Advertisements.

This is the first to introduce to the public the Holland Spanish American Turban Squash, Marblehead Mammoth Cabbage, Marlboro Sweet Corn, Philney's Watermelon, and many others.

New and Valuable Vegetables.

This season I have a new and exceedingly valuable squashes, new varieties of corn, three fine cabbages, and other choice new vegetables for my customers.

My business is to supply, what every good farmer desires to get, the *newest* of vegetable seeds. I grow a hundred and fifty kinds on my four acre farm, right under my own eye, making new vegetables a specialty, besides importing the choicer varieties from European growers. A fine selection of flower seed, home-grown and imported, will also be found in my Catalogue, which will be sent free to all applicants.

As stated in my Catalogue, all my seed is sold under three warrants.—1st: That all money paid shall reach me; 2d: That all seed ordered shall reach the purchaser; 3d: That my seeds shall be *free* and *true* to name.
