

ISRAEL

Israel has a population of 5.2 million and a GDP of US\$ 65 billion. In 1992 fish imports were valued at US\$ 73.3 million while fish consumption per capita is estimated at 13.2 kgs (broken down; frozen fish 5.9 kgs, deep sea fishing 1.3kgs, canned fish 2.2 kgs and fresh water fish 3.8 kgs.

Israel imposes a quota of 3,000 tons per annum on whole fish imports to protect the Israeli fishing industry, this quota does not apply to fillets. Israel imports mostly South American species as well as Nile perch from Kenya. The bulk of imports from Canada are fish fillets, 225 tons in 1992.

Fish imports have risen 27% in the last two years due to the influx of Russian immigrants. Consumption of processed fish also grew substantially.
