## AUTONOMY BILL GOES THROUGH; MAJORITY 81

Ten Conservatives Vote Against Leader on the Measure

Vote Was 140 for Bill and 59 Contra--- Dr. Stockton Gets an Ovation from His Side in Speech Declaring for Provincial means the great west." Rights--Objects to Being Called Bigot and Fanatic for His Stand---Minister of Justice Declares He Drew the Educational Clause of Bill.

Ottawa, May 3—(Special)—The vote on the amendment of Mr. Borden to the second reading of the autonomy bills was called at midnight and was defeated, the vote being 59 for and 140 against. There were four speakers today, Messrs. Fitzpatrick, Barker (Hamilton), Stockton (St. John), and Leonard was the last speaker. It was expected that W. F. MacLean was to follow but he did not do so, and the vote came on therefore a many different school systems as there

We Paid \$100,000

### Mr. Fitzpatrick—Then you don't need to vote on the second reading. Dr. Stockton—I am not voting on his recommendation. (Laughter). If the minister of justice explained this he would like the process of the second reading AGAINST MONCTON ake the confidence of the men behind LIQUOR SELLERS

Dr. Stockton went on to say that the provincial authority was the only one that could legislate in regard to education. There was no duty on the part of the dominion to legislate on education. If the dominion could withhold one right from the province they could make a province a dwarf upon entering confederation.

"I vote," said Dr. Stockton "for the amendment of the leader of the opposition because it is along the lines of free.

## ST. JOHN MARKETS

There has been little activity in the local wholesale markets this last week. There have been many rumors, but with the excep there has been no activity displayed in an

country and the produce market is not very well supplied. Halibut are becoming more plentiful and as a consequence they are somewhat cheaper. The following were the principal wholesale quotations yesterday:

the oyster merely "passing out" these ba-cilli, but must be due to a large extent to an inherent power of the oyster of directly devitalizing the microbe. Experiments with it, but I'm afraid your wife hasn't any the "dry" oysters prove this, and it is also sense of humor." evident from the rapid rate at which this microbe disappears from the oysters kept in clean water if compared with the very small number found at the same time in the surrounding sea water. Oysters which had been affected with typhoid bacilli and were then kept in a "dry" state until they had practically cleared themselves, when subjected to reinfection with the bacilli,

New York, May 3—President James W. Alexander, of the Equitable Life Assurance Society, today resigned as trustee of the majority stock left by the late Henry B. Hyde. It was said tonight that Mr. Alexander was moved to take this course because of James H. Hyde's charge that he had been disloyal to his trust.

St. John Man Victim of Boston swindle.

Boston, Mass, May 1—Charles I. Parker, 57 years old, of Roxbury (Mass.), a well-known promotor and leading figure in the Union Realty Company of this city, is under arrest on the charge of stealing \$850 on three counts, from as many individuals during the past few months.

Parker, the police say, advertises for a man with a small capital to secure a good position with a learning burning burning to truining burning burning to truining burning burning to truining burning burning to truining burning to the manual capital to secure a good position with a lucrative salary. Stanley

OYSTERS AND TYPHOID GERMS of typhoid bacilli in their bodies was three cockle examined ten days after removal from infected water still contained in its After Investigation.

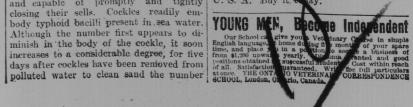

Washington, April 28—Professor Klein, F. R. S., has recently finished his investigations regarding the relation of oysters to typhoid fever, and United States Consul Halstead, at Birmingham, England, for lawards to the department of commerce and lawards to the contained in its body 69,000 typhoid bacillis. Mussels also readily embody the typhoid bacillis, in fact, analysis seems to show that they do so to a greater extent than oysters or cockles. As regards the fate of the typhoid bacillis, in fact, analysis seems to show that they do so to a greater extent than oysters or cockles. As regards the fate of the typhoid bacillis, in fact, analysis seems to show that they do so to a greater extent than oysters or cockles. As regards the fate of the typhoid bacillis, in fact, analysis seems to show that they do so to a greater extent than oysters or cockles. As regards the fate of the typhoid bacillis, in fact, analysis seems to show that they do so to a greater extent than oysters or cockles.

slower if they are kept in a "dry" state, i. e., out of sea water. Osters from a polluted locality clear themselves of the ingested bacilli to a less extent and at a slower rate, even if kept in sea water, than a polluted locality retain the ingested typhoid bacilli to a markedly larger extent it kept "dry," i. e., outside of the water. The process of "clearing themselves" of the ingested typhoid bacilli cannot be owing to the ovster merely "passing out" these bathough dependent of the service on condition that during next season a new and larger boat should be placed on the route.

Jones-"You'll pardon me for saying Davis-"Oh, yes, she has. You should

## THEN CONSUMPTION

# This Company, after testing Liquomone for two years in the most difficult germ diseases, paid \$100,000 for the American rights. That is by far the highest price ever paid for similar rights on any scientific discovery. We publish this fact to show you the value of Liquozone. Men of our class don't pay a price like that save for a product of remarkable worth to humanity. Kills Inside Germs The reason for that price is this

reason for that price is this more for sich and alone can kill germs in the without killing the tissues, to ing else in the world is so good or human body; yet Liquozone is nicide so certain that we publish in the bottle an offer of \$1,000 for a germ to be significant kill. quozone destroys at once and forever cause of any germ disease. And is no other way to do it. Any drug tills germs is a poison, and it can be taken internally. Medicine is are inevitable. By of the trouble, disease, and forever the disease.

Liquozone is not made by compounding drugs. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, this gas is made part of the liquid product. Liquozone has, for more than 20 years, been the constant subject
