Dear Sir,

I spoke to the Catholic Indians in a meeting and also privately, and they all agree to have a stable built for their horses near the ground of the church; and also a fancy fence all around the churchground.

Would you kindly write to the Indian Department about that? As you remember the whole Band of Cape Croker (Protestants and Catholics) are willing to have the Catholics borrow every \$6000.⁰⁰ for their church and for other necessary things, as a stable, a fence etc, etc. Now the church will cost only \$5,430. So they could spend some money to build a stable and a fence. You understand that these two things are necessary.

Maybe the contractors of the Church could also take the contract of these things.
