### GENERAL ASSEMBLY.

### (Continuel from last issue) PRESENTERIAL OVERSIGHT OF ART STUDENTS.

An overture from the Synod of Hamilton and London was considered, asking the Assembly that no sits student should be employed in must a work without the imprimatur of the Pr shy-cry and to take oversight of such students before their entrance on theology. Dr. Cochrare and the Moderator were heard in support of the overture. Judge Moderator were heard in support of the overture. Judge Sevens, in speaking to the question, spoke strongly against the emphyment of arts sea lents at all in the mission field. Rev. D. J. Macdonnell felt that, in view of the large number of students now unable to find employment in the summer months, the time had come when only theological sudents should be employed in mission work. Rev. Dr. Cochrane felt that the time had long since come when theological students should have precedence over aris students in the appointments to the 11-me Mission fields. Fit ally it was resulted to send the whole down to the Home Mission Committees, East and West, for their consideration, to report to the next General Assembly.

# APPOINTMENT OF RVANGELISTS.

APPOINTMENT OF RVANGELISTS.

An overture from h. Synch of Montreal and Ottawa was taken up, recommending the off inl appointment of evange liss. Mr. G. M. Clark spoke in its behalf. A lengthy discussion took place, in which considerable diversity of operion was expressed. The Assembly was a unit on behalf of evangeticie offers, but meny were decidedly apposed to any class apart from the regular ministry being singled out for this work. Dr. McCrae moved substantially that the Assembly's resolution of last year be re-affirmed. Mr. Se 'gwick mi ve' that while re-affirming that resolution, a committee be appointed to consider in what it specis the sist clause of said report may lest be carried out so as to meet the views of such as desire help in evangelistic work. On the vote being taken the motion of Mr. Sedgwick was carried by a large majority, 111 voting for it and thirty-six for Dr. McCrae's.

### FOREIGN MISSIONS.

FOREIGN MISSIONS.

At the Friday evening Session the Foreign Mission reports, east and west, were presented by the joint Conveners, Dr. Wardrope and Rev. A McLean. These contained in teresting and detailed reports of all the mission fields under the charge of the commutee—in the New Hebrides, in Trioidad, in Manitoha and the North-West among the Indians, in China and India. In the Eastern section of the committee the year commenced with a debt of \$2 206 03 against the funds. The Worm n. Foreign Mission Society resolved to raise a jumice offering of \$1,000 to liqui late that debt. They raised \$1,023 59 and congregational ladies' societies sent in \$1.000 11, which may be creatied to the same purpose. The Womens' Foreign Missionary Society also paid the amount required for the salaries of the lady teachers in Trinidad, viz., \$1,624. The receipts, including these amounts, were \$21.848.48. Of this sum \$973.32 was sent by Dr. Reid towards the payment of Mr. tods n's salary. \$1,200 by the Women's Foreign Missionary Society of the West, \$1,247.27 by congregations, Sabbath schools and others in the West, and \$485 by the Free Chutch of Sculand, the second instalment of the price of the mission premises at Anelembate, leaving \$17.942.80. In the cast the expenditure was: For the New Hebrides Mission, \$6.495.34; for West Indian and South American missionaries, \$11.475.52 and for specials to other places and expenses, \$1,313.14; making a total of \$19.194. This shows that the receipts exceeded the expenditure by \$2,654.53, or a sum sufficient to wipe out the debt of last year and leave a balance of \$4,48.45 in fund at the present time. The Woman's Foreign Missionary Societies are entitled to special praise for their respective donations. Their section) and the Congregational Woman's Societies are entitled to special praise for their respective donations. Their efforts have called forth the though and exertions of hundreds that would otherwise have possibly taken little interest in the cause. This educational work, carried on Redeemer's kingdom.

