Andrews, on remand on a charge of drunkenness, was found guilty and fined \$10 or 21 days in jail. The police magistrate regarded with a lenient eye the lapses from sobriety of five other offenders, and they were let go.

WHEELS LEFT THE TRACK. The east and westbound G. T. R. expresses were detained about half an hour at Beachville yesterday morning by a slight mishap. While pulling in over the eastern switch of the station siding, the fore wheels of a hind truck on the baggage car of the westbound train left the track. The train was quickly brought to a standstill, leaving the last car blocking the switch and preventing the eastbound train proceeding until the mishap was remedied.

MEAGHER TOMORROW NIGHT. The management of the Princess rink are keeping the rink closed in order to have the ice in the best possible condition for the exhibition to be given tonight (Tuesday) by George H. Meagher, champion fancy and figure skater of the world. FAREWELL BANQUET. To Mr. George G. Stewart, Late With J. P. Chapman & Co. Mr. George G. Stewart, who for the past eight years has been in the employ of J. H. Chapman & Co., has severed his connection with the firm. The boys took advantage of the opportunity to demonstrate to Mr. Stewart their kindly feelings by banqueting him at the Grigg House, where a most enjoyable evening was spent. Mr. H. H. Penny occupied the chair and kept everything moving nicely, but going-home time came all too soon. After satisfying the inner man, the chairman called on Mr. Stewart, who read a neatly-worded address, while Mr. Lackie presented Mr. Stewart with a beautiful solid gold chain on behalf of the boys in the store. Mr. Stewart, although taken by surprise, made a very suitable reply. The orchestra, under Mr. Dave Murray's leadership, rendered some most suitable selections. The speeches were numerous, and all testified to the excellent character of Mr. Stewart, and all agreed that George is certainly "A Jolly Good Fellow." The happy company dispersed after singing "God Save the King."

WOULD NOT BE CARVED. Bay St. Paul Merchant Refuses to Allow the Doctors to Perform an Operation—He Is Well Now. Bay St. Paul, Que., March 4.—Our general storekeeper, Mr. Arthur Fortin, is a married man, aged about forty-five. Life is very dear to him, yet, when the doctors, four or five of them, wanted him to submit to an operation, he declared that it was the only way his life could be saved, he refused point blank to be operated on. He had tried everything for his kidney disease and was much disheartened.

I have been troubled with kidney trouble all my life," says Mr. Fortin. "I had tried all the medicines I had been advertised, but none helped me. I had consulted four or five doctors, and they all wanted to perform an operation. They said it was the only way my life could be saved. I would not submit to it. Just then, I saw an advertisement of Dodd's Kidney Pills, and determined, although discouraged, to make one more try, and this would be the last. They cured me completely."

MCKINLEY INSTALLED

For the Second Time President of United States.

Magnificent Parade in Which Military Feature Predominated.

Text of the President's Inaugural Address—Progressing and Prosperous and at Peace With the World.

Washington, March 4.—William McKinley, of Ohio, today was inducted into the presidential office, being the eighth in the line of presidents to the United States thus honored. Simultaneously, Theodore Roosevelt, of New York, became vice-president of the United States.

The ceremony that marked this second assumption by President McKinley of the cares of state was most impressive and full of suggestion of the development of the republic during the past four years. The weather was fine.

MAJESTIC PARADE. Every presidential inauguration in recent years has had its parade, all-way creditable in size and variety, and usually having some distinctive feature. That which followed President McKinley today on his return from the capital to the White House, and passed in review before him, was different from all its predecessors, in the majestic predominance of the military feature. The civil contingent was quite up to the average point of numbers, but the military count made by the marshals the men in soldierly uniforms outnumbered the civilians in line by more than three to one.

GREAT DEMAND FOR VIEW POINTS. Along the court of honor and in its vicinity many of the reviewing stands were carried clear across the side streets. Further down town everything from soap boxes to teamsters' wagons were brought into requisition, and staid rooms and seats were auctioned off at good rates. The prices of window seats in the hotels, and stores along the line of march had reached an almost fabulous rate within the past week. It is reported that one wealthy senator paid \$500 for a single room for the day in a hotel near Pennsylvania avenue and Fifteenth street, while ordinary second-story windows were regularly let for from \$25 to \$50, and single chairs in store windows at from \$5 up.

At 12:24 p.m. Mr. Roosevelt was sworn in. Mr. McKinley took the oath of office at 1:11 and immediately began his inaugural address.

