

mugwump journal

by Robert Macmillan

Perry Thorbourne, president of the SRC last April noted his intention to resign at the end of August has decided to remain on as the president. Perry Thorbourne noted his change of mind as a change in attitude.

There is a new restaurant in the SUB. It is located in the lower level of the building, right next door to the Brunswickan. So far there appears to be a good turnout every day. The prices are a little higher, but the only line you have to stand in is the line to get in. Beaver foods also recommends no tipping.

Has anyone else noticed that only the bottom half of the pillars in the back of the SUB near the circular drive have been painted. I wonder why just half have been painted. Do you have any ideas? (Maybe Physical Plant ran out of paint?)

There is a new Student Discipline Code. It is to be passed by the Board of Governors. It appears that there are many troubling areas of the code. One reason might be that there was virtually no student input. We think that the document is important for all to read.

The first meeting of the SRC will be held on Monday September 29. This is quite late in the month very late in fact. This might cause some delay in the passing of important issues that occurred over the summer. There might be a chance that the meeting will be held earlier. A note to all new students, the SRC meetings are important to you. They need support just like any other student organization.

I hear that the bursary part of the New Brunswick student loan has been increased by \$700.00. This action has to be welcomed by New Brunswick students. This will help to keep many of the students in university that were unable to get jobs this summer.

The Brunswickan welcomes the newest faculty, that of Business Administration. The dean is Dr. Eric West, from Ottawa University. Once again, Good Luck.

And about CHSR FM, well, the application has come before the CRTC. Several members of CHSR's executive went to Hull for the licence application. The station is still waiting to hear further on their application.

Parking is still a problem. In my four years here it has always been a problem. One solution I have recently heard is to clear the wooded area behind the parking lot above the SUB. This would permit additional parking facilities. It's so obvious that I guess people couldn't see it because of the trees.

Well thank you to all of the new helpers we have been graced with. It is our great fortune to receive such ambitious help and of course I haven't forgotten all of our old staffers. Thanks.....