The financial statement of the western section is as follows: Total receipts for the year, \$55,518.70; balance at debtor at the close of the year, \$55,5287; total, \$70. \$70.970.77. The gross receipts of the year have been \$65,018.10, being an increase of \$15,210.97 over the amount received last year. There is, however, a balance at debtor at the end of the year of \$5,552.87, but against this there is a special fund in reserve of \$5,000. The adverse balance is greater than that of last year by \$2,647.43, but a debt due by the mission in Formosa, to the financial agents there, is now entirely removed, so that our position may be regarded as better than last year. While it would be unwise to meur any greatly increased liabilities in the meantime, it is hoped that the receips for the year may enable the committee to continue the work in the different centres without impairing the efficiency of the service. With regard to the Woman's Foreign Missionary society, the report says: In 1876 the society was organized, and with fifty members. For some years prior to 1887 the average increase was at the rate of \$00 members per year. The increase in 1887 was 2,000. The report for this year shows an increase of 4,294. The report for 1887 showed contributions to the amount of \$18,581; the report for 1888 shows contributions to the amount of \$18,581; the report for 1887 showed contributions to the amount of \$18,581; the report for 1887 showed contributions to the amount of \$25,657.54. Of this amount the Mission Bands have contributed \$5,273,255. The total membership is 12,854. The number of life members last year was 161; this year it is 251. The work of the seriety tells upon the life of the whole Church, and without its efficient aid the result, for which we have to thank God, in the way of support to the mission cause would be very different from what it is to-day. The financial statement of the western section is as fol-

After presentation of the reports, interesting and stirring addresses were delivered by Rev. Dr. Smith, missionary-elect to China, and Rev. J. Wilkie, teturned missionary on furlough from Central India. It was then moved by Dr. Cochrane in a brief but thrilling address, seconded by Mr. James Cr. il, That the General Assembly a lopt the teport and to nder thanks to the Committee East and West, and especially to the Conveners, for the zerd and diligence manifested during the past year in carrying on their most blessed but, at the same time, arduous labours. The General Assembly records is a traitingle to Al nighty G. al for the especially to the Conveners, for the real and unignote manifested during the past year in carrying on their most blessed but, at the same time, arduous labours. The General Assembly records is gratifule to Al nighty God for the marked success that has after led the teaching and preaching of the Word among the heathen, and the increased and pressing diminds that are made for the glorious Gospel of the grace of God in other regions that are still in mind darkness and under the thrablom of superstition. They recognize the noble efforts and splendid contributions of the women of our Church, East and West, in order to give to their degrated sisters the his sings of a Christian zed civilitation. They recognize the large measure of the liberality that has characterized the Church during the present year, me'n ting the gratifying gifts of our students, and express the fand hope that the contributions of the present year may be greatly increased in order to accept of the many mi sources that are offering for service in the heathen world. In regard to entering upon missionary work among the Chinese in British Columbia, urged upon the Church by the Presby'cy of British Columbia, the Assembly remits the whole matter to the Committee of the Western section to take such action in the premises as they deem warranted by whole matter to the Committee of the Western section to take such action in the premises as they deem warranted by the state of the funds. Finally, the Assembly bends with submission to the will of Cod, who has during the year removed frim our ranks Mr. and Mrs. Murray, Miss Archibald and other native workers and pray that these mysterious bereavemen's may but stimulate the Church to press fo, ward in that work in which they cheerfully laid down their lives. The motion was carried unanimously, after which the Assemble adjourned. which the Assembly adjourned.

At the Session on Saturday morning the reports of the various colleges were presented. The Rev. A. T. Love presented the report of Marin College, indicating progress through the year. Twenty eight studins had been in attendance, fifteen of whom were studying for the ministry. The revenue for the year was \$4,600. Mr. Love stated that the Assembly would be asked to commend to the Church the effort being made to raise an endowment of \$150.000 to found new professorships. Dr. McCrae, of St. John, moved and Mr. D wey seconded the reception of the report, and that the Assembly commend the college to the interest and liberality of the Church in further efforts to extend its usefulness. Mortin Cellege had given to the Church at little cost many able ministers, and its continuance in Quebec was an absolute necessity in that part of our land.

our land.

