You Just Try NR For That Indigestion

Get your organs of digestion, assimilation and elimination working in harmony and watch your trouble disappear. NR does it or money back.

One Day's Test Proves NR Best

The stomach only partly digests the food we eat. The process is finished in the intestines where the food is mixed with bile from the liver.

It must be plain to any sensible person who realizes this, that the stomach, liver and bowels must work in harmony if digestive troubles are to be avoided or overcome.

This fact also explains why sufferers from indigestion, also suffer more or less from headaches, biliousness and constipation.

If you are one of the many unfortunate persons who cannot eat without suffering afterward, if you are constipated, have biliousness, headaches, coated tongue, bad breath, variable appetite, are nervous, losing energy and feel your health slipping away, take this advice and get a box of Nature's Remedy (NR Tablets) right today and start taking it. Give it a trial for a week or two and just see how much better you feel. See how quickly your sluggish bowels will become as regular as clock work, how your coated tongue clears up and your good, old-time appetite returns. See how splendidly your food will digest and how your energy, "pep" and "ginger" revive. Just try it.

You take no risk whatever for Nature's Remedy (NR Tablets) is only 25¢ a box, enough to last twenty-five days, and it must help and benefit you to your entire satisfaction, or money returned.

Five million boxes are used every year—one million NR Tablets are taken by ailing people every day—that's the best proof of its merits. Nature's Remedy is the best and safest thing you can take for biliousness, constipation, indigestion and similar complaints. It is sold, guaranteed and recommended by your druggist.

First Move For Amalgamation

Portsmouth, Eng. —The Coal Workers' Union, composed of those who handled coal on the docks, proposed to the Trade Union Congress here a resolution to the effect that the parliamentary committee will be instructed to take action on the question of an amalgamation of all trades in Great Britain, with a view to an organization of all workers under one heading, having for its executive the Parliamentary Committee, and giving to all district matters.

The motion was not strongly supported by its movers, and it received no great vote. The phrase "One Big Union" was not used at any time during the debate. After the motion had been voted down, there was a great deal of talk among the delegates, most of whom had never apparently given the matter any serious consideration, and many expressed the conviction that if there was to be any solidity to the proposed "General Staff" of the British labor movement, it could be effected only through some system that gave the members of the various trades a common footing.

Frasier Interests Buy Minto Coal Areas

Fredericton, Oct. 12. —Following the recent announcement that the International Paper Company had purchased holdings in the Grand Lake coal areas, notice is published in the Royal Gazette to-day showing that the Frasier interests, who now have two pulp mills in New Brunswick, and have been planning further development, have also recently taken an interest in coal holding at Minto.

Archibald Frasier who handles the pulp and paper branch of the Frasier Company's business, is one of the incorporators of the Welton and Henderson Limited, a new company with a capitalization of \$75,000, which has just been granted letters patent for carrying on a general coal mining business with head office at South Minto.

The other incorporators are Harvey Welton, Minto, a well known coal operator in that district, and John Henderson formerly manager for the Minto Coal Company, Limited, and who has lately been operating mines of his own.

The new company have taken over the Jeremiah Cockley mine, which was recently purchased by Mr. Henderson at a reported price of \$40,000, as well as Mr. Henderson's mines, which were formerly owned by Smith and Merrithew, Limited. They control about 150 acres of coal areas.

Cleveland Takes Deciding Game In World Series

Cleveland, Ohio, Oct. 12.—The Cleveland American League Club won the supreme baseball title here this afternoon when the Indians defeated the Brooklyn Nationals in the seventh and deciding game of the 1920 world's series by a score of 3 to 0. Tonight Cleveland is celebrating in a manner in keeping with the honor.

Spitball Pitcher

The shut-out victory was chiefly engineered by Stanley Coveleskie, the spitball pitcher of the local team, who has proved his remarkable skill and endurance during the series. Backed by an airtight defense on the part of his teammates at the critical moments of the game, the Shamokin

paw calmly let the Robins down with five hits. But two Brooklyn players reached second base during the nine sessions at bat, and but five of the invaders were left on the bases all told.

Coveleskie's feat in winning three of the five games necessary to clinch the championship for Cleveland will go down as one of the outstanding features of world's series history. The Brooklyn batters accumulated but two runs off the moistened slants of "Covey" in the twenty-seven innings in which he officiated on the mound. He let the Robins down with one run in the first game at Brooklyn on Oct. 5, allowed them a second tally on Saturday and shut them out today.

Great as must be the credit accorded Covey for his remarkable feat, the general offensive and defensive work of the other members of the Cleveland Club cannot be dimmed by the individual glory of their star box man.

In shutting out the National League in the final clash this afternoon, the Indians, led by Manager Tris Speaker, rose to playing heights which bore out the complete confidence of the club backers and fans.
