CATTLE IN NEW SOUTH WALES.
According to official sources, the num-
ber of head of cattle in New South Wales
at the beginning of 1880 was 2,914,210,
while Victoria had 1,129,353. The total
number for the whole of the Australasian
colonies 7,878,556. As to sheep, the
figures are stupendous. New South
Wales had no less than 29,043,392, or
the whole of the group—seven colonies
—63,914,236. It is probable that at
the beginning of the next year the num-
ber of sheep owned by Australians will
be little short of seventy millions.

CRIMINAL RECORD.
At Ipanesbury, Michigan, on Friday
last, Dr. Hall was convicted of the mur-
der of his wife by poison.
On Friday morning the Treasurer of
the Beaver Company, Rochester, Pa.,
on opening his safe, was knocked down
by two unknown men, and \$13,000
county funds was abstracted. The rob-
bers escaped.
WASHINGTON, Oct. 26.—The Grand
Jury to day returned indictments against
Capt. Hovgate for forging the name of
R. H. Rochester, treasurer of the Western
Union Telegraph Company, to three receipts, aggregating \$36,000.

A RAILWAY IN THE TREE TOPS.
The Petaluma (Cal.) Argus says:
"It may not be generally known outside
of the neighborhood where it is situated,
but it is nevertheless a fact, that in
Sonoma county we have an original and
successful piece of railway engineering
and building that is not to be found in
the books. In the upper part of this
county, near the coast may be seen an
actual road-bed in the tree-tops. Be-
tween the Cliffer Mills and Stuart's
Point, where the road crosses a deep
ravine, the trees are sawed off on a level,
and the timber and ties laid on the
stumps. In the centre of the ravine
mentioned two huge redwood trees,
standing side by side, form a substantial
support, and they are cut off twenty-
five feet above the ground, and cars load-
ed with heavy saw logs pass over them
with as much security as if they were
framed in the most scientific manner."

THE TROUBLES OF GREAT BRITAIN.
Great centres of population have dangers
all their own. Last winter a snow-
storm blocked the railways leading
into London, and being accompanied
by an unusual degree of cold, unprepared
London was nearly brought to destruc-
tion for want of the essentials of food,
fuel, light, and liquor. The food supply
ran down rapidly, and as London only
supplies itself from day to day, and real-
izes in a way peculiarly its own the force
of the petition give us by day our daily
bread, famine began to peer in here and
there in the back slums, which life is a
hand to mouth affair. The supply of
water got short, and the great brewers'
wells were brought into requisition.
Coal dwindled down, and the gas supply
was shortened, while thousands who live
on a morning and evening supply of coal
had to do without. Three or four days
more would have caused the deaths of
thousands of thousands of children. Now,
New York, another great city, but im-
measurably behind London, is threat-
ened with all the evils attendant upon a
short water supply, owing to the last
summer's drought. A week without
rain, and disease would scatter itself
through all the city. Civilization has its
own created dangers.

THE CHANNEL TUNNEL.
Sir Garnet Wolsey recently pub-
lished a letter condemning, on military
grounds, the building of the Channel
Tunnel between England and France.
We however learn from late English
papers that the letter is not likely to
have much influence on the fortunes of
that enterprise. On any purely military
question the opinion of one who was
until two or three years ago "our only
general" would be entitled to great
weight. But the question of the desir-
ability or otherwise of a Channel Tunnel
is not one which military men are alone,
or even specially, qualified to decide;
and all the objections which Sir Gar-
net Wolsey would no doubt raise have
long ago been amply discussed and
shown to be unimportant compared with
the great advantages which may be
expected from the completion of a sub-
marine road between England and
France. The main, it is not the only
serious, argument against the scheme is
the danger of invasion to which we
might be exposed, and in the opinion
of many military critics not less eminent
than Sir Garnet Wolsey himself no gen-
eral in his senses would risk sending a
force into a trap where they might be
driven without the possibility of escape.

