This new breed of White Oat originated in England a few years ago, where it has given splendid results, and it undoubtedly possesses the necessary qualifications to make it an ideal oat. Its extreme earliness and great strength of straw are in themselves most valuable recommendations, but when we are able to add to these its immense size, thick plump grains and the heavy yields it is capable of producing, we have no hesitation in saying that it is the most valuable oat ever produced. Our crops the past year has satisfied us that it is well adapted to the soil and climate of this country. **************** A HEALTHY OLD AGE The Goal of Every Man's Ambition

THOUSANDS of human beings are suffering under the burden of a sickly, premature old age, because of diseased kidneys. These organs once diseased give out to all parts of the body a deadly slow-acting poison. The face loses its color, the eye its luster, the brain its ambition, and the muscles their energy, and many of the most troublesome ailments result.

Bu-Ju cures all forms of kidney trouble, and brings back youth and vigor by rooting out the evil. It is a never-failing cure for every form of kidney ailment. It cures rheumatism by eradicating the cause of rheumatism, kidney disorders. If you are suffering from any form of kidney trouble, com-

mence taking Bu-Ju, The Kidney Pill, at once. You c many symptoms that point to diseased kidneys.

Gentlemen:—I had suffered almost continually for seven years from kidney trouble. Could scarcely walk and was unable to attend to my farm duties. Saw Bu-Ju, The Kidney Pill, advertised and procured a box from my druggist. After taking the first few pills I felt much relieved and after taking half a box was able to do a full day's work. I know one box of Bu-Ju saved me \$40 doctor bills, and think they are the finest pill made. I give this testimonial freely.

This was destroyed in 1738, but about a century later the heart of the famous Crusader was found inclosed in a leaden casket under the pavement of the cathedral. It was replaced, but some time later was replaced, but some time later was again taken up and deposited in the Museum of Antiquities, from which it was in turn removed to a more appropriate resting place in the choir of the cathedral, wher it now remains. On the death of John Baliol, father of that Paliol who opposed Bruce's claim to the throne of Scotland, his widow ordered his heart to be removed and placed in an ivory casket. Although she survived her husband twenty years, it is said that she never sat down to a meal without having the casket beside her.
