Miscellaneous.

You can never know till you try, how quickly a dose of Ayer's Pills will cure your sick headache. Your stomach and bowels need cleansing, and these pills will accomplish it more effectively and comfortably than any other medicine you can find.

When your father's sister visits you, lodge her in the aunty chamber.

SAVED.—A fine family of children were all afflicted with scrofula. Two died early; the rest would soon have followed, but for the timely and persevering use of Ayer's Sarsaparilla, which built them up into a healthy and vigorous manhood.

Congenial companions.—Wife—Sir you're a brute. Husband (mournfully)—Why can't we be congenial, then?

Premature gray whiskers should be colored to prevent the appearance of age, and Buckingham's Dye is by far the best preparation to do it.

In the spring the swallows come to chase newly wakened flies.
And merchants hump themselves and say, "Tis time to advertise."

MESSRS. C. C. RICHARDS & Co.
Sirs,—I was formerly a resident of Port LaTour and have always used MINARD'S LINIMENT, in my household, and know it to be the best remedy for emergencies of ordinary character. Please inform me how I can get some and from whom.
JOSEPH A. SNOW.
Norway, Me.

Solace of the Sexes.—"What is always a woman's resort when sad and troubled?" "She takes to tears." "And a man?" "He takes to beers."

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria,

Doctor—"And now, as to the swelling on the back of your head, there is nothing serious about it at present, but you must keep your eye fixed on it."

Mothers
Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

In the case of the Indiana woman who has just been divorced from her seventh husband it may be asserted with some confidence that marriage is a failure. Still, she can try again.

CONSUMPTION SURELY CURED.
TO THE EDITOR:—
Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured, I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their Express and P. O. address.
Respectfully, DR. T. A. SLOCUM,
164 West Adelaide st., Toronto, Ont.

Mamma—"You must not eat any more candy, Flossie, it will injure your teeth." Flossie—"How long will it be before I can take my teeth out like grandma does."

NEARLY 1,000 MEN DRUNK.

ASTONISHING STATEMENT ABOUT THE JOHNSTOWN DISASTER.

DETROIT, Mich., June 10.—Austin S. Hatch, superintendent at Johnstown of the Edison electric light works, and who with his wife, had a thrilling escape during the flood, made the astonishing statement yesterday, that not less than 3,000 lives were lost at Johnstown through the use of liquor. "The loss on life that may properly be charged to liquor," he said, "happened in this way. After the lower portion of the town had been inundated by the heavy rains, and the people had been driven to the second floor, large numbers of men left their houses on rafts and plundered the saloons. By 3 o'clock in the afternoon there were certainly nearly a thousand men drunk and sailing around the streets, and when the flood came they were dazed and helpless. They were unable to save themselves, and caught upon and dragged others down. Beside, their families were alone and powerless to save themselves from the flood. Had the men been sober and at home, many families would have been saved."

A CHAPTER OF DROWNING ACCIDENTS.

Two cousins named Fraser and Arthur Benedict, of Belmont, Hants county, while going to school went in the Kennetcook river to bathe. Fraser got beyond his depth and was drowned.

Lord Cecil, the noted evangelist, was drowned at Adolphustown, Ont., Wednesday night, being out in a boat, when the craft upset. His body was discovered Thursday. Lord Cecil, was 48 years old.

A Hall's harbor, N. S., correspondent of the *Sun* says: E. M. Robertson, of St. John, N. B., and George Boyden, of Worcester, Mass., went sailing from here Tuesday. Their boat was capsized by a squall about a mile above this place. They got upon the boat and after great difficulty righted her, but as the water was very rough could not clear her of it. After being two hours in the water Mr. Boyden succumbed and died from exposure. The boat was finally picked up by the schooner "Sea Bird," and Mr. Robertson was rescued from his perilous position after being four hours in the water. He was landed at French Cross, twenty miles from the scene of the accident, physically none the worse for the affair. Mr. Boyden's remains will be forwarded to Worcester for burial.

