

## Superintendent Underhill retires

Ray Underhill, superintendent of schools in Chinguacousy since 1966, announced his retirement last week.

Mr. Underhill, who has been involved with education in Peel County for the last 25 years, and with

education in general for 46 years, decided it was time he retired . . . and he plans to do as little as possible for a while.

Mr. Underhill is a graduate of London Normal School, and later Queen's University.

He later worked for the department of education as a school inspector as well as teaching summer school before he came to Peel County as a school inspector in 1944.

From 1956 to 1966, Mr. Underhill was inspector of

public schools for all areas except Toronto Twp. Brampton, and the then Toronto-Gore area.

In 1966, Mr. Underhill accepted the post of superintendent in Chinguacousy, and now makes his home in Brampton.

Helen Ainsworth of Cooksville and Lorraine Patzalek of Burlington were among the 48 student nurses to move into residence at the newly-constructed Credit Valley School of Nursing, Saturday. The school has been in use for several weeks and the first group of students moved in at the weekend to take up residence as the second floor of the nine-storey building was completed.

Hamming it up for the cameraman outside Credit Valley School of Nursing are Katharine Doyle, 10, (right) and Tudy Lillie, nine, of Port Credit. Two keen girls here . . . they both want to become nurses and said they could hardly wait to register at the school!

## Northern Electric drafting courses

Northern Electric will be allowed to hold drafting courses this summer courtesy of the Peel County Board of Education.

The board last week approved a motion to give Northern Electric the use of two drafting rooms and two academic classrooms, as well as drafting boards and T-squares, for July and August, in Bramalea Secondary School.

It was also agreed to allow the company the use of one room at Brampton Centennial School if registration exceeds the capacity at Bramalea.

The courses, which were run last year, are open to any graduate of the four-year science, technology and trades course in Peel County.

Those selected to take the course become employees of Northern Electric for the summer and are paid accordingly.

At present, plans call for one course to begin July 2 and run to August 15, and another to begin July 7 and run to August 22.

Hours will be 8 a.m. to 4 p.m., with lunch supplied by a canteen service.
