JOHN COATES
Druggist, Mildmay.

Why "Anurio" is an INSURANCE Against Sudden Death.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce of the Invalide' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery, "Anurio." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anurio" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anurio" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Anurio" put up by Dr. Pierce, in 50-cent packages.

Notice To Creditors

In the matter of the Estate of Balthasar Weigel, late of the Township of Carleton Place, in the County of Bruce, Gentleman, deceased.

Notice is hereby given pursuant to the Statute of Ontario in that behalf, that all creditors and other persons having claims against the Estate of Balthasar Weigel, of the Township of Carleton Place, who died on August 22nd of February, A. D. 1916, are required to send by post prepaid or deliver to John A. Haines, Executor of the said Balthasar Weigel, on or before the 25th day of March, 1916, their names, addresses and full particulars of their claims duly verified, and the nature of the securities, if any held by them, and after the said 25th day of March, 1916, the said executor will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which he shall then have had notice, and he will not be liable for the said assets or any part thereof to any person or persons of whose claims he shall not have had notice.

JOHN A. HAINES,
Executor Elizabeth Haines Estate
Dated at Mildmay, this 26th day of February, 1916.

ADOLPH WEIGEL, Executor
FRIED. J. WEIGEL
Dated at Mildmay this 21st day of Feb., A. D. 1916.

Soldiers Mob a Lutheran Pastor's Home.

Once more the racial fires of the city of Berlin, Ont., have burst into flames. This time it is at the expense of the Rev. R. C. Tappert, pastor of the Lutheran church, who from his supposed pro-german sympathies has aroused the animosity of members of the 118th Battalion stationed there. The hostile feeling unning against him reached its pitch shortly before 11 o'clock, when about 60 soldiers broke into his home, treated him to more or less physical violence, dragged him into the open, paraded him about the streets for an hour hatless and coatless, and were about to lock him in their barracks when he was rescued by one of the officers of the 118th.

The result is that two soldiers, a sergeant and a private, sorted out as ring-leaders in the attack, have been placed under civil arrest on a charge of assault and have been turned over by the military authorities. A further result is that Rev. Mr. Tappert is threatening to make the affair the means of international complications with the United States, whose citizenship he claims. Already the American consul at Hamilton has been communicated with and Lt.-Col. W. N. O. Lochead, commanding officer of the 118th Battalion, has received a long telegram from the Consul at Hamilton protesting against such treatment of an American citizen at the hands of the Canadian soldiers.

The Price of Gasoline.

The head of a corporation which has offered the most persistent opposition to the Standard Oil Company, predicts that by midsummer the price of gasoline will have reached 40 or 50 cents. He says that there never has been a greater available supply in this country, and that while the price has increased 205 per cent in five years, facilities for the extraction of gasoline have been radically improved. The war demand and the extortion of a monopoly are given as the reasons for exorbitant prices.

While the gasoline problem in this day of the internal combustion engine is a grave one, it is not quite as desperate as some would have us believe. If the prices are arbitrarily controlled by a monopoly it is certain that far-sighted financiers will not permit the screws to be put on too hard. The demand could be permanently reduced by too much price boosting which would lead to cutting down the use of gasoline to its minimum thus inflicting a permanent injury on the market. Cars and engines of light consumption would be manufactured in larger quantities to offset the expense of fuel.

Therefore, at about the time the foreign needs let up a sharp slump may be expected.

Furthermore, the cost of gasoline is not the chief factor of expense for a motorist. At the present rate an average expenditure of \$100 for a year might be assumed for every car owner. Car depreciation exceeds that item by a large margin, while tires and other necessities of upkeep are considerably greater. If gasoline prices are being artificially juggled as is generally taken for granted, they are being juggled being juggled by experts who for the sake of their own profits, will not go beyond limits.

the families of their captors that
cases the prisoners have married into these families.

General Sam Hughes presented to a Toronto militia regiment a flag which has rather an interesting history. It was given to him in New York by an old Britisher named Harry Piper, once a resident of Toronto. It is a Union Jack and was presented to Mr. Piper in 1862 by an old Indian chief in the Northwest who had in return received it from Lord Strathcona. Mr. Piper desired that it be presented to some Toronto regiment.

Frank Warner, the thief who plundered the branch store of S. A. Rife & Co. of Walkerton, and who was traced to his lair by Harris Rife, who discovered blood stains on the store counter and tracked it to Warner's room in the Mid-daugh House where blood was also found on the bed-clothes, and Warner himself had a finger tied up which he cut on the window on entering the store, was tried at Owen Sound the other day and sentenced to six months in Ontario Reformatory.

There are over one thousand military officers, graduates of the schools at London, Toronto and Kingston, who are still without appointments for overseas service, although the majority of them are anxious to participate in the fighting. The latest proposal to get these men to the front is to form an officers base battalion, from which specialists could be drafted for any branch of the service.

Sir Sam Hughes was at one time derided on every side by the Opposition for his drill halls, armouries and cadet training, but no one laughs now that the advantages are so greatly apparent. The men are ready to go because Sir Sam has evolved a splendid system that has been materially assisted by the work done in years of peace, and because of the Minister of Militia does not hesitate to break any red tape that would interfere with effectiveness.

Use Burning Liquid.

The Germans in their assaults are using several sorts of burning liquid projectors. One of these is in the form of a small tank, which is carried on the back, filled with a composition liquid which seems to be mostly kerosene. Attached to the nozzle is an ignition apparatus. The liquid is projected by means of a hand pump. The radius of action of the oil depends on the skill and the physical effort of the man who projects it, but it is ordinarily from 60 to 90 feet. Some French soldiers have been burned to a crisp by the flaming liquid. Other chemical weapons used by the Germans in the battle at Verdun include asphyxiating shells, vapors which irritate the eye and incendiary shells.

The Compress and Vacuum Washer

HAVE YOU TRIED IT?

Guaranteed to wash a tub full of clothes CLEAN in from 3 to 6 minutes. No wear on the clothes with this washer. Last a life time. Easy to operate. A child can use it. All for two dollars. When you get to using this washer you will use no other, even supposing you had another machine at your home. Remember I am prepared to prove every word of this statement. For sale at my store.

A full line of the best flours in the country. Also teed and meals of all kinds. Wheat taken in exchange for flour and meals. Highest cash prices paid for Butter and Eggs. Get your clover and timothy seeds now as prices are advancing.
