Cures While You Sleep
Whooping Cough,
Croup, Colds, Coughs,
Asthma, Catarrh.

During recent years an important change has taken place in the treatment of certain diseases of the air passages. While formerly it was the custom to rely almost entirely on internal medications in this treatment, the importance of direct applications of medicines to the diseased parts is becoming more and more generally recognized. Of this method of treatment, Cresolene is the most largely used, the most successful in its results, and the most convenient way of medicating the air passages.
