Guff from Gotham.

Atchison's earnings for first week in November increased $128,951.

Clearances from four ports during the week: Wheat 2,689,250 bush, corn 531,850 bush, rye 25,415 bush, oats 396,900 bush, barley 157,900 bush.

Henry Allen to John J. Dixon & Co.: The stock market has shown unexpected strength during the past week, and the gains have come in the face of doleful predictions, extreme dulness and general uneasiness over the foreign financial situation. The shorts to-day were the principal buyers, but on all weak spots during the past week there has been a quiet absorption of stocks going on that has nonplussed the most careful observers. "Who buys all the stocks?" is the remark heard on all sides, and why does it not? has been more liquidation in view of the foreign complications seems inexplicable. Few of the prominent speculators are bullish, many of them are bearish and say we can have no bull markets till after the holidays. Still this absorption has already made the shorts nervous, and if continued much longer is likely to make many converts to the bull ranks.

Kennett, Hopkins & Co. to R. Cochran: Stock market was strong in spite of lower prices in London and steady selling by London houses. Towards close there was quite a disposition on part of traders to realize profits. Market closed quiet with some concessions in prices. We still believe foreign situation is a factor not to be overlooked in immediate future. Late cables predict further bank troubles in Berlin and quote decline in Russian and other bonds. There has been a slight increase of outside orders, showing the public can be tempted by advances in prices. Those who want to trade for an advance should be very cautious and should take profits when they have them. Total sales, 152,000 shares.

Gossip from Chicago.

Minneapolis wires that receipts will be very large for next six weeks and will continue large all winter.

Counselman & Day to J. J. Dixon & Co.: Wheat opened at 94⅝c to 94¼c for Dec. and closed at the same figure, with a ½c break in the meantime. The local bears' combination is disunited and some heavy traders have swung to the long side, although the professional bears will no doubt be short sellers again on a fair advance. Northwestern arrivals were 1313 cars, but they were offset by an increase of 600,000 clearances on both coasts for the week and cables reporting English farmers' deliveries 648,432 bushels at 7d advance. Foreign markets averaged steady, English markets losing part of yesterday's advances and continental markets recovering part of their declines. The Russian question continues to be a cautionary influence to speculators, and in the main opinions are not materially changed, and it will probably require a 5c fluctuation to clear the market of existing open trades. The foreign situation must remain the prominent feature in speculative trading and seems to favor purchases on all good breaks. Wheat is depressed by local over-selling and is the main point of attack by the bear element.

R. Cochran's correspondents, referring to corn and oats, say: The market reacted to day on covering by shorts. It had been weak for some days, the decline considerable, and shorts were willing to accept profits. We do not look for much more reaction in corn and would advise selling the long futures on hard spots. Provisions were strong and shorts who undertook to cover found that it was necessary to raise bids to get anything. The short interest is quite large, but is not particularly alarmed at present, and there is no indication of a material advance right away. We think lard a good purchase on soft spots.

Receipts and Shipments.

Receipts wheat in Detroit 12,000 bushels, shipments 88,000.

Receipts wheat in Duluth 418,000 bushels, shipments 451,000.

In Toledo receipts and shipments respectively were: Wheat 41,000 and 34,000 bushels, corn 13,000 and 4000, oats 1000 and 5000.

In Milwaukee receipts and shipments respectively were: Flour 12,970 and 27,624 bbls, wheat 40,000 and 59,000 bushels, corn 3000 and 3000, oats 10,000 and 1000, rye 12,000 and 57,000, barley 66,000 and 131,000.

In Chicago receipts and shipments respectively were: Flour 14,219 and 33,614 bbls, wheat 182,000 and 470,000 bush, corn 116,000 and 220,000, oats 294,000 and 388,000, rye 38,000 and 22,000, barley 83,000 and 81,000, lard 96,100 and 1,482,738 tierces, shipments pork 565 bbls.

Rye, Awry!

It has been generally reported among the trade that Mr. Otto Thorning, who has been doing an extensive business in shipping rye from this port during the past season, is in financial difficulties and that Messrs. Lomer, Rohr & Co., phosphate merchants, have endorsed for him to the extent of about $60,000. It is said that Mr. Thorning has shipped over a million bushels of grain from this port during the present season. The representatives of German houses to whom Mr. Thorning shipped his grain are said to be in the city investigating. The Union Bank was the financier for the great rye shipper.—Montreal Trade Bulletin.

A Big Cheese Deal.

J. W. Cooke of Ingersoll, representative in Western Ontario of the Warringtons of Liverpool, London, Belleville and Montreal, is credited with having bought something like 40,000 boxes of cheese Tuesday last. Price paid was 10c. The cheese they had to have to fill orders expected later in the season and the result was a hustle such as was never before witnessed in that district. All Wednesday and Thursday the buyers were scouring the country, the telephone and the telegraph lines were kept busy and last night brought the news that all the cheese of the Listowel and Ingersoll districts were in the buyers' hands—fully 85,000 boxes having been purchased in two days. It is estimated that there are still about 15,000 boxes unsold, but these are in small factories mostly west of London.
