Over 60 new country elevators have been built in the west this year, the average capacity of which is 35,000 bushels.

Bruce McBean, of Winnipeg, was introduced on "Change" by the board of trade, Montreal, last Thursday by A. G. McBean.

Two new elevators are to be built at Duluth before the crop of 1903 commences to move each of which will have a capacity of 1,500,000 bushels.

The probable wheat crop of South Dakota is placed by various authorities at from 38 to 55 million bushels. The latter figure is the government estimate.

Owing to the change in the Winnipeg banking hours for Saturday from 1 to 12 o'clock, the grain exchange, at a meeting held on Wednesday, amended its laws by changing the hour for presentation of documents in fulfillment of contracts from 11.30 a. m. to 11 a. m.

The leading baker in Bermuda, W. L. in a recent letter to the "Maritime Merchant," says that he has just posted his first order for Ogilvie's Canadian flour. Until last spring, he considered himself to American flour, made in Minneapolis, but he now finds that Ogilvie's makes more bread of a better quality than any other flour he has tried.

The Canadian Pacific Railway Co. has given instructions for a temporary machine house to be built at Elevator D, Port William, and this elevator will be in commission this season after all. Work will commence in a few days. The use of this elevator will increase the storage capacity at Port William by at least two million bushels. The engine in elevator X will be removed before the crop arrives.

A gentleman who has exceptional means of knowing, stated yesterday that the Northern Elevator Co. of Winnipeg, must, in his estimation, have made between \$500,000 and \$750,000 in the handling of their share of the Manitoba crop of 1901.
