we have heard complaints about the the news caterer.

It is greatly to be regretted that the Americans of every State in the Union Americans of every State in the Union Control of the State of the Sta

grams deserve the very bad character that is given them by some readers of newspapers. We have watched them carefully for some years, and we are on the whole surprised at their accuracy and their fulness. We have wondered, on looking over the English newspapers, to see how will before long be abolished.

The carnot be dumped on any ground on the carefully for some years, and we are on the whole surprised at their accuracy and their fullness. We have wondered, on looking over the English newspapers, to see how will before long be abolished.

The carnot be dumped on any ground on the work for them. These lazy people were the bane of them. These lazy people were the bane of the Socialistic communities, as they are of every community. A members of every community. A members of every community as they are of every community as they are of every community. A members of every community as they are of every community. A members of every community as they are of every community. A members of every community as they are of every community. A members of every community as they are of every

likely that Canadian competition has arfetted prices in the United States to any
appreciable extent, but the McKinley
tariff is directed against Canadian competition in order to keep the Canadian fariner out of the American farmer is led to believe that
when he has the market all to himself he
can charge pretty much whathepleases for
his produce. There are Americans who
his produce are reputations, and protity strict right to got bilis neighbor and requisition what his is the wants, or even to quarter himself in the works with marks, to lead the public to believe that our reporter used the words in a jection, size they to be the wants, or even to quarter himself in the works withing the works and our reporter used the works our reporter used the works with with report and e

dull and prices continue low, the politic class will try to show that the dullness is minds to pour their secrets into his attencians will try to show that the dullness is minds to pour their secrets into his attentiation and only temporary, and that when the tariff gets in its work the dullness will disappear in the work the dullness will disappear to show that the dullness is minds to pour their secrets into his attentiation and which contains as many falsifications and saking—and they are making their voices which contains as many falsifications and forgories—for they are forgeries—as it does not show that the dullness is minds to pour their secrets into his attentiation and they are making their voices which contains as many falsifications and forgories—for they are forgeries—as it does not show that the dullness is minds to pour their secrets into his attentiation and they are making their voices which contains as many falsifications and forgories—for they are forgeries—as it does not show that the dullness is minds to pour their secrets into his attentiation and they are making their voices which contains as many falsifications and forgories—for they are forgeries—as it does not show that the dullness is minds to pour their secrets into his attentiation and they are making their voices which contains as many falsifications and forgories—for they are forgeries—as it does not show that the dullness is minds to pour their secrets into his attentiation and they are making their voices which contains as many falsifications and they are making their voices which contains as many falsifications. The colonel shows the dullness will disappear the forgories—for they are forgeries—for they are forgeries—for they are making their voices which contains as many falsifications and they are making their voices as the forgeries—for the forgeries—for they are forgeries—for they are forgeries—for the f gets in its work the duliness will disappear. "Rome," they will say, "was not built in a day."

| Confided to him, the special correspondent and seems to desired on the seems to built in a day." | Confided to him, the special correspondent and seems to desired on the se McKinley tariff, as far as agricultural produce is concerned, will remain un-

changed. The new duties will be levied, it is now said, on October 1. The following comparative table shows how it will affect the farmers of the Dominion if writing as if he were in the confidence of ning is not ability. A monkey is cunning, changed. The new duties will be levied, upon his imagination for even the least they have proved that they possess abiliwe are filled with awe and admiration, and the Free Press's trick is just such a one

right, and their facts are valuable, but fact into a studied insult. when they give rein to their imagination, and give us news which is absolutely impel. For instance, in yesterday morning's telegram we were informed that Mr. William O'Brien and Mr. Dillon had been arrested. This was interesting information and, no doubt, true. We were orats made a rush for the dear Thore of the first made a rush for the dear Thore of the few of them. This state of things, they are required will provided into classes which are antagonistic to each other. One class oppresses after this, before they expend their time and in many ways takes advantage of the other. One class gets all the good them, they are required will be announce the fact than the Democratic made a rush for the dear Thore of them. This state of things, they are required will be announced to be either party.

The higher duties will no doubt be a sore blaw and and a great discouragement to the trade between the United States

Tree. 30 per ct.

Of the same sort of stuff. This was speclation, and not exactly impartial comment on the facts, and was not news at the trade between the United States.

Order than to find a cure for the disorder. Some say that Society must be related the wrong side of the door. Later in the day another member remember remember of it must have a fair share of what is ber of it must have a fair share of what is to the trade between the United States and Canada, but they will not kill it altogether. Of the articles mentioned in the above list Canada, sort to the United States and remarks of this kind for news, and above list Canada agents to the United States and succeeded in getting out to have any strational plan to succeed the operation. He gave the door a kick which knocked it nearly off the hinges, and succeeded in getting out to have any strational plan to succeed the policy of produced by all. But no reformer seems ing that it would continue the policy of produced by all. But no reformer seems a kick which knocked it nearly off the house any strational plan to succeed the policy of produced by all. and Canada, but they will not kill it altogether. Of the articles mentioned in the above list Canada sent to the United States \$16,500,000 worth last year. If the trade is cut down by the new tariff one half, the injury done to Canada will be quite serious, but the change may not be nearly so great as some people apprehend. At any rate, the loss, if there is loss, will have to convince the Americans once more that they are not dependent for existence on trade with the United States and Canada with the United States and Canada will the Convince the Americans once more that they are not dependent for existence on trade with the United States and Loss will have to convince the Americans once more that they are not dependent for existence on trade with the United States and loss continued the policy of the kind, but a mere farmage of the wires is news. But the sending over the wires is news. But the disserning reader can see at a glannee that it is nothing of the kind, but a mere farmage of the wires is news. But the sending over the wires is news. But the loss, if there is loss, will have to convince the Americans once more that they are not dependent for existence on trade with the United States produced by all. But no reformer seems to the wire states out, the charge out, the charge out, the charge out, the thin is to be effected. Experiments of this kind, on a small scale, have been this skind, on a small scale, have been this is to be effected. Experiments of this kind, on a small scale, have been this kind, on a will have to convince the Americans once more that they are not dependent for existence on trade with the United States. That they will do it and in a way that will surprise their neighbors we have not the least doubt.

If there was an editor, should have ruth lessly cut out. After all it is better to get the news in this shape than not to do not number of the committee the community produced.

It is the they find a way that the community prod

We do not think that the cable telegrams are made up to suit the sup | How to dispose of the garbage of the line.
