Ruling Issued by Board of Ry. Commissioners

Dried Peas, Whole and Split, Are Being removed to Vegetable

Section. By Specila Wire to the Courier. Ottawa, July 10 .- The Board of Railway Commissioners in regard to the application of the Montreal Board of Trade for an order directing that the rates published for the carriage of grain products from Ontario to points in the Eastern States be applied also on split peas and for disallowance and of the Toronto Board of Trade for suspension of the schedules removing whole peas from the list of articles which take grain rates from and to the aforesaid territories, has issued this rul-

"In this matter, it appears that in the new Canadian freight classifica-tion which the railways are preparing, it is proposed to remove dried peas, whole and split, from the grain ection to the vegetables section, thus following the example of the American classification. While the rating will as proposed, remain the same as at present, viz., eighth class, the effect would be that tariffs for the movement of grain in Canada would no longer include peas. The matter as presented has a bearing on the general issue as involved in the class ification, and the matter should stand until the classification is before the board and dealt with. In view of the time the existing rate situation has existed, this disposition does not appear to be unfair to the parties."