DIGBY, N. S. June 14.—Two youths, Custa Daley, aged eighteen, son of John Daley, proprietor of the Royal hotel, and Harry McBride, aged sixteen, son of John McBride, both of Digby, lost their lives. It appears that they were in Mr. Daley's sail boat of about thirteen feet keel with a small skiff in tow. They had conveyed two strangers over to Granville and returning were seen by the crew of a Long Island schooner who were entering the strait at the time a few miles from the scene of the accident to upset their boat and sink. The schooner sailed at once towards the spot, but nothing pertaining to them was seen.

NEWS FROM EVERYWHERE.

There are fifteen lobster factories in the vicinity of Buctouche, which give employment to about 150 hands. The catch this spring is larger than that of the entire season of 1888.

MONTREAL, June 16.—An oil refinery was burned here to-night, and some freight cars standing near. The oil ran over an area of 15 acres, and the whole ground was one blazing mass. The loss is $25,000.

WINNIPEG, June 10.—There have arrived here a number of settlers from Glen Ulm, Dakota, who intend making their home in Manitoba. In a five years trial of Dakota they have lost their crops every year and leave that country in disgust.

The *Progressive Age* says that a manufacturer of steel cells for prisons whose place of business was in Topeka, Kansas, has moved out because the prohibition law has so reduced the number of criminals that there is no demand for cells or cages as in the bad old days of saloon supremacy.

The oldest man in St. John, and one of the oldest in the world, died June 14th. Cornelius Dryscoll was born in Baltimore, County Cork, Ireland, in 1784, and was therefore 105 years old. He was a laborer, used no tobacco and scarcely touched liquor. Up to the age of 90 he worked steadily and until a few months ago, worked about the house. He claimed that his grandfather died at 105 and two of his brothers lived to be 90.

The government have accepted the offer of Sir John Lister Kay to grant him lands at a dollar per acre adjoining his present settlements in the Northwest on condition that he brings out and settles within one year fourteen hundred families, and to whom he binds himself to advance if necessary twelve hundred dollars per family at a reasonable rate of interest with security on the lands settled by them.

Messrs. J. C. Ayer & Co., of Lowell. Mass., have entered a claim for $125,000 against the Dominion government for damages sustained through the illegal seizure of their preparations at St. Johns, Moutreal, Toronto and Hamilton several years ago. The amount involved was over half a million. The government claimed that the Ayers for many years had been entering at undervaluation materials used in the manufacture of the preparations at the company's Canadian factory.

ST. JOHN, N. B., June 15.—The ship railway is progressing rapidly. Two hundred horses and seven hundred men are now engaged on it. Mr. H. G. C. Ketchum, the representative of the company in Canada, says that he is assured of the practicability of the proposed line of steamers between St. John and St. Lawrence and Lake ports. Members of the ship Railway Company are prepared to form a syndicate to construct six to ten steel steamers for this line. They do not ask a subsidy.

Farm and Household.

SOME USEFUL HINTS.

If you wish to keep a sharp knife don't put it in hot grease; stir your potatoes while frying or turn meat with a fork or an old case knife kept on purpose,

To clean the silver spoons and forks in every day use, rub them with a damp cloth dipped in baking soda, then polish with a little piece of chamois skin.

Children Cry for Pitcher's Castoria.

WORMS For the removal of worms of all kinds from children or adults use DR. SMITH'S GERMAN WORM LOZENGES. Always prompt, reliable, safe and pleasant, requiring no after medicine. Never failing. Leave no bad after effects.
Price, 25 cents per box.

A little turpentine added as clothes boil will whiten and sweeten them without injuring the most delicate fabric. For garments very much soiled use a teaspoonful of kerosene.

Paper bags, in which many articles are sent from the grocery store, should be saved for use when blacking a stove. Slip the hand into one of these and it will not be soiled, and when through with the bags they can be dropped into the stove.

Thick brown paper should be laid under carpets if the patent lining is not to be had. It saves wear and prevents the inroad of moths, which, however, will seldom give trouble if salt is sprinkled around the edges when the carpet is laid.

