"Did you put your clock back Sunday Night?"
"No, we are so hard up we put our's back months ago."—London Opinion.

HORTICULTURAL SOCIETY MEETS

Paris Association Held Annual Meeting—Officers Elected for 1919

OTHER NEWS OF PARIS

(From Moss's Correspondent)
Paris, Nov. 11.—The annual meeting of the Paris Horticultural Society was held in the Y. M. C. A. hall last evening, and was well attended. The president, Dr. W. N. Bell, gave a very comprehensive report of the work accomplished during the past year, impressing the idea that the society existed for civic improvement, and that every citizen anxious to forward the interests of the community should join. He recommended the incoming executive to take up the establishment of a park. The annual election of officers took place, with Dr. Bell being unanimously re-elected president, this being that gentleman's sixth term.

Mr. C. M. Huddle was elected 1st vice-president, and Miss Ahrens 2nd vice-president. It is understood that Mr. O. K. Whitey will be asked to continue as secretary-treasurer. His report showed the society to be in a most flourishing condition in every particular.

This season the society is making a specialty in hyacinth bulbs. Last year over three hundred names were on the members roll, and of this number about one-third had already renewed their membership.

Principal Moss' report for the public school attendance during October, showed 562 names on the roll with an average attendance of 48.

The funeral took place at Forestville yesterday of the late Peter Schram, who died suddenly early Wednesday morning. Besides a wife, one son and two daughters are left, all grown up and away from home.

A good crop of potatoes is reported from Frontenac county.

Windsor post office has a new concrete drive, and the yard is to be paved with concrete.

Brantford post office is closed after being open for 60 years, and mail carriers will now serve the district.

WAR TIME INDUSTRY. —ACETONES, LIMITED

Huge Distillery Converted Into Munitions Plant by Victory Loan Money

A great war time industry in Canada is the manufacture of acetone, a fluid extracted from corn which acts as a solvent for gun cotton in the manufacture of cordite. Two thousand five hundred tons of this product have been shipped to the great munition plants of Great Britain, after taking care of the demands of Canadian munition plants, since operations were begun in Canada in August, 1915.

Mr. W. G. and Lieut.-Col. A. E. Gooderham offered a large distillery located in a Canadian city to the British Government for taxes and insurance. Through the Imperial Munitions Board Great Britain asked

ed for the delivery of 250 tons of acetone by the end of 1917, but at that time the British Acetone Limited, of which Mr. W. G. Gooderham is president and Lieut.-Colonel A. E. Gooderham manager, delivered no less than 1,000 tons and had so enlarged the capacity of the plant that a still greater output during the following year resulted. The British Government was able to take care of all the product that could be shipped.

The company has over 400 operations on the pay roll. It uses 4,750 bushels of corn a day and 85 tons of coal. These huge operations are made possible because the Dominion Government has been able to finance out of Victory Loan proceeds, the purchases of the British Government in this country. This means much to Canada. It is building up a great industry, and best of all is doing a lot towards the winning of the war. If the Government had not had the required financial support from the people, this and many like industries would have failed. It is stated that better results have been obtained from the Canadian acetone plant than elsewhere. The company is also making preparations to supply another product known as M. E. K. from one of the by-products of acetone, namely, butyl alcohol.

EX-KAISER TRULY "IN DUTCH" NOW

Holland Doesn't Want Wilhelm Hohenzollern or His Family

By Courier Leased Wire
London, Nov. 11.—The arrival of Wilhelm Hohenzollern, the former German Emperor, with his wife and eldest son,

has caused excitement and much uneasiness among Dutch authorities and the public of that country, says a despatch to The Telegraph from Rotterdam. It is unofficially stated that the refugees did not obtain authorization from Holland to enter the country and crossed the frontier in the neighborhood of Eindhoven because the Dutch neutrality guards were weak at that point.

It is said the Dutch Government faces difficulty as to its treatment of the unwelcome visitors. Many people contend that Wilhelm Hohenzollern and his eldest son are still German soldiers and must be interned. Others urge that they should be sent back to Germany. Others argue that they cannot be prevented visiting their old friend, Count von Bismarck.

It is reported that the Dutch frontier is completely open and many German officers are seeking refuge in Holland.

To Subscribers in Arrears

Paper Controller Orders Cutting Off of Unpaid Subscriptions!

Mr. R. A. Pringle, K. C., the Paper Controller of Canada, has issued an order, effective January 1, 1919, which says:

"2. Discontinue sending paper within three months after date of expiration of subscription, unless the subscription is renewed and paid for."

There are many other restrictions imposed, but this one is the most important. Therefore, between now and the end of the year The Courier's subscription list must be overhauled and put on a paid-in-advance basis, in order to comply with a governmental order.

Accounts have already been sent out to those in arrears, but subscribers do not need to wait for a "dun" to spur them to action. The date on the label affixed to the paper sent to subscribers tells the story. City subscribers can learn how their subscription stands by referring to their last receipt.

The reason for this regulation of the Paper Controller is that it is the practice of some publishers to send their newspapers until ordered stopped, and this practice frequently means a failure to collect anything for subscriptions in arrears, in which case there is a virtual waste of paper. It is to prevent paper waste that the new regulation has been decided on.

The manufacture of paper consumes labor, wood, coal, chemicals and transportation facilities, and every ton of paper saved means just so much labor, raw materials, chemicals, fuel and transportation available for urgent war needs. For these reasons the Government insists that paper shall be saved, and proposes that only those who pay for their publications shall receive them.

Under these regulations The Courier will have no choice in the matter of dealing with subscriptions in arrears for over three months.

Send in your subscription of once. Do not delay, the collector will regularly on city subscribers. Keep your account up-to-date.

BUY VICTORY BONDS

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada

Break Faith? Never.
The memory of their noble deeds is seared into our hearts, and will live in the hearts of our children, generations hence.
Let our lives, for which their lives were given, be pledged devotedly to the Cause—their Cause—of Freedom and Civilization.
We Canadians must carry on.
Before us, as a nation, as individuals, our way lies clear.
Afar off along the path that leads to Right we hear the cry of those who fell.
We will follow on.
We will finish the work they so nobly began.
