

JOSEPH HALL MACHINE WORKS, OSHAWA, ONTARIO.

ESTABLISHED 1851.

JOSEPH HALL MANUFACTURING COMPANY, PROPRIETORS.

THE Business carried on at Oshawa, by the late JOSEPH HALL, and more recently by his Executors, has been purchased including Shops, Machinery, Patterns, &c., by the Joseph Hall Manufacturing Co., who will continue the business in all its branches with increased energy and vigor. Our facilities will be very much increased by the addition of new Machinery and a more thorough organization. Through our connection with the

Glen & Hall Manufacturing Company of Rochester,

We shall continue to receive all valuable improvements introduced in the United States.

We shall offer this season our well known Machines, with many valuable improvements, and shall as usual keep constantly on hand duplicate parts of all our manufactures, thus enabling us to supply the wants of our customers, and save them from delay in case of accidents.

Mr. F. W. GLEN will continue to give his time to the Management of the Business.

We are determined that all that capital, skillful workmen, improved machinery, perfect organization and division of labor can do, with the best material, shall be done to put into the hands of our patrons the best machines made in Canada, at the lowest possible price.

F. W. GLEN, Pres.,
OSHAWA, ONT.

PETER R. LAMB & CO.

MANUFACTURERS OF

Blacking, Water-Proof Leather Preserver, Harness Oil Blacking, Neat's Foot Oil, Glue, Superphosphate of Lime, for Manure, Ground Bone, for Manure, Ivory Black, Animal Charcoal.

LAMB'S SUPERPHOSPHATE OF LIME, \$40 PER TON.

Put up in Barrels Containing about 200 lbs. each, and Warranted to equal any in the world.

WE desire to call special attention to our SUPER-PHOSPHATE OF LIME, a highly concentrated manure, manufactured from Bones and Animal matter, decomposed by the addition of Sulphuric Acid and Ammonical Liquor. It contains Bi-Phosphate and Neutral Phosphate of Lime in abundance, Sulphate and Carbonate of Ammonia, Carbonaceous substances and Nitrogenous Organic Matter, &c., gradually yielding Ammonia to the soil. Manufacturing it of the best materials and in the most approved manner, in combination, all the ingredients necessary to the nutrition of plants and to the fertilization of Soils. We offer it with the utmost confidence as being fully equal, if not superior, to the best Peruvian Guano.

We warrant every barrel of our Super-Phosphate of Lime to maintain the standard of analysis, and to be free from the admixture of Gypsum, or any cheap substance whereby the weight may be increased to the injury of the Farmer or Gardener, who, paying for a concentrated manure, expects to receive the benefits of such, but often finds to his cost that he has bought a worthless article, manufactured by Speculators under the name of Super-Phosphate, but which contains little or none of the Phosphates being merely a mixture of Gypsum with other cheap and weak manure, which does not nourish the soil, but, from their stimulating nature, produces exhaustion of the land.

Lamb's Super-Phosphate of Lime

Matures crops from ten to twenty days earlier, and increases the yield one hundred per cent. It gives Wheat, Rye, Barley, Oats, &c., a firm stalk, and produces a large head and plump kernel. To Tobacco growers it is invaluable, giving a large, well-developed leaf, and protecting it from the worm. Pushing Onions into vigorous growth increases the yield and prevents the attack of the maggot, so injurious to this plant.

It must be remembered that our Super-Phosphate is a concentrated and active manure: it should, therefore, be incorporated with the soil, or scattered around growing plants, but on no account to come directly in contact with the seed or young plant.

FINE BONE DUST	-----	\$27 PER TON
HALF INCH BONE DUST	-----	\$22 PER TON
