

You Want This Catalogue.

About March 1 we shall sell at public auction, in Boston, a larger and more important collection of STAMPS of the United States and British North America than ever has been offered in a single sale. This collection is worthy of your careful attention, for it contains nearly all of the known varieties of the rarer stamps of British North America in magnificent condition—several unique. Also a remarkable lot of early issues of the United States in singles, pairs, blocks and strips, unused, with original gum. Some idea of the grade of stamps to be sold will be conveyed by the knowledge that although the sale will contain only 600 lots, their aggregate value will be over \$20,000. Among the good things are these:—
