PHILLIPS' MILK OF MAGNESIA

(MgH₂O₂)

“THE PERFECT ANTACID”

ALKALINE

ANTISEPTIC

Magnesia in permanent solution—not mechanically suspended
—Miscible with other fluids—A mild and pleasant laxative—

**Free from carbonic acid. No danger
from concretions as with the calcined.**

Bland, soothing, non-irritating. Combines well with syr. rhu-
barb, opium, the vegetable astringents, etc., and is an excellent
vehicle for administering the salicylates, iodides and bromides.
Especially applicable in gastro-intestinal disturbances—nausea—
vomiting in pregnancy—sour stomach, etc. An agreeable mouth-
wash to neutralize oral acidity. To avoid disappointing results,
prescribe, and look to it that the patient receives, PHILLIPS'.
