ANOTHER DISCOVERY.

Of Interest to Bicycle Riders,

A well known bicycle rider has made a discovery that will be good news too all who locomote on the wheel. He

Since I first began to ride a wheel, which is several years ago, I have been subject to more or less chafing and irritation. Sometimes when heated the itching inside my legs would be so severe that I would feel compelled to forego riding for a time. Nothing that I tried did any material good until my attention was drawn to an advertise-ment of Dr. Chase's Ointment for all itching of the skin. I tried it and almost from the moment it touched the skin the itching stopped. I also find its occasional use prevents chafing. Further evidence of the efficacy of this preparation is given by Chas. Roe, foreman Central Press Agency, Toronto, who was troubled with Itching Skin of the most aggravated kind. When the skin became heated during sleep from too much clothing, would wake up with absolute pain from digging into the flesh with his nails. Chase's Ointment gave relief from the first application and permantly cured. Price 60c.

sent the Fonthill Nurseries of Canada. Over 700 acres. The largest in the ary or commission to right man. With the increasing demand for fruit a posi-tion with us as salesman will pag you better than engaging in farm work. Send in your application and we will show you how to earn good money. School teachers! its just the thing for

The Garden Party at the residence of Mr. H. Logan, held last week ap-pears to have escaped our attention A good programme was disposed of which met with hearty appreciation, especially the songs by Mr. D. M. Smith, which were enthusiastically encored. The air was damp and chally which kept many force attended. ot but that it was interesting enough which kept many from attending who otherwise would have been present.

The Whitby Chronick says: As the Grand Trunk railway company makes no announcement of its changes until almost the hour of their occurrence it is hard to keep track of them. There was a time when the railway advertised their accommodation for the public in a manner that would keep people posted and they made money then, but during late years they have acted as though it were a favour to the public to allow people to ride and pay for it. By this latter system they are losing

The Big Show of the World.

Speaking of Sells Brothers' Great Circus, which will exhibit in Orillia, Thursday, August 22nd, the Buffalo Daily Enquirer of May 24th, 1895 says : Two of the biggest crowds that ever saw a circus in Buffalo filled the big tents of Sells Brothers at Michigan and Exchange Sts yesterday. They saw a first class, up to date show, fully as good as any shown by Barnum or Forepaugh, whose successor this organization aims to be. It is a three-ringed circus, with a big menagerie and avi aries, aquariums, collections of freaks and side shows, drew fully 15,000 poo-ple to each performance. A special performance was given this forenoon, and the tent was well filled with an enthusiastic audience. The circus is wonderfully complete, nothing being lacking that would furnish amusement The performers are of a high order of

OUR LETTER BASKET

A Trip to Haliburton

DEAR -EXPRESS, - Having had . delightful experience in travelling in the back country, a few words, per-haps will be interesting to your readers Wishing to make a visit to the village of Minden, Haliburton, I started one evening from Eldon Station for Cobo-conk which is the terminus of a branch of the G. T. R. The car was full as fart as Kirkfield where many were staying waiting for work on that Canal which is supposed to go through near there. How slowly that train does move, and what long rests it does take; How rough the track is. It stopped wherever it got the ghost of an excuse, perhaps only a large wood-pile and a half-dozen houses and as if it could not travel forward slow enough it even took a spell of backing up, etc. Well, I arrived at Coboconk some where about midnight and put up for the night on the bank of the Guil river where the river drivers were busy with logs. The next day a surprise awaited me. I had expected to drive to Minden but my friends met me, saying that they had rowed from a mile north of Minden to Ellis Falls, about a mile north of Norland, We were to walk to the Falls about seven miles but fortunately we got a ride over the hills with a Salvation Army man. We met a half dozen buggy loads of Salvationists (who are holding meetings in Coboconk) with their musical instruments. The three of us embarked in our row boat and rowed six miles back up Moore's Lake where we had to portage past Moore's rapids. The Post Master at Moore's Falls who kindly helped us portage our boat advised us not to proceed until morning as it would be dark we stayed over night and got a fresh start in the morning as we had rowed twenty-three niles altogether in one day down and up. In the morning after rowing a few miles in the narrow portion of Gull Lake we came to the body which is so full of Islands that the lake is generally only channels between. It was a foggy day, and we got lost among the islands, but found our way out in about an hour, coming down at the meath of the Gull river which empties into this lake. There is a very swift current which we had been warned of which completely swept our boat around, but before reaching this we met the great boom which fill-ed the head of the lake but fortunately the wind had swept the logs to the western side and we managed to drag our craft over and through the obstruction. We now had an exciting pull through the current which is so swift as to be dangerous for an inex-perienced oarsman. I handled the rudder and the other two rowed with all their might, even then it seemed slow work but at last we were safely through and a pull of four miles took us to Minden bridge where we met, to our surprise, another drive of logs which completely blocked the river for three quarters of a mile, so leaving our boat on the bank, we trudged the remaining three miles home, over hills and into valleys. Hills that range from 80 to 150 ft. covered with hardwood forest. The Sold by A. T. Elliott, Beaverton wish. One of our neighbors came across a herd of five deer last season and shot three of the number they were lying down it seems, in his own woods. I don't see how it is that Beaverton boys who come back North hunting every fall have such poor "luck" as we can scarcely go through the bush hunting cattle without seeing a deer. according to our "yarn-spinners" tales. J. H. T.
