Jane Irwin.

## III. ACADEMY DIPLOMA.

1861.

Frederick Gore, B. A.

The above list includes the names of all the persons who have received diplomas of the McGill Normal School up to this date. It is published for the information of Commissioners and others interested, and to prevent misconceptions which appear to have arisen, in some instances, from confounding the diploma of the Normal School with that of the Board of Examiners holding its meetings in the Normal School building. The latter diploma, though of equal legal value, does not imply that those holding it have received any instruction or training in the Normal School, whereas those holding the diploma of the Normal School must have passed through a course of special study and training, extending over one or two years.

February 13, 1864.

## ADVERTISEMENTS.

### THE JOURNAL OF EDUCATION

AND

### "LE JOURNAL DE L'INSTRUCTION PUBLIQUE."

The price of subscription to each of the above journals is ONE DOLLAR per annum. Teachers FIFTY CENTS.

These journals are devoted to Education, Science and Literature, and contain monthly summaries or reviews of current events. They were very favorably noticed by the Jury of the Educational Department of the London International Exhibition in 1862, and obtained a First Class Medal.

N. B.—Editors of Newspapers publishing this Advertisement will be entitled to one of the seven volumes of either journal for each insertion, two insertions entitling them to two volumes, &c. The year to which any volume required refers should be indicated.

The Department has for sale various series of the above Journals, handsomely bound, at the following prices: one journal, boards \$1.10; cloth, gilt, \$1.25. Both journals (English and French) boards \$2.00. Complete series of one journal, forming seven volumes \$7.00: half-price to Teachers, or if for the use of Colleges, Literary Institutions or Parish Libraries, \$5.00. Those requiring complete series should make early application at the Education Office, as the number remaining on hand is very small—the journals for 1857 being nearly all disposed of.

The circulation of the French journal reaches 3000 copies, of the English 1500. A good proportion is sent abroad, the remainder being very equally distributed throughout Eastern Canada.

No advertisement can be inserted unless having reference to Education, Science, Literature or the Fine Arts. Rates of advertising, 7 cents per line for the first insertion and 2 cents each subsequent insertion.

Any one sending us twenty new subscriptions will receive a complete collection of the journal.

## SCIENTIFIC AMERICAN, VOLUME X., NEW SERIES.

MECHANICS will find in the *Scientific American* valuable information concerning their various TRADES, and details of all the latest and best improvements in MACHINERY, TOOLS, AND PROCESSES; together with such useful knowledge as will tend to dignify their occupations and lighten their labors.

INVENTORS will find in the *Scientific American* all necessary instructions how to secure LETTERS-PATENT for their inventions; also excellent illustrations and descriptions of all the principal inventions recently made in this country and in Europe; likewise an OFFICIAL LIST of the claims of all Patents granted weekly at Washington, with numerous explanatory notes; also, discussions of questions concerning the PATENT LAWS of the United States, reports of trials in court, with legal opinions, etc.

MANUFACTURERS will find in the *Scientific American* illustrated articles descriptive of the most recently invented machines used in various manufacturing operations, the different processes being lucidly described; also, practical recipes of much value to manufacturers, with hints upon the economical management of factories.

ENGINEERS will find in the *Scientific American* valuable descriptions of all the best inventions connected with STEAM, RAILROAD, MARINE, and MECHANICAL ENGINEERING; together with a faithful record of the progress of science in all these departments, both at home and abroad.

CHEMISTS will find in the *Scientific American* details of recent discoveries made in CHEMISTRY, and articles on the application of that science to all the Useful Arts.

AGRICULTURISTS will find in the *Scientific American* engravings and descriptions of all the best and most approved FARM IMPLEMENTS; also, original or well-selected articles on matters relating to general AGRICULTURE; great care being taken to furnish FARMERS, regularly, with such information as will be valuable in the field, as well as in the household.

ALL CLASSES OF READERS will find in the *Scientific American* a popular resumé of all the best scientific information of the day; and it is the aim of the publishers to present it always in an attractive form, avoiding as much as possible abstruse terms. To every intelligent mind, this journal affords a constant supply of instructive reading.

TERMS OF SUBSCRIPTION.—\$3 for one year; \$1.50 for six months; \$1 for four months; 20 copies in a Club can be had for \$40. Subscribers in Canada should remit 25 Cents extra, to pay postage. SPECIMEN COPIES sent free; also, gratis, a pamphlet of "ADVICE TO INVENTORS."