MARINE DISASTER.
MELBOURNE, Oct. 29.—The steamer
Calcutta, hence for Sydney, foundered
at sea during a gale. All on board,
twenty-two in number, perished.
A Russian journal is very irate at the
friendly demonstration in Yorktown be-
tween the two Republics and England.
It has always been a cause of regret to
the Canadian friends of the United States
that that country had such warm and
friendly relations with a power so des-
potic in its principles as Russia. The
alliance was a most unnatural one, from
whatever side looked at.

MARRIED.
At the residence of the bride's
father, Beverly Cottage, Torryburn,
on the 31st ult., by the Rev. H.
McKeown, Beatrice Macgowan,
daughter of William Jones, Esq., to
David Harlowe, Esq., of Canterbury,
England.

father, Beverly Cottage, Torryburn,
on the 31st ult., by the Rev. H.
McKeown, Beatrice Macgowan,
daughter of William Jones, Esq., to
David Harlowe, Esq., of Canterbury,
England.

At the residence of the bride's
father, Beverly Cottage, Torryburn,
on the 31st ult., by the Rev. H.
McKeown, Beatrice Macgowan,
daughter of William Jones, Esq., to
David Harlowe, Esq., of Canterbury,
England.

LOCAL MATTERS

Personal.
The Advocate announces that the
Hon. Peter Mitchell is expected at New-
castle this evening. The Hon. gentleman
will receive a warm and hearty welcome
from his numerous friends in this
county.

An Aged Squaw.
Mary Ginnish, a squaw, and resident
of Barnet Church, aged 97 years, departed
this life on Wednesday last and her re-
mains were taken to their last resting
place with great pomp on the following
Friday.

Diphtheria.
Agnes Cherry, daughter of William
Cherry, of Chatham, died at 8 o'clock,
p. m., on Sunday last. Another member
of the family is very sick with the same
disease.

The Late Accident on the Mississippi.
The reason assigned for the foundering
of the steamer Gilchrist, near Day-
ton, Iowa, on the Mississippi, an
account of which appeared in our last
issue, is said to be an overloaded boat,
a drunken crew, and incompetent officers.
About thirty lives are said to have been
sacrificed and many of the victims were
scalded to death by escaping steam from
the boilers.

Agriculture.
The price for provisions and fall pro-
duce is on the rise. Dry codfish was
sold this week from \$3.50 to \$4.00 per
quintal, and green codfish from \$3.50 to
\$4.00 per bbl. There was one instance of
codfish selling for \$2 per quintal. Car-
quest herring were selling from \$4.00 to
\$4.50 per barrel. Turnips are \$1.00
per barrel, and potatoes from one dollar
to \$1.25 per barrel. Cabbage was from
80 cents to a dollar per dozen heads.
Oats were selling for 48 cents per bushel.
Spring pigs were selling for \$2.00; and
laid corn, nine in number, brought
from \$15 to \$20 per head. This
rise in fall produce is owing entirely to
the failure of crops.

STAR BRIEFS.

Diphtheria.
Silver shot.
Oyster fishing.
Get your houses banked.
Gent's put away your dusters.
Have your shovels prepared for the
next snow storm.
A million dollar fire is reported to
have occurred at Manila.
Yesterday being All Saints Day, sev-
eral stores were closed.
The demand for smelt nets is so great
in New York that applicants from
Chatham have to be refused.

We have learned that the post office
at Millerton has been created a money
order office.
Mr. Hodd came up with 55 barrels of
oysters. More good fishing is ex-
pected.
The Mississippi continues to rise, and
thousands of acres of farm land are under
water.
The British steamer Callipolis has been
lost on the Spanish coast and only one
person saved.

His Excellency the Governor-General
will leave Ottawa on Friday for Quebec
en route to England.
"Wild Briar," owned by A. Morrison,
Esq., has arrived from the Sydney mines
with a full cargo of coal.
An old building situated on the corner
of Front and Pleasant Streets, that has
not been inhabited for two years, was
torn down on Hollowe'en.