THE INAUGURAL ADDRESS. Washington, March 4.—President McKinley spoke, in part, as follows: My fellow-citizens.—When we assembled here on the 4th of March, 1889, there was a great and pressing need for our currency and credit. None exists now. Then our treasury receipts were inadequate to meet the current obligations of the government. Now they are sufficient for all public needs and we have a surplus instead of a deficit. Then I felt constrained to convene the congress in extraordinary session to devise revenues to pay the ordinary expenses of the government. Now I have the satisfaction to announce that the congress just closed has reduced taxation in the sum of forty-one millions of dollars. Then there was deep solicitude because of the long depression in our manufacturing, mining, agricultural and mercantile industries, and the consequent distress of our laboring population. Now every avenue of production is crowded with activity. Labor is well employed, and American products find good markets at home and abroad. Our diversified productions, however, are increasing in such unprecedented volume as to admonish us as to the necessity of still further enlarging our foreign markets by broader commercial relations. For this purpose reciprocal trade arrangements with other nations, should, in liberal spirit, be carefully cultivated and promoted.

THE WAR WITH SPAIN. Four years ago we stood on the brink of war without the people knowing it, and without any preparation or effort at preparation for the impending peril. I did all that in honor could be done to avert the war, but without avail. It became inevitable; and the congress, at its first regular session, without party division, provided money in anticipation of the crisis and in preparation to meet it. It came. The result was signally favorable to American arms, and in the highest degree honorable to the government. It imposed upon us obligations from which we cannot escape and from which it would be dishonorable to seek to escape.

AT PEACE WITH THE WORLD. We are now at peace with the world, and it is my fervent prayer that differences arise between us and other powers they may be settled by peaceful arbitration, and that hereafter we may be spared the horrors of war.

WILL BE GOOD. Entrusted by the people for a second time with the office of president, I enter upon its administration appreciating the great responsibilities which attach to this renewed honor and commission promising undivided devotion on my part to their faithful discharge and reverently invoking for my guidance the direction and favor of Almighty God.

As heretofore, so hereafter, will the nation demonstrate its fitness to administer any new estate which event devolve upon it, and in the fear of God will take occasion by the hand and make the bounds of freedom wider. Surely after one hundred and twenty-five years of achievement for mankind we will not now surrender our equality with other powers on matters fundamental and essential to national life. With no such purpose was the nation created. In no such spirit has it developed its full and independent sovereignty. We adhere to the principle of equality among ourselves, and by no act of ours will we assign to ourselves a subordinate rank of the family of nations.

EVENTS IN CHINA AND CUBA. The public events of the past four years have gone into history. They are too near to justify recital. Some of them were unforeseen; many of them momentous and far-reaching in their consequence to ourselves and our relations with the rest of the world.

The part which the United States bore so honorably in the thrilling scenes in China, while new to American life, has been in harmony with its spirit and best traditions, and in dealing with the results its policy will be more of moderation and fairness. We face at the moment the most important question—that of the future relations of the United States and Cuba. With our near neighbors we must remain close friends. The peace which we are pledged to leave shall continue shall be restored with it the guarantee of permanence. We became sponsors for the pacification of the island, and we remain accountable to the Cubans no less than to our own people, for the reconstruction of Cuba as a free commonwealth, on abiding foundations of order, justice, liberty and assured order.

THE PHILIPPINES. While the treaty of peace with Spain was ratified on Feb. 6, 1899, and ratifications were exchanged nearly two years ago, the congress has indicated no form of government for the Philippine Islands. It has, however, provided an army to enable the executive to suppress insurrection, restore peace, give security to the inhabitants and establish the authority of the United States throughout the archipelago. The president has endeavored to begin until order shall be restored throughout the islands, and as fast as conditions permit will establish local governments, in the formation of which the full co-operation of the people has been already invited, and will establish the courts and the judicial system to administer them. We are not waging war against the inhabitants of the Philippine Islands. A portion of them are making war against the United States. By far the greater part of the inhabitants recognize American sovereignty and welcome it as a guarantee of order and security for life, property, liberty, freedom of conscience and the pursuit of happiness. Order under civil institutions will come as soon as those who now break the peace shall keep it. Force will not be needed or used when those who make war against us shall make peace. May it end without further bloodshed, and there be ushered in the reign of peace to be made permanent by a government of liberty under law.

A WIDESPREAD TROUBLE IN SPRING TIME.

Paine's Celery Compound The Only Remedy That Cures and Saves Life. A WIDESPREAD trouble in spring time, the most prevalent and fatal of troubles at this season is Kidney disease. It comes on as silently as a cat steals upon its prey, and too often wrecks life before the victims are fully aware of the danger.

Do not disregard the early symptoms of Kidney disease, some of which are backache, constipation, indigestion with headache, and a constant call to make water which has a turbid sediment of a brickly color. The prompt and honest use of Paine's Celery Compound will quickly banish every symptom of disordered kidneys. The great medicine has cured and given a new life to thousands in the past; it will do the same good work for all sufferers today.