The white of an egg has proved one of the most efficacious remedies for burns. Seven or eight successive applications of this substance soothe the pain and effectually exclude the burn from the air. This simple remedy seems preferable to collodion or even cotton.

When beaten eggs are to be mixed with hot milk as in making gravies or custards, dip the hot milk into the beaten eggs a spoonful at a time, stirring well each time, until the eggs are well thinned, then add both together; this will prevent the eggs from curdling.

"FLIES AND WOLVES."

When visiting a friend in the summer he called my attention to a curious plan for preventing the plague of flies in his house. The upper sash of one of the windows in his sitting-room being open for ventilation, there was suspended outside a piece of common fishing net. My friend told me that not a fly would venture to pass through it. He has watched for an hour at a time, and seen swarms fly to within a few inches of the net, and then, after buzzing about for a little, depart. He told me the flies would pass through the net if there was a thorough light—that is, another window in the opposite wall. Though the day was very warm, I did not see a single fly in the room during my visit. Though elsewhere in the town they were to be seen in abundance I suppose they imagine the net to be a spider's web, or some other trap intended for their destruction.

My friend mentioned the curious fact that in Russia no wolves will pass under telegraph wires, and that the government are utilizing this valuable discovery, and already clearing districts of the country from the these brutes.

If boys and men were as wise as flies and wolves they would keep out many nets and devil traps.

KITCHEN WRINKLES.

If poisoned by ivy bathe the affected parts freely three times a day with sweet spirits of nitre.

Keep a brick on the back of the stove. You will find it nice to set food on when you wish to keep it warm.

Try using sweet, skimmed milk instead of starch for calicoes and ginghams. I use it and like it much better than the starch.

Rub window glass with a piece of soft linen wet with vinegar, then with a dry cloth, and it will be beautifully clear.

I make glue that is very good by dissolving the gum to be found on cherry trees in water. Keep water on it all the time, and it is always ready for use.

Cut the thin skin from the outside of the leg of mutton, or the mutton chop, before cooking them, and you will not have the woolly taste that so many complain of.

To clean the silver spoons and forks in every-day use, rub them with a damp cloth dipped in baking soda, then polish them with a little piece of chamois skin.

I have learned that I can wash two pounds of currants almost as quickly as one cupful, and that is a great saving of time to find them ready for use when I need them.

Rub salt on the inside of your coffee-pot when washing it, and it will remove the coffee and eggs very quickly. Be sure to rinse it thoroughly before using it again.

Old lamp burners should be boiled often in strong saleratus water. Let them boil for an hour, polish them and they will not trouble you by causing a smoky light.

Make stove cloths of dark calico to use about your cooking, instead of using your apron or a dish towel whenever you wish to move anything from the oven or off the stove. You will find them neater and more convenient. I have mine doubled and about twelve inches square.

Why will any housekeeper tolerate soggy, dirty, dingy feather beds, when they can be lightened and the ticks cleansed and bleached to almost purity of new cloth by putting such beds on the crust through the spring thaws and freezes? They should be turned every day when lying on the snow, carefully housed when stormy, and kept out on the bleaching, purifying, honeycombing crust for six weeks if possible.—*The Housekeeper.*

THINGS WORTH KNOWING.

Silk dissolved in alcohol will remove grease spots from cloth.

Rub the tea kettle with kerosene and polish with a dry flannel cloth.

Camp chairs are now covered with plush and bordered with tiny tassels of silk.

Flour should be kept in a barrel, with a flour scoop to dip it and a sieve to sift it.

Ceilings that have been smoked by a kerosene lamp should be washed off with soda water.

The surest test of a frozen orange is its weight. If it is heavy in the hand it has not been frozen.

Cold sliced potatoes fry and taste better dry sprinkling a teaspoonful of flour over them while frying.

Drain pipes and all places that are sour or impure may be cleansed with lime water or carbolic acid.

Bent whalebones can be restored and used again by simply soaking in water a few hours, then drying them.