Mr. Peter Trainer killed a pig the
other day which weighed 456 pounds
for which he received nine cents per
pound.
It is stated that Earl Cowper, the
Lord-Lieutenant of Ireland, will at an
early date be relieved at his own request
of the position, and will be succeeded by
Earl Spencer.
The Marquis de Bassano, consul-
general at Quebec, is said to be at the
head of a gigantic scheme for promoting
emigration from France to the North
West.

The cholera spreading in the East
and advancing toward Europe. It has
already made considerable ravages at
Aden, and has reached Mecca where the
Muslims are imploring their Pro-
phet.

Donald Loggie shot, with silver shot,
quite a number of wild fowl down the
river, and presented them to his many
friends.
In the trial growth of sugar beets, farm-
ers about Sherbrooke are realizing an
average at \$50 and under exceptional
cultivation \$75 per acre.
A cargo consisting of forty thousand
cases of canned salmon has been ship-
ped from Victoria, B. C., for London,
England. It is valued at \$185,000.

The Soy levee at Hannibal broke in a
third place last Saturday morning. The
water is sweeping over the entire bot-
tom. The bottom is 200 feet wide, and
widening. Losses will aggregate \$500,-
000.
The London Times says the time has
now come when Lord Derby may be ex-
pected to take his position among the
leaders of the Liberal party, and bear
the responsibility for the inception and
conduct of the policy he supports.

Squire Thomas B. Williston, has ar-
rived in his packet "Bell," with general
cargo, from Bay du Vin. It consists of
potatoes, fresh bass, salmon, and dead
owls for the St. John Taxidermist; also a
large number of partridges.

A couple of freight trains on the
Great Western railway collided on Fri-
day last at Glencoe, and the result was
that three cars were smashed. Fortu-
nately no lives were lost.

THE MONROE DOCTRINE IN AC- TION.

The United States has time and again
asserted her claim to be the arbiter in all
international questions which may arise
in the New World. The interference of
any European power in the affairs of any
state, either of North or South America,
even when undertaken at the request of
the state directly interested, has usually
been regarded as an insult, if not an in-
jury, by our great neighbour. These
claims to the proud position of sole em-
pire for a continent, though often asserted
by her statesmen, have never been al-
lowed by the European nations, which
have continued to act as if they had
never heard of these claims. But the
nations of the new world have always
resented the arrogant claims of the great
and ambitious republic. The United
States of Columbia referred their diffi-
culty to the King of Brazil and to the King
of Spain rather than to the United States,
Columbia, in spite of the remonstrances
of the United States, insisted upon grant-
ing to the French Government special
judicial privileges with regard to the
canal which M. De Lesseps is constructing.
Indeed, the canal is being dug in the
face of the direct opposition on the part
of the United States, which, though it
talked a good deal of the Nicaragua
scheme and of the ships railway across
the isthmus, had no serious intention of
constructing a canal, and wished to
hinder its construction by any one else.
The latest instances of the resentment of
this claim to political dominancy is per-
haps the most humiliating which the
United States has yet incurred. The
United States Minister to Peru, Mr.
Harbord, recognized the Provisional
Government which was established by
Calderon at Lima after his capture by
the Chilianas and the flight of the Dictator
Pierola beyond the Cordilleras. Cal-
deron's Government was never popular
with the Peruvians, and was upheld by
the Chilianas. After recognizing the
Calderon Government and declaring di-
rectly against the Government, preferred
by these Peruvians, of Pierola beyond
the Cordilleras, Mr. Harbord also wrote
a letter to Admiral Lynch stating very
plainly the views of the United States
with regard to the proper course for
Chili to pursue. He stated that im-
mediate peace was necessary to the
national existence of Peru, and therefore
both countries should conclude it at
once; that war which territorial aggran-
dizement in view would not be approved
by the nation he represented, and that
any annexation of territory by Chili
unless agreed to by the Peruvians would
be regarded with "extreme disapprobation
by the United States." The letter
containing the declarations was made
public, and of course was favorably re-
garded by the Peruvians. Admiral
Lynch has answered it, however, by
overthrowing the Calderon Government,
which was officially recognized by the
United States, and by assuming once
more the sole government of the sub-
jugated portions of Peru. The United
States journals are divided in opinion
over the question. The more conserva-
tive portion of the press think that Mr.
Harbord's interference was rash and un-
warranted, while another section are in
favor of holding Chili "to a prompt
and sharp account." While the ag-
ency of the United States is to be de-
sided by the following authorities:—
L. B. ANOLD, Esq., President of the
American Dairyman's Association, will
contribute a series of articles on CHEESE-
MAKING and DAIRYING generally, and
will reply to questions from subscribers upon
these subjects.
Hon. X. A. WILLARD, of Little Falls, N. Y.,
one of the best authorities in the world
on Cheese-making and Creameries, will
contribute a series of articles on these
subjects.
One of the leading Veterinary Surgeons
of Canada will write on VETERINARY
matters regularly, and will also answer all
questions sent by subscribers to THE MAIL.

