial

The statements and balance sheet of the secretary-treasurer have been submitted. The amount of debentures held in bank safety box on account of perpetual care fund, \$10,000.00, again show an increase over previous year, the extra cost of labor alone was over \$2,000, and general expenses, salaries, etc., show increase; these have been partly met by a slight advance in fees and cost of annual care, the balance being derived from sale of lots; two horses were purchased last year at a cost of \$300 to replace those previously sold. The principal items of expenditure have been:

Labor	\$13,300
Feed for horses	400
Tools, cement, drain pipe, paint, shoeing, etc.	735
Seeds	237
W. O. R. M. S. Compensation	226
Office rent, salaries, telephones and sundries	3,616
The power lawnmower received early in the spring was in constant use all summer. The cost of the machine was \$774.	

Perpetual Care Fund

This fund now amounts to \$157,215, an increase of \$11,000 for the year, representing about 1,400 lots, besides over 300 monuments. This money is invested in government and municipal debentures.

The plot containing nearly 200 lots on Central and Water Avenues was completed early last year, and before the plant was removed from the ground it was thought advisable to erect a new plot, adjoining the above, especially to provide cheap lots, of which several are completed, meeting with ready sale, giving a section from the very cheapest ground upwards, with or without perpetual care. With such a number of available well drained lots, no more such new work will be undertaken this year. The new small plot section was in such demand that this ground had to be extended by adding sufficient for more single graves.

Receiving Tomb and Lots

The chapel has been much improved by installing permanent seats or pews in place of chairs formerly used. A casual carriage was procured for use in the tomb by Messrs. N. W. Brennan & Son, to whom thanks was conveyed.

The directors have engaged F. W. Holt, C.E., to make a survey of the cemetery and bring all plans up-to-date, so there will be a corrected record of every plot and lot.

Efforts are still being made to improve neglected lots; but as there are so many such, and no owners or representatives alive, it is impossible, without funds for the purpose, to make progress. A beginning has been made in removing broken, fallen, or dangerous monuments from lots, after owners, if any, have been notified. These are stored in view of future claims and careful records kept thereof.

Into Sections

The election of directors resulted as follows: Judge J. G. Forbes, Peter Campbell, C. E. Scammon, R. H. Doerflinger, F. H. Hamilton, Col. E. T. Sturdee, C. L. Rising, J. A. Lihely, G. A. Kimball.

ASPIRIN

"Bayer" is only Genuine

Warning! It's criminal to take a chance on any substitute for genuine "Bayer Tablets of Aspirin," prescribed by physicians for twenty-one years and proved safe by millions. Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Baker package are directions for Colds, Headache, Neuritis, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monacaceticacid of Salicylicacid.

The election of directors resulted as follows: Judge J. G. Forbes, Peter Campbell, C. E. Scammon, R. H. Doerflinger, F. H. Hamilton, Col. E. T. Sturdee, C. L. Rising, J. A. Lihely, G. A. Kimball.

F. A. Kinnear, H. C. Rankin, Thos. Bell, H. W. Rising.
At a subsequent meeting of the directors, Col. E. T. Sturdee was elected president and E. L. Rising, vice-president. J. F. Clayton was appointed superintendent, and Miss M. O. Magee, secretary-treasurer for the ensuing year.

OUT O' ORDER STOMACHS

Indigestion, Acidity, Sourness and Gases ended with "Pape's Diaprepain"

The moment you eat a tablet or two of Pape's Diaprepain all the lumps of indigestion pass; the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful! Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diaprepain neutralize acidity and give relief at once—no waiting! Buy a box of Pape's Diaprepain now! Don't say dyspepsia! Try stomachs you can eat favorite foods without causing distress. The cost is so little. The benefits so great.

PLAINTIFF WINS.

In the case of Wetmore vs. Gilbert, yesterday morning before Chief Justice Hazen, judgment was given for the plaintiff for \$160, made up of \$100 return of deposit and \$60 solicitor's fees on searching the title to the property in question. This was an action for specific performance on an agreement to sell a certain property and in the alternative for damages. At the trial it developed there was a life interest in the property outstanding for a release was unobtainable, so the claim for specific performance was abandoned and the matter came to a question of damages. H. A. Porter appeared for the plaintiff and K. A. Wilson for the defendant.