For a cold on the chest, a flannel rag wrung out in boiling water and sprinkled with turpentine, laid on the chest, gives the greatest relief.

When a felon first begins to make its appearance, take a lemon, cut off one end, put the finger in, and the longer it is kept there the better.

When the rubber rollers of your wringer become sticky, as they very often do after wringing flannel, rub with kerosene and wipe dry and they will be nice and smooth.

For a cough, boil one ounce of flax seed in a pint of water, strain and add a little honey, one ounce of rock candy and the juice of three lemons; mix and boil well. Drink as hot as possible.

To clean carpets, go over them once a week with a broom dipped in hot water, to which a little turpentine has been added. Wring a cloth in the hot water and wipe under pieces of furniture too heavy to be moved.

To test the cake in the oven, never insert a broom splinter but draw it gently forward and put the ear close to the loaf; if it is not done there will be a little sputtering sound. When it is thoroughly baked there will be no sound.

The Teacher
Who advised her pupils to strengthen their minds by the use of Ayer's Sarsaparilla, appreciated the truth that bodily health is essential to mental vigor. For persons of delicate and feeble constitution, whether young or old, this medicine is remarkably beneficial. Be sure you get Ayer's Sarsaparilla.

"Every spring and fall I take a number of bottles of Ayer's Sarsaparilla, and am greatly benefited."—Mrs. James H. Eastman, Stoneham, Mass.

"I have taken Ayer's Sarsaparilla with great benefit to my general health."—Miss Thirza L. Crerar, Palmyra, Md.

"My daughter, twelve years of age, has suffered for the past year from
General Debility.
A few weeks since, we began to give her Ayer's Sarsaparilla. Her health has greatly improved."—Mrs. Harriet H. Battles, South Chelmsford, Mass.

"About a year ago I began using Ayer's Sarsaparilla as a remedy for debility and neuralgia resulting from malarial exposure in the army. I was in a very bad condition, but six bottles of the Sarsaparilla, with occasional doses of Ayer's Pills, have greatly improved my health. I am now able to work, and feel that I cannot say too much for your excellent remedies."—F. A. Pinkham, South Moluncus, Me.

"My daughter, sixteen years old, is using Ayer's Sarsaparilla with good effect."—Rev. S. J. Graham, United Brethren Church, Buckhannon, W. Va.

"I suffered from
Nervous Prostration,
with lame back and headache, and have been much benefited by the use of Ayer's Sarsaparilla. I am now 89 years of age, and am satisfied that my present health and prolonged life are due to the use of Ayer's Sarsaparilla."—Lucy Moffitt, Killingly, Conn.

Mrs. Ann H. Farnsworth, a lady 79 years old, So. Woodstock, Vt., writes: "After several weeks' suffering from nervous prostration, I procured a bottle of Ayer's Sarsaparilla, and before I had taken half of it my usual health returned."

Ayer's Sarsaparilla,
PREPARED BY
J. C. Ayer & Co., Lowell, Mass.
$1; six bottles, $5. Worth $5 a bottle.

WHY YOU SHOULD USE
Scott's Emulsion
of Cod Liver Oil with HYPOPHOSPHITES.
It is Palatable as Milk.
It is three times as efficacious as plain Cod Liver Oil.
It is far superior to all other so-called Emulsions
It is a perfect Emulsion, does not separate or change.
It is wonderful as a flesh producer.
It is the best remedy for Consumption, Scrofula, Bronchitis, Wasting Diseases, Chronic Coughs and Colds.
50c. and $1.00 Druggists, 50c. and $1.00

Campbell's Cathartic Compound

GENERATION AFTER GENERATION HAVE USED AND BLESSED IT.

