Weekly Report.

In comparing the amount of business done on this market for the week just closing with that of a week ago, we note a considerable falling off in the receipts of provisions and a slight decrease in the supply of grain. It does not seem to have had the usual effect, though, for instead of prices being firmer and if any change a rise, the opposite has been the case, and we find the influence of the outside world again a ruling factor in depressing values, Liverpool. Chicago and Paris have been age to back in sympathy with wheat, and American own, though it struggled, and aithough goine record-breaking in the lowest known as the back in sympathy with wheat, and American own, though it struggled, and aithough goice, the looked-for improvement was not realized. London market has received very trades have been made, and as near as we can find out all at the dollar mark, it does not seem possible that much business could be done at this price, for with wheat discounting it lies to 17e, and peas 40t to 15e lower, feeders will in all protability give corn a wide berth. Of course there is always a certain amount of demand for each grain as we can lower prices for this knd of grain as some the demand for each grain as a succan lower private the demand for each grain as a succan lower private. TORONTO, Oct. 10.—There was an easy feeling at the Western cattle yards yesterday, sheep and hogs being a little off in price. There were 69 carloads, which included 1.335 sheep and lambs, 1,400 hogs and about 300 calves. Buyers were not in large attendance. Prices realized were not better than on last market day, only choice touching 3½c per lb. Most of the sales were made in the vicinity of 3c to 3½c per ib. A bunch of 22 shippers, 1,300 lbs averago, sold for 3½c per lb, which was the best deal of the day. Only one or two picked fancy heifers and steers went above 3½c per lb. Quite a few deals for fair cattle were made in the region of 2c per lb. There is no demand in Montreal for Ontario butchers' cattle, because of the quantities of Northwest and Manitoba cattle which are being sent there. There was a pretty fair trade done in stockers and feeders. Prices were a little steadier, one or two of the choicest feeders going up to about 3½c per lb. The range was from 2½c to 3c per lb for cattle weighing from 1,000 to 1,250 lbs each. The hog market was slightly weaker because of heavy offerings. Good choice bacon hogs sold as \$5 per cwt, weighed off cars, a drop of about 12½c per lb. Lambs were selling fairly well; sold at from \$1 85 to \$2 50 per head for those weighing from 70 to 83 lbs each. Export shoep were steady, though lower prices were realized on account of the quality being slightly off in many instances. They sold at from \$3 50 to \$3 65 per cwt.