Mr. M. Maher, Hairdresser, St. John's, Nfld., says: I suffered terribly for two years from kidney trouble and dyspepsia. I was completely run down and could not eat or sleep. One of the ablest city doctors attended me, but no good results followed his work. Happily, a friend advised me to use Paine's Celery Compound, and I procured a supply, and the first dose relieved me. I have used eight bottles, and now sleep well, appetite is good, and I am as strong as ever before. I recommend Paine's Celery Compound to all.

The men are mostly old militia men, very few of the regulars in barracks being in a position to purchase their discharge and join.

THE CENSUS ENUMERATORS

Bound to Secrecy in Confidential Matters—Interesting Instructions to the Officers. Ottawa, March 4.—In view of the fact that some hesitation may be displayed in answering the questions of census enumerators touching confidential matters, the following instructions will be found interesting. Every officer or other person employed in any capacity on census work is required to keep inviolate the secrecy of the information gathered by the enumerators and entered on the schedules or forms. An enumerator is not permitted to show his schedules to any other person, nor to make or keep a copy of them, nor to answer any questions respecting their contents, directly or indirectly; and the same obligation is imposed upon commissioners and other officers or employees of the outside service, as well as upon every officer, clerk or other employee of the census office at Ottawa. The facts and statistics of the census may not be used except for statistical compilations, and positive assurance should be given on this point if a fear is entertained by any person that they may be used for taxation or any other purpose. No result of the enumeration may be given to the public in advance of the printed bulletins or reports, except by the head officer of the census, acting under the authority and direction of the minister of agriculture. It is not permitted to a commissioner, enumerator or other employee of the census to engage a substitute or farm out his work to another. The position to which he is appointed must be filled by himself, and his duties must be performed by himself. Prompt and expeditious service is required from the time that the work is commenced till it is finished. It is pointed out for the benefit of the census commission, in the enumeration of inmates of asylums, hospitals, penitentiaries and educational or other institutions, as well as of treaty Indians, and in canvassing for statistics of manufactures, forests, fisheries and agriculture, it will generally be found advantageous to employ officials and other agents in place of the regular enumerators. In every such case the commissioner for the district will be notified, and he will be required to draw the schedules dealing with the particular subjects from the regular enumerators and to inform them accordingly.

STRATFORD-ST. GEORGE MATCH. Messrs. C. W. Smith, Harry Peel, W. Mace and F. Taylor journeyed to Guelph on Friday night last, to witness the final, Stratford-St. George match, and although a hard and close game, were all in favor of the home team. The match was a most interesting one, and the supporters accompanied the St. Georges, but the home capacity was equal to doubling their numbers, and with their yell of "Ki-ki-ki! Kew-Kew-Kew! Huh-aboo-aboo!" how do! How do! Rah! Rah! Rah! "Cis boom bah! St. Georges, St. Georges! Ha! Ha! Ha!" were decidedly in evidence, while, with a huge magnifying glass, they watched the play from the sides. After the game cheers were given for the London supporters, whose advice at that time was readily accepted by the Dragon players. Lots of money changed hands, a goodly bunch of Stratford's "song group" came to London.

WEST DURHAM DEADLOCK CONTINUES. Toronto, March 4.—The deadlock as to the West Durham election case continues, and it was definitely announced this morning by the trial judges that Mr. Thornton would not be declared member until the petition against his election is disposed of.

WANTED TO BE A B. P. Windsor, March 4.—The presence of two patrolmen was required yesterday afternoon to stop George Gasco from going to London to enlist in the South African Constabulary. Gasco was determined on going and took his seat in the G. T. R. express, bound for the recruiting center. His father arrived with two officers just before the train pulled out and took the ardent soldier from his seat. The opposition to Gasco joining the constabulary is on account of his youthfulness. His father, Charles Gasco, says the boy is not yet 19 years of age.

Col. R. E. Morse. Have you ever sat on the edge of the bed in the morning with your elbows on your knees, your head buried in your hands, and wondering if there was anything you had overlooked the night before that would have made you feel worse? Among the more potent, this feeling is spoken of as the realization of indiscretion in diet, but we plain people call it Col. R. E. Morse. There are lots of things that will give you a cold, but Hutch Tablets is the only thing that will make you feel like a person with a future instead of a person with a past. You must cleanse your liver, and that is all there is to it. Here's the proposition:

It says there are two medicines standing on the table. One is disagreeable, bitter-tasting stuff; the other is sweet and chocolate-coated, pleasant tasting and acting instantly on the liver. Which would you take? Inasmuch as our advertising is confined to the most intelligent, all that we ask is that you give this proposition one moment's thought. The greatest East Asiatic for the commons with Dr. Douglas, will likely run again for Grenfell. His opponent is Mr. M. A. Campbell. A special train of nine cars carried away 384 Manitoba and western recruits for Baden-Powell's police force.
