Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital." — Mrs. E. SHELDON, 5657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound. If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

### NOTE AND COMMENT

"The utterances of a man who knows nothing about it and thinks he has said something," is the way in which Thomas Rowe, grand senior Warden of the Ontario Masons, replied to the statement of Rev. J. P. McLeod, pastor of the Presbyterian church of Wyoming, who urged Masons to throw open the order to women as well as men. "The fact of the matter is that it is against all the ancient rules of Masonry to admit women and for anyone to suggest it shows that he is entirely ignorant of the whole foundation of Masonry. The order of Masons was once composed of practical working masons, and even today you don't see women working as masons. The workmen formed the order and it became popular and other men who were not masons were allowed to come in as free masons. That is, they were free from working as masons, and the whole scheme of philosophy which forms Masonry was gradually built up on the work of the working masons. A Mason must be a male over 21 years of age, according to all the old landmarks of the trade's guild, which was the commencement of Masonry. It would be quite impossible to admit women to the order."

### CHOP STUFF

Pte. J. Reath, of Glencoe, was killed in action. Geo. Peat, of Petrolia, has returned from Trinidad.

Gunner H. C. Young, of Sombra, is reported gassed. A town is like a girl; it's a wonder what a little fixing up will do for it.

A good town will do more to keep the boys at home than good advice. If you don't conserve the food this year from a patriotic motive, you may have to conserve it next year from necessity.

The paper shortage in Berlin, Germany, is said to be serious. The lie crop, though, appears to be as heavy as ever.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Cure is within reach of all.

New York society women will not hold any dances or similar social functions during the coming winter because of the United States being at war.

By the way, gardeners should keep in mind that there is a better way of disposing of autumn leaves than burning them. When decomposed they make a splendid fertilizer.

A British farmer was fined \$27,500 for selling potatoes at prices above those fixed by the government. He will need to grow a lot to make up this sum of money.

Rev. J. McRobie, of Petrolia, will attain his diamond jubilee as an ordained minister of the Presbyterian Church on Sunday next and on the following day enters his 92nd year.

The merchant who feels that one of the chief things he is accomplishing in his advertising is to "help support the newspaper," probably feels, too, that he is paying store-rent primarily to help support the landlord.

Fire that started in Miss Beattie's millinery store, Forest, Tuesday morning destroyed four business places on King street, occupied by Miss Beattie, milliner, P. Cairns, shoe store, Lyle Wellington, barber, and A. Armstrong, shoe repairer, and a vacant store owned by Wilfrid Byrns.

Disloyalty does not exist alone in being a pro-German. The man or woman who dodges responsibility, who pulls wires for selfish ends, who seeks riches while his country passes through the fires of war—all these are disloyal. Their disloyalty may be more dangerous than the machinations of many pro-Germans.

A REAL ASTHMA RELIEF. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative indeed, when judged by the cures which it preforms. Expect real relief and permanent benefit when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so called remedies have utterly failed.

Wesley Willoughby, formerly blacksmith in Adelaide village, and recently a sapper in the army overseas, and who through ill-health was compelled to return has, with his wife and family, moved to London, where he has secured a good position with the Grand Trunk Railway in the freight department. On the eve of their departure their friends in that vicinity presented them with a handsome couch, accompanied by an address.

At a meeting held in Petrolia on Tuesday, Mr. George V. Wyant was appointed collector to secure funds with which to pay for the services of a ringer for Christ Church chimes. The idea, originating with Mr. Wyant, is that each day at five minutes of twelve the chimes play a hymn and that citizens for at least a few seconds during the five minutes turn their thoughts towards God and offer up a prayer for a just and speedy peace.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels unattractive to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

The Fire Chief of London issues a warning to citizens who use coal oil heaters at this season of the year. Explosions of coal oil stoves, he says, are due in almost every instance to corrosion on the burners. This prevents the proper air currents circulating through the burners, and the result is an explosion. At this season of the year before furnaces are brought into constant use, oil heaters are frequently used to remove the chill from certain rooms, and in view of this the fire chief cautions persons using them to see that the burners are free from corrosion.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and this is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts through the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Well, No, We Hadn't Noticed It. Have you ever noticed how an extremely fat woman always acts as if she was very much afraid some one was going to steal her and how an extremely thin girl always acts as if she was afraid some one wasn't?

Too Much. "Why did you quit that barber?" "Well, I didn't like him. Every time he moved my head he wanted to use my ears as handles."

Shopping. First Lady—Mrs. Smith is too young to go shopping alone. Second Lady—What is that? First Lady—She's liable to get excited and buy something.
