BENGALIS BOYCOTT BRITISH. Resent Partition of Province Which Is Too Unwieldy.

Calcutta. Sept. 29 .- Fifty thousand Bengalis assembled at the Temple of Kalighat have sworn by the goddess Kali to boycott British goods, as a protest against the partition of the Province of Bengal. The administrative work of the province, according to the views of the home and Indian governments, had grown to such unwieldly proportions as to necessitate a division of labor, hence the partition of the province into lieutenant-governor-ships.

The Bengalis are intensely resentful at what they characterize as an at-tempt to split the population and im-pair the Bengalis' nationality. At scores of meetings thruout Bengal the people have pledged themselves to support of the boycott, which has now received the sanction of the priests.

Father Attacks Man Who Accused Son of Deserting Union.

Chicago, Sept. 29.-When he heard a report that his son had deserted the carpenters' union during its trouble a year ago and that a friend, Jos. Kran, had made the accusation, William Keuppel attacked Kran with an ax, fracturing his skull. Kran will die, Kran was at work on the third floor of a new building when Keuppel found him Scores of pedestrians saw the men clinging to the beams and hurling bolts and other missiles at each other. Kran fell from the third to the other. Kran fell from the third to the an ax and he was unconscious when

CITY CAN'T DEMAND LINE. So Says Street Railway re Desired Avenue Road Extension.

In the statement of defence filed by the street railway re the city's action to compel an extension of tracks to the head of Avenue road, it is claimed that they never compacted to lay down new lines and that the city's sole recourse is to give another company the right to lay down tracks when refused by the street railway. It is stated that when they began to extend their tracks up Avenue-road some time ago the city tore up the tracks and refused to allow the service. It is also urged that the agreement does not apply to distinct the city of the city of the city to the city to the city to the city to the city of the c tricts since annexed by the city. The defence with respect to com-plaints about the insufficient number plaints about the insufficient number of stops is that effort is being made to suit the passengers' convenience and the city has no right to interfere.

The Growth of Fire Insurance in Canada.

Canadian Government statistics issued by the Superintendent of Insurance show that during the past thirty-six years the business of fire assurance in this country has increased ten-fold—the total amount of premiums collected in Canada in the year 1869 being \$1,785,539, while that of 1904 was \$13,174,819 for the same purpose. Of this premium income only \$2,688,703 was paid to Canadian Companies, while \$10,486,116 was paid to Foreign Companies. The total amount of fire assurance premiums collected in Canada during these thirty-six years amounted to the enormous sum of \$201,-580,555. Of this amount \$156,600,789 was the amount of capital which left Canada in payment of premiums to Foreign Companies.

The Insurance Report shows that for the year 1904 there were but ten Canadian Companies licensed by the Dominion Government to transact the business of Fire Assurance in Canada, and but two of these ten had a paid-up capital for more than \$225,000. With such facts and figures before them, the incorporators of THE SOVEREIGN FIRE ASSURANCE COMPANY have been convinced of the necessity for a sound, substantial Corporation—the shareholders and policy-holders of which would be protected by a LARGE CASH CAPITAL PAID UP IN FULL, a Government deposit in excess of the Statutory requirement, and a strong directorate of business men which would conserve these resources for the development of Canadian institutions.

PROFITS OF FIRE ASSURANCE COMPANIES.

The average dividend paid by thirty-two British Joint Stock Fire Assurance Companies for the current The average dividend paid by thirty-two British Joint Stock Fire Assurance Companies for the current financial year, corrected down to September 1st, 1905, exceeded 30 per cent. per annum, and the average dividends for ten years ending December 31st, 1904, paid by 136 Joint Stock Fire Assurance Companies of the United States, as compiled from official reports, has exceeded 134 per cent. per annum. Statistics compiled by the Superintendent of Insurance covering a period of thirty years, from 1875 to 1904 inclusive, show that the dividends paid by Canadian Fire Assurance Companies amounted to \$4,460,885.25, and when it is remembered that the rates for fire assurance are to-day practically 50 per cent. to 100 per cent. in excess of the rates charged during the period covered by the Insurance Department, it will be readily seen that the business is now fixed upon a substantial basis and the profitableness of the future is unquestionably assured.

THE SUBSCRIPTIONS FOR CAPITAL STOCK.

The capital stock of the Sovereign Fire Assurance Company of Canada is Two Million Dollars, divided into 50,000 shares of \$40.00 each, of which two hundred and fifty thousand dollars is now offered to investors at a premium of 25 per cent. or FIFTY DOLLARS A SHARE.