THE WEEKLY MAIL.

Emroy's Bar to Port Moody.

Notice to Contractors. TENDER FOR WORK IN BRITISH COLUMBIA.

SEALED TENDERS will be received by
the undersigned up to NOON on WEDNES-
DAY, the 1st day of FEBRUARY next, in a
lump sum, for the construction of that portion
of the road between Port Moody and the west-
end of Contract 60, near Emroy's Bar, a
distance of about 85 miles.
Specifications, conditions of contract and
forms of tender may be obtained on ap-
plication to the Canadian Pacific Railway Office,
in New Westminster, and at the Chief En-
gineer's Office at Ottawa, after the 1st Jan-
uary next, at which time plans and profiles
will be open for inspection at the latter of-
fice.
This timely notice is given with a view to
giving Contractors an opportunity of visiting
and examining the ground during the fine
season and before the winter sets in.
Mr. Marcus Smith, who is in charge at
the office at New Westminster, is instructed
to give Contractors all the information in
his power.
No tender will be entertained unless on
one of the printed forms, addressed to F.
Braun, Esq., Dept. of Railways and
Canals, and marked "Tender for C. P. R."
F. BRAUN, Secretary.
Dept. of Railways and Canals,

Chatham, Oct. 23, 1881.

Notice to Contractors.

SEALED TENDERS, addressed to the
undersigned, and endorsed "Tender for Rus-
sian Works," will be received until THURSDAY,
the 17th November next, in a lump sum,
for the construction of works at the entrance
to RUSTICO HARBOR, P. E. Island, ac-
cording to plans and specifications to be seen
on application to Mr. Donald McKay, Oyster
Bed Bridge, Rustico, or to Mr. William
McNeill, Rustico Cape, P. E. I., from whom
printed forms of tender can be obtained.
Persons tendering are notified that ten-
ders will not be considered unless made on
the printed forms supplied, the blanks prop-
erly filled in, and signed with their actual
signatures.
Each tender must be accompanied by an
accepted bank cheque, made payable to the
order of the Honorable the Minister of Pub-
lic Works, equal to five per cent of the as-
sumed tender, which will be forfeited if
the party declines to enter into a contract
when called upon to do so, or if he fails to
complete the work contracted for within the
time specified. If the tender is not accepted
the cheque will be returned.
The Department will not be bound to ac-
cept the lowest or any tender.
By order,
F. H. ENNIS, Secretary.
Department of Public Works,
Ottawa, 21st October, 1881.

A Cough, Cold or Sore Throat should be
stopped. Neglect frequently results in an
Incurable Lung Disease or Consumption.
BROWN'S BRONCHIAL TROCHES do not
disorder the stomach, soothe the rough
passages, but set directly on the inflamed
parts, allaying irritation, give relief in Asthma,
Bronchitis, Coughs, Catarrhs, and the
throat troubles which Singers and Public
Speakers are subject to. For thirty years
Brown's Bronchial Troches have been rec-
ommended by physicians, and always given
perfect satisfaction. Having been tested by
widely and constantly used for nearly an entire
generation, they have attained well-merited
rank among the household remedies of the
age. Sold at 25 cents a bottle everywhere.
