

The Embassy has the honour to inform the Department that the preceding amendments meet with the full agreement of the French Government. If the same is true for the Government of Canada, the French Embassy has the honour to propose to the Department of External Affairs that this Note and the reply to same by the Department of External Affairs of Canada constitute the Exchange of Notes provided for by Article IX of the Agreement of August 1 aforementioned, to come into effect on that date.

The French Embassy avails itself of this opportunity to renew to the Department of External Affairs the assurances of its highest consideration.
