Fall 1986	Music Gallery Visual Art Show. This would consist of a sound sculpture, of 12 serigraphs by well-known Canadian artists, a photo exhibition show, a series of six commissioned video tapes, and a listening room with a selection of tapes and records as well as a complete print documentary of the history of the Music Gallery. This might be combined with the Celant-Bartolucci project timing, finances, logistics, and aesthetic-ideological compatibilities permitting.
