What is Catarrh? What is Catarrh?

From the Mail (Toronto), Dec. 15t4.

Catarrh is a muco purulent discharge caused by the presence and development of the vegetable parasite amoba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle of tubercle, the garm poison of syphilis, mercury, toxomea, from the retention of the effect matter of the skin, suppressed perspiration, bidly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of these germs, which spread up the nostrils and dwn the fauces or back of the throat, causing ulcarity of the bronchial tubes, ending in pulmonary consumption in death.

Many attempts have been made to discover a cure for this distres ing disease by the use of inhalants and ther ingerious devices, but none of these treatments can do a particle of good until the parasities are either destroyed or removed from the mucous tissue.

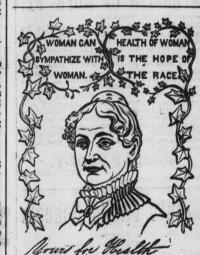

Some time since a well-known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never falls in absolutely and permanently cradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. Dixon & Son, 305 and 307 King street west, Toronto, and get full particulars and treatise free by enclosing stamp. From the Mail (Toronto), Dec. 15t4.

Latest Patented, U. S. and Canada, Dec. 20,

There is hardly any other disease which so undermines the cath and happiness of hundreds of thousands of families as ternia, or Rupture. It creeps into almost every household as a worm; it causes nervous debility, impairs ternory, extinguishes the spark which invigorates the relation of life in domestic circles, and inspires devoon to the most sacred institution of marriage, morality, etc.

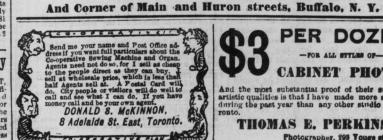

In addition to the above it especially affects men, both physically and socially, of all ages and positions, destroys energy and wears out the human machine tenfold quicker than age or labor.

Sufferer, Be Wise, Rupture as well as deformity can only be treated by mechanical treatment. After he doctor has failed to hold your Rupture, after you have tried your druggist's stock and "Liniments," and failed, Rupture always increasing instead of decreasing, I say come to or write to me, and I will do for pull I can.

Nineteen years' material experience, 12 years established in Canada, thorough acquaintance with the naturn of the Human Frame, natural mechanical advantages have made me a perfect master of this pression, and everybody Ruptured or Deformed should send imps for book on Rupture and the Human ame, containing valuable information, registered by
