McDonald, of Huntingdon Mills the congregation. The newly elected pastor received a very warm welcome from the congregation.

A FORTUNATE ESCAPE.
Mrs. Cyrus Allerton, Brampton, Ont., had what was supposed to be a severe attack of rheumatism when she called to her Woodstock Street bitters, internally and externally, after bottles of which cured her.

NONE BETTER.

There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cancer, Disease, Consumption and other serious complaints of infants or adults, than Dr. Foster's Extract of Wild Strawberry.

DA. CARSON'S CARBON COAL is no longer an experiment. No cure no pay is the terms on which it is sold. None refutes if sulfuret of carbon is satisfactory. Ask your druggist about it, then buy it and take no other.

Don't use any more dangerous purgatives such as Milk of Tartar, &c., when you can get in DA. CARSON'S Brown Lintzes, a medicine that moves the bowels gently, cleansing all impurities from the system and rendering the blood pure and cool. Great Spring Medicine. 20 cents.

NORTH AMERICAN LIFE ASSURANCE COMPANY.

This company bears the mark of future greatness more distinctly than its competitors of equal size. It is possessed of very important and special advantages, and they are so well employed as to constantly augment its strength and popularity. It has at its head a man of great influence and high standing in the Dominion, the Hon. Alexander Mackenzie, M.P., ex-Prime Minister of Canada, whose name and character command universal confidence and respect. It is equally fortunate in having as its Managing Director, William McCabe, Esq., F.I.A., F.S.S., an underwriter of active and untiring energy, and an accomplished mathematician, who has devoted his time, skill and talent to promote the interests of the Company, and being assisted by a board of directors including the most distinguished statesmen, financiers and business men of Toronto, the progress of the Company has, as might naturally be expected, been rapid and continuous since its organization.
