

WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Cape Wolfe, Canada.—"Last March I was a complete wreck. I had given up all hope of getting better or living any length of time, as I was such a sufferer from female troubles. But I took Lydia E. Pinkham's Vegetable Compound, and today I am in good health and have a pair of twin boys two months old and growing finely. I surprised doctors and neighbors for they all know what a wreck I was.

"Now I am healthy, happy and hearty, and owe it all to Lydia E. Pinkham's remedies. You may publish this letter if you like. I think if more women used your remedies they would have better health."—Mrs. J. T. Cook, Lot No. 7, Cape Wolfe, P.E.I., Canada.

Because your case is a difficult one, and doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of women—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

NOTE AND COMMENT

There are more than 4,000 languages in the world. There are six languages common in Austro-Hungary. It is said that there are 60 vocabularies in Brazil. In Mexico, the Nahua is spoken in 700 dialects. There are hundreds in Borneo while in Australia there is no classifying the complexities.

There is nothing to be gained by further discussion as to whether the British-born or the native-born have furnished the greater part of Canada's recruits. Every man who can go is needed, no matter where he was born.

A facsimile is given by the Chicago Advance of a Turkish list of the members of a Christian American community "removed in a single day from a single city." Seventy-three families are named, consisting of over 400 people. They were driven out into the desert to live or die. This grace was accorded them only because they were Protestants educated in American schools, and international complications were feared. The Kaiser, it is said, alone is able to stop the massacre of Armenian Christians.

There are more than 300 firms in Canada, employing some 175,000 men, now engaged on war orders of one kind or another. It is believed that under proper organization the present output can be more than doubled, and the number of firms capable of making shells or other munitions can be increased probably 100 per cent. With the prospect of

the war lasting for at least a year or more longer, it is probable that steps will at once be taken to organize under the direction of the British experts a large ordnance manufacturing plant in Canada, which should be in a position towards the end of next summer to begin turning out the finished product. Even should the war end next year it is believed that the international situation will be such as to make it wise from the standpoint of Imperial safety that Canada should be in a position to actively contribute in the future to the weapons of defence of the Empire.

"One of the most influential agricultural papers in the Dominion," is the way others refer to the Weekly Sun of Toronto. It is a paper which appeals to the wide-awake farmers. Independent and fearless, it has always guarded the best interests of Canadian agriculture. Aside from that, its accurate and carefully compiled market reports and summaries give the reader a practical grasp of market conditions. "You have saved me dollars," is the repeated recommendation of hundreds of its readers. The Sun is on the ground, it is the paper for the farmer who rolls up his sleeves, and to those who are farming for profit, its market reports are worth many times the subscription price.

Dutton Advance.—Many a good patriotic address is marred by the speaker's promiscuous use of the word "England" for "Britain." Were the incorrect term used by uneducated men they might possibly be excused, but when university graduates use the incorrect word it is more annoying and sounds more harshly. Dutton audiences frequently complain of this misconstruing of terms. "The English navy," "the English army" are terms frequently heard, when everyone knows that the army and navy are composed of English, Scotch, Irish and Welsh. Strange that these educated speakers would thoughtlessly go so far as to hurt the sensibilities of many in the audience and thus lessen the effect of an otherwise admirable address. We would suggest that when the next speaker addresses a Dutton audience and is tempted to fall into the errors of others that he would give the Empire its correct name—Great Britain.

State of Ohio, City of Toledo, Lucas County, ss. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

Sworn to before me and subscribed in my presence this 6th day of December, A. D. 1886.

A. W. GLEASON, Notary Public. Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Send for testimonials free. F. J. CHENEY & CO., Toledo, O. Take Hall's Family Pills for constipation.

Hit Them Back

Isn't it time that steps were taken to reply to the Zeppelin raids that are now a fortnightly, sometimes a weekly, occurrence over London? The authorities there claim that they are of no effect upon the morale of Britishers. No doubt that is true, but the point is more pertinently taken when it is claimed by the Germans that they feed the enthusiasm of the Teutonic people. To read in their papers that the hated Britishers have been stung again, without the loss of a single Zeppelin, and their capital insulted if not very materially damaged is a considerable sop to German pride. How is it that no German city of the size, say, of Munich, Frankfurt, Dresden, Cologne which is near the front, and, above all, Berlin, are never attacked by our air-craft? Reprisals may not be pretty, but they are likely to be effective. And it is a curious fact that, barring a few sporadic invasions by the Russians, the soil of Germany is still inviolate after fifteen months of war.

If Miller's Worm Powders needed the support of testimonials they could be got by the thousands from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

Some Big Yields in the West

Humboldt, Saskatchewan.—Threshing is revealing good yields throughout Humboldt district. A field of 100 acres Marquis wheat yielded 4,000 bushels and yielded No. 1 Northern.

Picture Butte, Alberta.—Yields revealed by threshing operations more than justify early predictions. A large field of spring wheat has been threshed here which averaged 69 bushels per acre; another 59 bushels, and another 56 bushels.

Empress, Alberta.—A thresher here reports threshing wheat in this district which yielded 51 bushels per acre.

