President D. B. Hanna of the Canadian National Railway system returned yesterday from an extended in-Repection tour thru the west, which took him as far as Victoria, B.C. Seen by a World reporter at the head offices, Mr. Hanna said that he had found conditions quite satisfactory in the prairie provinces, and also on the Pacific coast. Seeding, he said, was well advanced, and the weather favorable. On the Pacific coast retail trade was unusually brisk, but there was some uncertainty as to the immediate outlook for the lumber industry.

"I was greatly struck," said Mr. Hanna, "with the development going on in the Rainy River district. The country is settling up between Rainy River and Fort Frances, along our northern line, and also up toward the National' Transcontinental. Much credit for this is due, I believe, to the provincial government, which is building highways and spending a good deal of money in opening up this part of the province. All thru the western provinces we found a most friendly feeling toward the Canadian National Railway. We are planning a good deal of new construc-tion work in the west, and will furnish railway facilities to many set-tlers who have been badly in need of such accommodation for years." Asked as to the directors' meeting

of the Canadian National held in the city yesterday, Mr. Hanna said that the main purpose of the meeting was to arrange for the extensive program of construction and betterments which had been authorized by the Dominion government. In the near future an inspection will be made of the line nspection will be made of the lines east of Togonto, with a view of ar-ranging for all necessary betterment and replacement work.

G. A. C. JOURNAL.

The matter of the creation of a corps of commissionaires was taken up by representatives of the G.W.V.A. and discussed with the business council of

the repatriation committee at a recent meeting which was held at the board of trade rooms. The G.W.V.A. representatives are of the opinion that such a corps could be created with a considerable amount of success in the absorption of men who have reached the meridian of life and who as a result of disabilities incurred whilst on service are now no longer able to follow out their original occupation with any measure of success on the labor mar-ket.

But there was no such pre-cise start. The hammering continued for about twenty minutes before the more than the start of the vessel was seen to move, and with a quick slide she plunged into the wa-ter, seeming for a moment as if she were going to turn a somersault, but righting herself as she came fully in ontact with the water. # Life Assurance Premiums Reduced

If you are insured under an Imperial Life profit-sharing policy your premiums can never be increased. On the contrary, you can use the profits allotted to you every five years to reduce future premiums. So, the longer your policy remains in force, the smaller will become the yearly payments required to maintain it.

If you outlive your family's need for protection the policy may be surrendered for its cash value. Thus an Imperial policy will take care of your family if you die-it will provide for your old age if you live.

Fill in and return the coupon below and we'll send you an interesting booklet about Imperial policies.

Every soldier in the armories is to be a bona fide returned man having seen a bona hie returned man having seen actual fighting service. It has been proposed that each host will serve the men at his table, and during the meal it is hoped that he will learn more about the soldiers and their problems than he could possibly learn in any other way.

This arrangement necessitates a lesser number than has been the case at previous banquets, but as there will be no invited guests, and as the floor will be taken up entirely by re-turned men and the even 100 business men, the total of 1100 soldiers will probably be as high as heretofore. Relatives and dependents of soldiers will be given a place in the gallery.
