DUNCAN MARSHALL, Manager. FRIDAY, MARCH 20, 1908.

TO TINKER THE TARIFF.

The Republicans of Onio have con to the conclusion that the United States tariff needs fixing, and said so in their Columbus convention. This is at least disturbing to Canadians Twho have been told by high tariff orators that the tariff system of the neighboring Republic was the summum bonum of things material. It is the more disturbing because the Republicans of Ohio are the fathers of the present United States tariff. It was under the aegis of their greatest man that tariff, was planted, grew, news to the Canadian manufacturers

Association and their political allies. the Ohio Republicans reached this unwelcome decision. Some of the reasons for their failing faith they felt necessary to admit. While wages in the United States are generally higher than in 1897, others things are higher too. The cost of living is higher. Rents are higher. The cost of raw materials is higher. The expense of production is perhaps higher. The gentlemen are right so far as they go but they do not go far. Their statement is the truth, but not the whole truth. They confess indeed to the failure of the system, but they do so in language - as little humiliating as possible. Had they desired, they might with equal veracity and without telling the public anything remarkably new have gone much farther. They might have said that the ed article; that under the shelter of a in international relations. tariff that prevented wholesome comenormities have strangled the public

petition, trusts, combines and kindred financial storm paralysed the opera-tions of the artificial system, threw at trend as it also is of an unmistak-month. On this begin the cost of the In short they might have confessed that the general operations of the Dingley tariff have made the conditions of the makers of manufactured goods no better, have made the conditions of the consumers of manufactured goods much worse, and have Quebec was up for final consideration. this single Department cannot have enabled the factory owner to wax Mr. Borden was absent through indis- been far short of \$15,000. portly and wear jewellery on the increasing disproportion between the tions from his customers. ONE OF THE ITEMS

A statement from the Minister of the Interior last week throws light on one of the heavy items of expense in connection with the holding of a session of Parliament-the preparation of "returns" of papers requested by members to be laid on the table of the House. Replying to questions he said.

Twelve returns were brought down during the session of 1905, forty-three luring the session 1906, thirty-five during the session of 1906-7, and formation and the country pays for dollars and cents neither few nor seltwenty-six during the session of 1907- the re-preparation of the return.

No record was kept of question asked by members in 1905. Seventyone questions were asked in 1906; one hundred and eight in 1906-7 and ed Parliament to make the Fruits Act ninety-three during the present session, to date of the interests of their patrons. It is to be hoped the the Canadian Militia means more ninety-three during the present sesthan the gratifying recognition of the fact that the most capable command. No record was kept of time occu-

(Sgd.) S. B. WOODS. Deputy Attorney General. Dated, 2nd March, 1903.

YEAR OLD BOY COULDN'T STAND! Limbs Weakened by La Grippe Made Strong by Zam-Buk.

Mrs. T. Brixton, of 5 Woodworth Ave., St. Thomas, Ont., says: "I had had some experience as to the efficacy of Zam-Buk in healing sores, cuts, etc., and had heard good reports from friends who also tried this balm, so when a year ago my little lad, four years of age, was left weak in the limbs as the result of a severe attack of influenza, I began rubbing in the Zam-Buk. His legs were so weak he would tremble and shake and was unable to stand for any length o time. Frequent applications of this ointment well rubbed in, seemed to strengther him daily, and in a very short time the shaking and trembling in his limbs had been banished and he soon got strong and able to run about, thanks to Zam-Buk. WHAT ZAM-BUK CURES.

A lame horse is a dead loss. It costs as much to keep a lame horse, as it does a horse in harness — and the cripple brings nothing in. You can't afford to support idle stock. That's why you can't

Kendall's Spavin Cure It takes away the pain and stiffness from Sprains and Bruises—draws the soreness out of Strained Muscles and Tendons—CURES Spayins,