$65 Sewing-Machine FREE. We will send free to one person in each town one of the very best sewing-machine heads in the world, with all the attachments. We will also send free a complete line of our costly and valuable art samples. In return we ask that you show what we send, to those who may call at your home, and after 2 months all shall become your own property. This grand machine is made after the Singer patents, which have run out; before patents run out it sold for $65, with the attachments, and now sells for $50. Best, cheapest, most useful machine in the world. All is free. No capital required. Plain, brief instructions given. Those who write to us at once can secure free the best sewing-machine in the world, and the finest line of works of high art ever shown together in America. TRUE & CO., Box 740, Augusta, Maine.

PATENTS
Caveats and Re-issues secured, *Trade-Marks* registered, and all other patent causes in the Patent Office and before the Courts promptly and carefully prosecuted.

NOTICE.
Mortgage Sale.
To Patrick Ronayne of Driftwood, Cameron County, State of Pennsylvania, in the United States of America, laborer, and Anne his wife, and all others whom it may concern:
TAKE NOTICE that by virtue of a Power of Sale contained in a certain indenture of Mortgage, dated the Eleventh day of August, A. D., 1881, made between the said Patrick Ronayne, and Anne his wife, of the one part, and James Clowry, of Chatham, in the county of Northumberland, and Province of New Brunswick, Merchant, of the other part, registered in the County Records of the said County of Northumberland on the 3rd day of January, A. D., 1882, in volume 61 of the said County Records, pages 110 and 111, and is numbered 104 in said volume, There will be sold at Public Auction in front of the Engine House, in the Town of Newcastle in the said County on the 10th day of August next, at the hour of 12 o'clock noon, the lands and premises mentioned and described in the said indenture of Mortgage, as follows:
"All that one half part of all that certain lot or "Tract of land situate lying and being in the Parish "of Northesk, in the County of Northumberland, "and bounded as follows to wit:—Beginning at a "birch tree standing on the Eastern bank or shore "of the Northwest branch of the Miramichi River "in the southwest angle of lot number four above "the Little Southwest. Thence running by the "Magnet east thirty chains and seventy-five links "to a fir tree, thence south forty-five degrees east "twenty-nine chains and fifty links, thence south "two chains, thence west fifty-nine chains to a "stake and thence following the various courses of "the aforesaid bank or shore up stream to the place "of beginning, containing ninety-two acres more "or less, and distinguished as lot number five owned "by James Ledden to John Ronayne, junior, "deceased, with the buildings and improvements "thereon, and all right and title of the said deceased therein or thereto, being the same piece of "land which was conveyed to the said Patrick "Ronayne by Lemuel J. Tweedie, Esquire, and "Agnes, his wife, by deed bearing date the twenty-"eighth day of September, in the year of our Lord "one thousand eight hundred and eighty, and as "by reference thereto will more fully appear." Together with all the buildings and improvements thereon and the rights, numbers, privileges and appurtenances to the said premises belonging or in anywise appertaining.
Dated this 6th day of May, A. D. 1889.
JAMES CLOWRY,
Mortgagee.

Trustee's Notice.
NOTICE is hereby given that George Jardine, of the Parish of Rogersville, in the County of Northumberland, Trader, has this day assigned to me in Trust, all his estate real and personal as provided for in said trust deed. That said trust deed now lies at the office of the said George Jardine, at Rogersville aforesaid, where all parties who claim any interest under the same are requested to execute the same within sixty days from this date.
Dated at the city of Saint John, this 16th ay of April, A. D., 1889.

ALABASTINE!
FOR
Walls and Ceilings.
We have it in 11 different colors, as follows:
Blue, Deep Pearl, Fern Green, Brick Priming, Sage Green, Ashes of Roses, Buff, White, Neutral Grey, Soft Pink, Light Olive.
The price of a package is only 50 cents, and it will cover 60 square yards, two coats. Ready for use by adding hot water.
Alabastine is in no way like the kalsomine preparations sold under various names. Instead of being an inert mixture, dependent on glue to hold it to any surface, Alabastine forms a permanent coating for walls, is hardened on the wall by age and moisture, and the surface is strengthened by every coat added from time to time. It forms an adhesive coat not of a glutinous or gummy nature.
Sample cards sent on application. Liberal discount to dealers.
