Maritime Summary.

— The Ottawa Agricultural Insurance Company has lost nothing by the fire in St. Johns.

— A branch of the Consolidated Bank has been opened at Berlin, under the management of Mr. C. J. Brent, favorably known in banking circles, and who formerly managed the branch of the Royal Canadian at Prince Arthur's Landing.

— From every part of the maritime coast, both North and South, the most cheering intelligence is received from our fishermen. For many years codfish have not been so abundant; every day large catches are being made, and our sea farmers are looking forward to a bountiful harvest.

— The shipments of cheese from Belleville, for the week ending Wednesday last, were 3,000 boxes. At the Ingersoll market of Tuesday over 2,000 boxes were offered, but only about 700 boxes changed hands. In both cases the market was very dull, prices ranging from 8½ to 9 cents.

— We already feel the benefits of the completion of the Intercolonial Railway in a closer communion with our brethren of the press in St. John, Halifax, and other Maritime localities; the daily papers arrive here now a day earlier, and we learn that commercial intercourse is also greatly enhanced.

— The St. John, N. B., papers come to us with accounts of considerable improvements in building and beautifying the city. Among other things glass signs bearing the names of streets are to be placed on the lamp-posts of the city, a great improvement on the old method, for now the names of the streets can be read more easily at night.

— The estate of Byers and Penn, spring manufacturers, Gananoque, has been bought by a newly organized Company called the Gananoque Spring Manufacturing Company, who are seeking a charter, with a capital of \$50,000. The Company is in possession, and will commence operations under the management of Mr. S. McCammon, with Mr. Geo. Penn as mechanical superintendent.

The State of Maine has already, this season, begun to make use of the English market, and Portland and the ports on the Penobscot and
