A NICKEL TRUST IN SUDBURY On a Basis Simular To the Copper Combine of the United States.

SUDBURY, April 6.-The main topic of eversation here is the attempted organization of a nickel trust to control the entire sutput of nickel on a basis similar to the copper combine of the United States. rating that Mr. Greer applied to Justice Falconbridge to amend the minutes of the order for injunction in the case of Smith v. Toronto so as to make the same interlocutory. The judge agreed. The effect is to render the injunction not appealable.

Mr. Greer was present and told the committee it was not the intention of his clients to force the city to remove the patients at present in the hospital, but they would not permit any more being placed there unless the city signed an agreement that the new hospital would be gone on with at once.

The board decided to have plans prepared for an isolation hospital, not to cost more than \$20,000, the plans to be submitted to the General Hospital Board.
