CABLES IN WHEAT **VALUES TIGHTENED OPENED STRONGER** IN CHICAGO WHEAT

Montreal With Limited Number of Transactions.

Canadian Press Despatch.

MONTREAL, Oct. 19.—Cables on Manitoba spring wheat were strong again today, at a further advance of 6d to 9d per quarter, with a fair demand from overseas buyers for supplies, but owing to the raise of 2c per bushel in the Winnipeg market, the bids were all out of line and no further sales were made. The local market for oats was stronger at an advance of 4c to 4c per bushel, but the demand is still limited for carlots. The trade in corn and barley is quiet. The tone of the flour market is stronger, owing to the steady upward tendency of prices for wheat, but no actual change has taken place yet. The demand is still and quiet from both local and country buyers. The trade is more active in rolled oats. Millfeed is quiet and the condition of the market is unsettled. Cheese is quiet but firm. Exports for the week were 4927 boxes, as compared with 63.506 for the same week a year ago.

Demand for eggs is fair. Dressed hogs are 25c per 100 pounds lower.

maturing obligations.

There was a revival of recent rumors dealing with the early resumption of business on the local exchange, but these were received with reservation.

Outflow of gold to Canada continues in moderate volume. The total already placed at Ottawa to the credit of the Bank of England is said to be sufficient for all temporary requirements, and the sentimental effect has been salutary, but estimates of the probable extent of our exports have probable extent of our exports have increased to \$50,000,000.

These figures give signiproperty. \$150,000,000. These figures give significance to the steady reduction of loan certificates now being made at most reserve centres.

NEW YORK, Oct. 19.—Reopening of the eastern freight rate case before, the interstate commerce commission, the excellent condition of the local banks as disclosed by last week's statement, continued progress in the formation of the gold and cotton pools, and an easier tone to foreign exchange combined to put Wall street in a more cheerful frame of mind today.
