#### STORY OF THE BIBLE. HOW IT WAS COMPILED, PRESERVED

AND BROUGHT DOWN.

In the Little Land of Canasn—Conquered

New discoveries about the Bible are being made almost daily. The religious world is startled every now and then by the announcement that some old manuscript has been found or some clay tablet corroborating Biblical history has tablet corroborating Biblical history has been deciphered. The last few years have been especially notable for remarkable finds, not the least of which has been a single leaf of papyrus bearing a few sayings of Jesus—logia, as they have been called. These discoveries arouse a questioning frame of mind. We ask, how did we get the Bible, whence did it come, what was the method of its transmission to us? Learned volumes have been written, but only scholars read them. One of the Learned volumes have been written, but only scholars read them. One of the latest of these is by Dr. William A/Coppinger, but it is so expensive a volume—only 150 oppies have been printed for sale—that few can read it, even if they would. The much talked of polychrome Bible. edited by leading Biblical they would. The much raises to good chrome Bible, edited by leading Biblical scholars of the world, is an answer to this demand. Still, the question, how did the Bible come down to us? ought to be answered briefly, so that the massto be answered briefly, so that the mass-es of the people can read and under-stand. It is irreverent to the Bible and the inspired men who gave us this world classic—the classic—dealing with the eternal theme of the relation be-tween man and God to think of it as a

tween man and God to think of it as a ready made volume, dropped down from heaven bound and gilt edged.

The Bible was born in the little land of Canaan as the weary caravan, led by Abraham from Ur of the Chaldees, pitched its tents and the patriarch wrote down the promises of the Eternal on the palm leaves which he found at hand. This was more than 4,000 years ago, and that writing was in use so early is proved by inscriptions found on Egyptian steles or Assyrian tablets from 6,000 to 8,000 years old. 8.000 to 8.000 years old.

The records kept by Abraham and his immediate descendants undoubtedly formed the basis of the book of Genesis formed the basis of the book of Genesis and the earlier chapters of Exodus, to be later utilized by the hand of Moses and his successors. With the advent of this great legislator of the Hebrews the nation was formed, with his legislation as its heart and center. It is probable that Moses wrote his portion of the Bible upon the linen used for such purposes in Egypt, for many large pieces of this linen covered with his prographic virting have come down to us wrapped around mummies. The inscriptions are

Lent is a season in which we should permanently deepen and quicken our spiritual life. It presses these questions upon us: "Is your religion a name only, or is it a reality?" "Is your chief desire to conquer self and to do God's will wholly?" Lent's real aim is to help us to repent and to conquer our sins. If it be hailed merely as a season of rest from social duties, then will it indeed be a notices, then will it indeed be a mockery. Permit me to make a few suggestions that may help you to properly observe this gracious season, so that you may prove it to be a wellspring of life to your souls.

Be true to the Church's teaching
