Will be pleased to correspond with Canadian Manufacturers and Exporters desirous of opening up direct relations with Australia.

building, the Union Station, the City Hall, Toronto University, the Board of Trade building, the Dominion Bank, Confederation Life Association building, and McKinnon building are among the architectural gems in Toronto which have been fitted with their wares, and which have attracted the laudatory opinions of thousands of sight-seers and others whose privilege it has been to inspect them.

The Metallic Roofing Company sent a representative exhibit to the Paris Exposition, where the competition was of the keenest description, and where the best manufacturers of the world contended for honors. It is a matter for congratulation on the part of Canadians that the exhibit received the silver medal, the highest award within the gift of the judges. It is only natural that the firm should receive some tangible recognition of its skill in the great fairs and exhibitions of the world. It speaks well for the progress and development of the manufacturing industries of the country.

The publication of the catalogue "S" is no small matter. The total issue of this beautiful book weighs no less than ten tons, or 20,000 pounds. The cost of the volume is about \$7,000. It will be sent to all parts of the world, wherever customers for these excellent goods may be found, and the company will doubtless reap a rich reward from their investment.

#### THAT MOST PERSISTENT BEGGAR.

By the compliment of E. E. Cary, Esq., manager of The Packard Electric Co., St. Catharines, Ont., we are in receipt of a most artistically gotten up booklet entitled That Most Persistent Beggar, of which Mr. Cary is evidently the author. The title page shows that The Packard Electric Co., are the publishers, and elsewhere it is shown that the book was done up at the company's print shop, and that it is copyrighted. The idea of the talented author in writing his effusion was evidently to show the persistency with which the Angels of Commerce, otherwise known as drummers, who circulate throughout the land in the interest of the Packard Company, persist in obtaining the orders they go for. In fact, Rudyard Kipling in passing the hat in the interest of The Absent-Minded Beggars who marched off to South Africa, just simply wasn't in it with E. E. Cary in expressing his views in verse or prose.

It is interesting to note that under the management of editor and author Cary, the publishing department of The Packard Electric Co., has achieved great popularity and success. In our last issue we had occasion to refer to The Sheel Siftings, just then issued from the publication department of that concern. Variety is the spice of life, and nothing can be more appropriate in these burning days of a Canadian summer than these cool and pleasant draughts that are being offered by Manager Cary. They are as refreshing as the non alcoholic fluids the boys poured down their parched throats while at the convention of the Canadian Electrical Association in Kingston last week.

#### GALVANIZING

We are prepared to attend to all orders Promptly and Economically.

WINDMILLS, PUMPS, TANKS, Etc.
