HOCKEY. ONTARIO ASSOCIATION.

The ninth annual meeting of the Ontario Hockey Association was held on Saturday in Toronto. Sixty-two dele-gates, representing the following 31 clubs, handed in their credentials: Iroquois, Cobourg, Royal Military College, Harriston, Belleville, Woodstock, Newmarket, Frontenacs, Stratford, Peterboro, Listowel, Wellington, Collingwood, Guelph, Victorias, Cornwall, Or-illia, Upper Canada Coilege, Brockville, Queen's, Midland, Seaforth, Nationals, A. A. C., Sarnia, London, Windsor, Toronto, Simcoe, Preston, Osgoode, St. George's, 'Varsity. The attendance was the largest in the association's history The sub-committee's report showed association to have had a most the successful year. There were 12 clubs in the senior series, 29 in the intermediate, and 21 in the junior, making a total of 63 teams. This was 9 more than in 1898, 21 more than in 1897, and 35 more than in 1896. This report indorsed the raising of the protest fee last year, and showed that only three protests had been made during the protests had been made during the season. The treasurer's report showed receipts of \$685 05, expenditures of balance, \$309. This, with the ken in fees at the meeting, gives II. A. a total balance of \$500.

The following officers were elected: President, Mr. J. Ross Robertson (acclamation); vice-presidents, A. A. Macdonald and Lionel King; secretary, A. H. Beaton (acclamation); treasurer, J. D. McMurrich (acclamation); executive committee, A. G. Petrie (Guelph), J. S. Robertson (Toronto), Gordon Crawford (Wellington), A. Is-bister ('Varsity), W. Thomson (Wau-baushene), and F. Nelson (Toronto).

The following amendment was ad-pted: "No player shall play for the cup who has not been a bona fide and continuous resident of the town or city to which his club belongs since the first day of November next preceding any game in which he takes part. Nothing in this rule shall affect the standing of any student in bona fide and continuous attendance at any university or college in Ontario, but the executive may demand satisfactory proof as to the standing or residence of any players." Mr. McFadden, in moving the amendment, explained that the reason was to stop the importing of players

from one town to another.

The amendment to raise the junior age limit from 20 to 22 years was voited down, and no player can compete the junior series after having completed his 20th year, on or before Jan.

The amendment to combine the of-fices of secretary and treasurer into one in place of two, was withdrawn by the mover.

Secretary A. H. Beaton was unanimously voted \$200 for his work in the past two years. The adoption of goal nets was left to the incoming executive to deal with.

NOTES OF SPORT

McCoy's friends fear that he has quick consumption, although he says he has nothing worse than lung fever. The New Orleans meeting started with 1,200 horses in the vicinity. Terry McGovern intends to go to England mext summer and will be matched to meet the best man of his

pounds in that country, the bout to take place during Derby week. The Brooklyn Terror will also give any and all featherweights a chance to run up against his mighty right during his sojourn in the land of the Queen. C. T. Patterson, the Kentucky turf-

man who races on the eastern tracks, thinks he has developed another Tod Shoan in Lucien Lyne, a 16-year-old boy who weighs seventy-five pounds. The youngster will make his debut next spring. Dan T. Murphy, the turf correspond-

ent who was so badly injured by "Cur-ly" Brown on the Newport track, has recovered sufficiently to resume his business, and is now at New Orleans, attending the 10-day meeting of the Crescent City Jockey Club.

FOR WELL PEOPLE.

An Easy Way to Keep Well.

It is easy to keep well if we would only observe each day a few simple

rules of health. The all-important thing is to keep the stomach right, and to do this it is not necessary to diek or to follow a set rule or bill of fare. Such pampering simply makes a capricious appetite and a feeling that certain articles of food must be avoidtd.

Prof. Wiechold gives pretty good ad-

vice on this subject. He says: "I am 68 years old and have never had a serious illness, and at the same time my life has been largely an indoor one, but I early discovered that the way to keep healthy was to keep a healthy stomach, not by eating bran crackers or dieting of any sort; on the contrary, I always eat what my appetite craves, but for the past eight years I have made it a daily practice to take one or two of Stuart's Dyspepsia Tablets after each meal, and I attribute my robust health for a man of my age

to the regular use of Stuart's Tablets. My physician first advised me to use them, because he said they were perfectly harmless, and were not a secret patent medicine, but contained only the natural digestives, peptones and diastase, and after using them a few weeks I have never ceased to thank him for

"I honestly believe the habit of taking Stuart's Dyspepsia Tablets after meals is the real health habit, because their use brings health to the sick and ailing, and preserves health to the

well and strong."
Men and women past 50 years of age need a safe digestive after meals to insure a perfect digestion and to ward off disease, and the safest, best known and most widely used is Stuart's Dyspepsia

They are found in every well-regu lated household from Maine to California, and in Great Britain and Australia are rapidly pushing their way into popular favor. All druggists sell Stuart's Dyspepsie

Tablets, full-sized packages at 50 cents, and for a weak stomach a 50-cent package will often do \$50 worth of good.

DRUCE CASE IS CLOSED. London, Dec. 4.-The appeal of Mrs. Anna Maria Rruce, who claims to be a daughter-in-law of the fifth duke of Portland, against the decision prohibiting the opening of the Druce vault in Highgate Cemetery, unless the owner of the grave consents to have the coffin opened, has been dismissed, no one appearing in support of the reference. RUSSIA STRENGTHENING HER

FORCE. St. Petersburg, Dec. 4.-Certain changes have been announced in the organization of the troops in Central Asia and Siberia, and more especially on the Chinese border, which will have effect of considerably increasing the strength of the forces available for mobilization in the event of war.

For instance, each of the five battalions of the 2nd brigade of the line in Eastern Siberia, is to be converted into a regiment composed of two battalions.

It would appear that the chief object of these and other changes which are now announced are not so much to increase immediately the garrisons in the district in which the troops in question belong as to provide the proper machinery by which, in the event of war, a larger number of men can be mobilized than would be possible under existing conditions. The scheme is not believed to be a new one, and has no immediate significance, being part of a programme which already had been decided on when the present minister of war entered office.

PUTS HIS TRUST IN THE DREI-BUND.

Vienna, Dec. 4.-Count Goluchowski, the Austro-Hungarian minister of foreign affairs, made a cheerful speech to the foreign committee of the Hungarian delegation regarding the African war. He expressed confident hope that the conflict would maintain its local character and said the appre-hension of widespread complications therefrom were not justified. The foreign minister spoke of the drei-bund as a veritable "stronghold of peace" from which Austria-Hungary would be wise not to depart. In regard to the rivalries with Russia over Balkan region questions, Count Go. luchowski said they had lost their dangerous acuteness. He closed with urging the necessity of an increase in the navy, which, he asserted, was utterly inadequate and hardly sufficient for the defense of the coast.

SUCCESS OF A SUBMARINE BOAT. Toulon (via London), Dec. 4.-The new submarine boat Goubet No. put through its preliminary trial vesterday, under the direction of the inventor and in the presence of a committee of experts.

In spite of a heavy sea the Goubet made two descents to a depth of 190 feet and 260 feet, and then remained submerged for half an hour unseen by those on the steam launch that accompanied it, but who were following all its movements from the launch by means of an optic tube. The trial was satisfactory to the experts.