The Rev Dr Burns presented the report for Halifax College, and indicated the very prosperous condition of the institution, not only as regards attendance and efficiency, but as regards the funds. The revenue for the year was \$1,000 in excess of the expenditure. On motion of Dr. Cochrane, seemled by Principal Forest, the Assembly expressed its gratification at the properous state of the institution. The report was received and adopted.

Professor Scrimger presented the Montreal College report, which stated among other things that the class that graduated in April was the largest that had ever passed out of the institution, and that all but one of the graduates had received

which stated among other things that the class that gr..duated in April was the largest that had ever passed out of the institution, and that all but one of the graduates had received the degree of B.A. Professor Scrimger moved, seconded by Rev. A. H. Scott, as follows, which was adopted: That the Assembly receive the report, express is satisfaction at the prosperity and success of its work during the year, commending anew the further endowment of the institution to the liberality of members of the Church, and adopt the recommendation to continue the Rev. L. H. Jordan as lecturer in Church government.

I'rofessor Ross, in the absence of Principal Grant, presented the report of Queon's College. He stated that in 1869, Queen's College had a revenue of only \$7.753 and ninety three students. In 1888 the revenue was \$32,000 and the students in attendance 420. Dr Smith had been appointed to take charge of the Jubilee Fund of \$250,000 which had been subscribed mainly through the indomitable perseverance of Dr. Grant, whose efforts had greatly im paired his health. An additional professor was required for the Faculty of Theology. Dr. Proudfoot moved a resolution, s-conded by Mr. Cumberland, which was adopted, rejoicing in the growing prosperity and efficiency of the college, and the grand success of the Endownment Fund, and expressing its gratitude to the citizens of Kingston for their great liberality, and also expressing sympathy with Principal Grant in his serious illness, by which he had been laid aside for a time from his duties. The Assembly recognized the necessity of appointing another professor at an early date.

Principal Caven submitted the report for Knox College. early date.

recognized the necessity of appointing another professor at an early date.

Principal Caven submitted the report for Knox College. Fifty-two theological students had attended the classes last year, and thirteen had graduated. The receipts from all sources during the past year have amounted to \$16 65.09, while the expenditure has been \$16 207.53, leaving an apparent surplus of \$445.41, as at the 1st May, 1888. The endowment had now reached the sum of \$20\$,000 of which \$176,000 had been paid. He emphasized the need of a still larger endowment, which was small compared with Princeton with its \$1.300,000, and Union Seminary, New York, with its million and a half. He spoke of another professor being added as soon as possible, but in the meantime they would continue as best they could with the three professors and two lecturers. Speaking of the Common College Fund, he felt that it did not meet the desire of the Church from vatious reasons and might as well be abolished. Dr. Bryce moved the adoption of the report, seconded by Dr. Burns. The resolution contained an expression of gratification at the growing prosperity and improved financial condition of the college and asked the Assembly to appoint as perman-

ent lecturer the Rev. R. Y. Thompson, M.A., B.D. The

ent lecturer the Rev. R. Y. Thompson, M.A., B.D. The resolution was adopted.

The Rev. Dr. Bryce presented the Manitoba College report. The college had been in a highly satisfactory state during the year. They were to-day \$5,000 better off than they were a year ago. The salary of the theological chair was provided for by the congregations in the North-West. Over 2,000 had been received from colle e fees. There were eight students in theology. The total number of students entolled was 104, as compared with ninety-one last year. The number of against in the study of theology was Over 2,000 had been received from colle c fees. There were eight students in theology. The total number of students enrolled was tos, as compared with ninety-one last year. The number cogaced in the study of theology was smaller than in the former year; on the other hand the number ready to enter the Theological classes is much larger than at any previous period in the history of the college. The admission of laties to the privileges of the college has been after led by no injurious consequences. They have thus far shown it emolyes able to keep their own in their competitions with the students of the other sex. The revenue of the college was \$22,755, as compared with \$174-084 has year. The coopie toons of Ontano and Quebec have cortributed \$5,506. Sixty one of the 108 students in the University of Manitoba were from Manitoba College and a very large number of the honours of the University had been taken by our students. Dr. large referred to the sad bereaven cuts that had be fallen Dr. lang during the past and other years, but was glid to say that his health, which had been so safty undermined, was now in a fair way for restoration. Isev. D. M. Gordon, recorded by Dr. Caven, moved the adoption of the report, and spoke of the exceedingly gratifying results now attained compared with earlier years, the debt on the building having now been completely extinguished. The salanes of key. Dr. Bryce and Rev. Professor Hart were increased from \$2,000 to \$2,250. Rev. Dr. Bris remirded those of his brethren who had subscribed in Winnings for the reduction of Manitoba College debt that it was most desirable to have these amounts paid at once. Out of the \$10,000 subscribed only \$11,000 had been paid in.