Lethbridge, Alberta.—A one-acre test plot of Marquis wheat yielded 99 bushels, and a 34-acre field averaged 60 1/2 bushels. There are on this farm 200 acres of Marquis wheat which it is expected will average over 50 bushels per acre.

Fort Saskatchewan, Alberta.—Eustlage corn ten feet high is Fort Saskatchewan's claim to be included in the corn belt. This corn was planted June 8th and was cut September 8th. Fort Saskatchewan is 325 miles north of the International boundary.

Medicine Hat, Alberta.—A head of celery grown in a garden here weighs 4 1/2 lbs.; it is one of 60 grown in an area 4 x 16 feet.

Toledo, Alberta.—Threshing which has taken place so far indicates that the average wheat yield of the district will be 35 bushels per acre; oats 70.

Gleichen, Alberta.—Field of oats threshed here yielded an average of over 104 bushels per acre.

A remarkable yield of wheat is reported by A. G. Gordon, manager of the Bank of Commerce at Kindersley, Sask. He states that a farmer in the district threshed 781 bushels of wheat of a 12-acre farm, which nets slightly over 65 bushels to the acre.

SCIENTISTS HAVE PLEDGED THEIR AID TO THE KING BY DEVOTING ALL THEIR ENERGIES TO THE TASK OF BRINGING THE WAR TO A VICTORIOUS CONCLUSION.

In the meantime, the health and nerves of our brave soldiers and their friends at home is suffering, and TAK-AKE is the one perfect remedy for nervousness. Fifty cents at your druggist's, or by mail from Georgian Mfg. Co., Collingwood, Ontario.

Summary of the Game Laws as Applied to This Part of Ontario

- 1—No person shall on the Lord's Day, hunt, take, kill or destroy any game, or use any gun or other engine for that purpose.
- 2—It is not lawful at any time to use a Maxim Silencer or any kind of a muffler on a firearm except on one's own property or premises.
- 3—The use of automatic guns is not legal—that is, those guns in which recoil is utilized for reloading.
- 4—Open season for game.
 - (a)—Black and grey squirrels, and quail, Nov. 15 to Dec. 1, (both days inclusive in all cases).
 - (b)—Woodcock, Oct. 1 to Nov. 15.
 - (c)—Partridge and pheasants, Oct. 15 to Nov. 15, (bag limit 10 partridges in one day).
 - (d)—Ducks, Sept. 15 to Dec. 15.
 - (e)—Cotton tail rabbits, Oct. 1 to Dec. 15, by shooting; until Dec. 31 if a gun is not used. Rabbits can be killed at any time (if doing damage to trees and shrubs) on consent of the owner, provided any of the animals killed be handed over to the nearest officer of the game and fisheries branch for distribution to charitable institutions.

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

Scotch waterfalls are estimated to possess a million horsepower.

By the use of a new frame a two-man saw can be operated by one man.

Japan's forests are being cut away at a rate of 1,000,000 acres a year.

Simple rubber fasteners have been invented for holding corks in traveler's bottles.

A patent has been issued for a corrugated metal rubber mitten for use in washing clothes.

A municipal gas plant in Holland is extracting illuminating gas from a mixture of peat and coal.

Nature ever refuses to give something for nothing. Even the forest-grown nut has a hard shell to be cracked before its kernel can be eaten.

Shoes with quickly removable soles and heels have been invented in France for railroad-men so that they can escape should their feet be caught in tracks.

Sawdust has been found to be a more effective extinguisher of fire in burning liquids than sand as it cuts off the supply of oxygen more quickly.

Whether upon the old farm, where our fathers toiled diligently, striving to bring the soil to productivity; in the machine shop or factory, or the thousand other business places that invite honest toil and skill—let the motto ever be: Perseverance and industry. Stuck to one thing, boys, and you will have success.

For Frost Bites and Chilblains.—Chilblains come from undue exposure to slush and cold and frost-bite from the dry winds of winter. In the treatment of either there is no better preparation than Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is instantaneous and its application is extremely simple.

Take the boy in partnership in your farm operations. It will be a great incentive to keep him on the farm.

Only 39 per cent of the total graduates from the six principal women's colleges in the United States have married.

The Agricultural Instruction Act

There has been issued at Ottawa the first report of the work accomplished by the province under the provisions of the Agricultural Instruction Act. It is entitled "Report of Agricultural Instruction Act, 1913-14" and embodies a full statement of the scope and nature of the measure followed by a review, in nine sections, of the work done in each province. A section is also devoted to the veterinary colleges of Canada, towards which \$20,000 a year is granted. Another section covers the subjects of "Agricultural Education in Manitoba", "Agricultural Instruction in Belgium", "School Consolidation" and other matters including a list, briefly explained, of the United States federal appropriations for Agricultural instruction. The report shows, among other things, that one hundred and fifty-five permanent instructors and many assistants, professors, supervisors, directors, demonstrators and many instructors, have been appointed by the various provinces and are being provided for through the Agricultural Instruction Act. In addition, a large number of magnificent buildings have been erected from the funds throughout Canada. The report embodies one
