1968-69	138	177	7,212.1	6,100.0	9,264.3
(to 21 Nov. 1968)				(Est.)	(Est.)
TOTAL		262	28,902.3	23,004.4 (41%)	33,318.2 (59%)

1. Eight additional projects have been approved as of 21 November 1968 but were deferred for lack of funds.

2. Projects may be approved and start at any time during the fiscal year. Generally, they terminate at the end of a fiscal year. Hence, the minimum and maximum number of projects in effect have been given for each year.

3. Companies are not always able to spend the full grant due to recruiting difficulties or construction delays.

4. Industry's contribution covers only the reported funding during the period of IRAP support. This does not include funding to complete the research project if it must extend beyond five years, or to develop products from the research results.