### COMMON COLLEGE FUND.

The Rev. Dr. Reid, the agent of the Church, presented a statement of the am units paid into the College Fund during the year, and the amounts paid to the several colleges. On motion of Dr. Bryce, seconded by Rev. William Burns, the report was received and it was agreed to abolish the C mmon College Fund in the future, leaving it to congregations to give to whotever college or colleges they see fit. A commutee was appointed to send an explanatory circular to congregations in regard to this change and enforce the congregations in regard to this change and enforce the claims of these institutions.

## DISTRIBUTION OF PROBATIONERS.

On Monday marting the report of the committee was r ad by the Rev. Dr. Torrance. It stated that sixty-four vacancies had been reported during the year for partial supply. Thirty-three of these had been settled and three supply. Thirty-three of these had been settled and three others placed under ordanical invisionaries. Forty-six names of probationers had been upon the list. Of these only nine-teen remain and four have withdrawn, one from ill-health, teen remain and four have withdrawn, one from ill-health, two from going to other helds and one from dissatisfaction with the scheme. The recommendations were: (1). That the committee be not required to accept applicants for service under their direction, except from Presbyteries regularly reporting in full. (2). That the committee be authorized to drop from the roll of probationers any name that has been on it for two years. These were agreed to.

# STATISTICS.

Dr. Torrance presented the report of the Committee on Statistics. The statistics of the Charch are first dealt with, and it is shown that there are now forty-three Presbyteries on the roll of the Assembly, one of which is in India and not reported upon save under the nead of Foreign Missions. The number of pastoral charges is 703, being eight more than for the preceding year. Of these, 184 are in the Synod of the Maritime Provinces, 151 in that of Montreal and Ottawa, 210 in that of Toronto and Kingston, 197 in that of Hamilton and London, and forty-eight in that of Manitoba and the North-West Territories. The number of mission stations reported is 429, of which eighty two are in the Presbytery of Barrie, htty-four in Bruce, forty-six in Calgary, eleven in Rock Lake, nine in Orangeville, twenty-five in Regina, twenty in Brandon, seventeen in St. John, fifteen each in Winnipec and Owen Sound. The number of vacant charges is reported at ninety-one as compared with ninety-four for the previous year. During the year forty six maniters have denutted their charges, ten were translated to other charges in other bounds during the year. The number of students licensed was forty-three. Thirteen ministers were removed by death in the course of the year. The total unmber of churches and stations suppused by min isters is 1.831, being lifty eight more than the number given in last report. In the last report to the General Assembly it was stated that there was scating accommodation provided f 1,110,975 persons. This report gives that accommodation as for 426,717, being an increase of 15,742. The number of families reported last year as being connected with families of corgregations has been reported as 13,261, an increase of 2,564 on last year's report. In the last report the increase in the number of communicants was stated to be near y 9,000. Your commutee give it in this report as being 9,042, or an aggregate of sear separate of the increase as eigen for each Swind from the returns for 1857 compared with 1886, thus reduci Dr. Torrance presented the report of the Committee on require to be deducted, the decrease on their returns for 1887 compared with 1886, thus reducing the aggregate of the increase as given for each Syned from 11,171 to 9,042, as showing the net increase for the year. Those admitted to the fellowship of the Church on the personal profession of their 'aith numbered 12,471, as against 12,564 the previous ar. In all the Synods there has been an increase,
