

## Electrical Common Sense

It is poor economy to buy a good dynamo unless your wiring is properly installed.

It will not pay you to save power at your dynamo if you lose it on the way to your lamps.

Our wires are proportioned to the power they are to carry, and we put them up to stay.

As we are not connected with any manufacturer, we are prepared to install any of the standard machines on the market.

LET US QUOTE YOU PRICES.

THE Canadian Horseshoe Nail Association has been dissolved, and prices have fallen considerably, as a result.

THE contract for constructing the new C.P.R. bridge across the Red river, at Winnipeg, at a cost of \$60,000, has been awarded to the Dominion Bridge Co., Montreal.

THE Canadian Pacific Railway Company has purchased two steamers for the Vancouver-Skagway route, at a cost of \$250,000 each, with a capacity of 250 cabin passengers, and 800 tons of freight and a speed of 16 knots.

THE Hamilton Electric Light and Power Company has elected the following officers: John Dickenson, M.P.P., president; J. A. Kammerer, vice-president; J. Moodie, treasurer; J. Patterson, secretary.

ABOUT \$14,000 worth of damage was done by a fire on the 8th inst., in Wawanesa, Man. Among the losses were Jackson's harness shop, Barclay Bros.' general store, and McDonald's jewelry store.

It would appear likely, from reports of recent meetings of the road committee of the city council, that the Montreal Terminal Company will be given permission to extend their lines into the city, thus giving citizens the advantage of a second street railway service.

THE Northwestern Steamship Line has made arrangements to run its steamers direct from Chicago to Europe, through the Welland Canal and St. Lawrence. It owns four new steamers, which are now being constructed in Chicago and will make their first voyages in April and May next.

AN extensive marble quarry has been located at Sumas, together with the necessary ingredients for making cement. Evans, Coleman & Evans, of Vancouver, have secured all rights and will establish quarrying and polishing plants and lime kilns on the spot, together with cement works, with an output of 300 barrels per day, at a cost of \$200,000.

RICHARD WESTWOOD, of Guelph, proposes, under certain conditions, to establish a carpet factory in Cornwall. He asks the town to give him a site, exemption from taxation, except school taxes, and a loan of \$12,000, without interest, in return for which he would guarantee to spend \$10,000 in wages, the first year, and at least \$15,000 during succeeding years, and to employ forty hands in the second year.

A FEW years ago, G. C. Ives & Bro. succeeded to the planing mill business of their father, at Colborne, and did considerable business with, however, but small, if any profit. Now they want an extension of nine months, without interest. The estate shows a surplus.—The competition in the tailoring business in Owen Sound has been very severe, entirely too much so for the slender resources of J. E. Mitchell. After working at the business there three years he is now compelled to assign.—Another assignment is that of Joseph Field, grocer, at Strathroy, in business about a year.

## MACHINE TOOLS

and Engines and Boilers

for immediate delivery

Three 43x28 inch Gap Engine Lathes, 20 feet bed.
