BLEEDING GUMS.

Do your gums bleed? Do you suffer from Pyorrhoea? Have you abscesses on your teeth? Listen! Pus pockets form at the roots of these teeth and poison the whole system by the discharge of virulent germs. Many headaches are due to this gradual poisoning; joint troubles, such as rheumatism, have been traced to this source; heart affections, often serious, follow this so-called "rheumatism". Good teeth are priceless, but a tooth with a pus pocket at its root is almost as vicious as a cancer. Pyorrhoea is not painful usually, and one is apt to let it go unnoticed. Watch for these bleeding gums, they are your warning.
