tice MacMahon Gives Judgment in the Case of Conlin v. McArthur, Tried at Ottawa-To-Day's Lists.

at Ottawa-To-Day's Lists.

Mr. Justice MacMahon has given judgment in Coulin v. McArthur, tried at Ottawa without a jury. The learned judge holds that the plaintiffs have falled to establish their charges that the defendant obtained the chattel mortgage in question by fraud and misrepresentation, and with having sold the mortgage goods in an illegal and improper manner, and sacrificed them. The only ground upon which plaintiffs are entitled to succeed a that defendant purchased at the sale 200 bushels of oats and a buggy, part of the goods. The plaintiffs, failing to establish fraud, may, even though entitled to relief, be ordered to pay costs, and in this case having also failed on all material issues the plaintiffs, he thinks, should pay defendant's costs of all the issues except as to the goods purchased, and as to that there should be no costs. Judgment without costs is also given for defendant-on his counter-claim for balance of \$84 due on chattel mortgage, after deducting \$19 possible profit on the goods sold. The plaintiffs are Mr. and Mrs. Thomas Conlin of the Township of Osgoode in the County of Carlton and defendant is Mr. Charles F. McArthur, general merchant, of Kenmore, in the same township.

COURT OF APPEAL. In the Court of Appeal (Chancery Division), the appeal of defendants in Breese v. Knox from the judgment of Justice Street at the trial was dismissed with costs. The question was whether a chattel mortgage given to defendants by one Foster, in September, 1896, according to an agreement made in June, 1896, was valid. The trial judge held that, looking at the facts presented in evidence, the defendants knew at the time they took the agreement in June that Foster was insolvent, and he set aside the chattel mortgage as void against creditors. The court dismissed the appeal with costs.

### COTTON MILLS TO CLOSE.

It is Reported That Many Canadian Mills Will Suspend Operations for a While. In consequence of the duliness of trade, it is remured that a number of cotton mills will shortly close, and remain so unthe the large stocks in hand are considerably reduced. There are twenty cotton mills in Canada, nine grey, eight colored, two white and one duck, and they are situated at Montreal, Cornwall, Merritton. Hamilton, St. John, N.B., Marysville, N.B., and Yarmouth, N.S. If it is decided to close down, the mills affected would be those controlled by the Canadian Colored Cotton Association and the Dominion Cotton Mills Association, those two big syndicates which practically control the cotton trade of Canada.

received the following despatch from New York to-day:

The stock market rallied a little this afternoon, on the covering of short contracts. There was not much spirit to the movement, and the close was barely steady. Northen Pacific preferred was strong, it has held up well the last few days in face of the general downward tendency. The Havemyers have appeared before the Lexow Trust Investigation Committee, and other officers of the Sugar Company are being examined. The United States Senate has been discussing a bill requiring the consent of Congress to a saic of the Union Pacific road. The management of the Spirits Company deny that their prices have been cut below the cost of production.

"THE EQUITABLE" is the largest and strongest. Over \$4,000,000 is deposited in Canada for the protection of Canadian policy-holders. Ontaric Department, cor. King and Yonge-streets. Toronto. George H. Roberts, general manager.

Henry A. King & Co., 12 King-street east, received the following despatch to day from Chicago:

The market opened with a little activity on wheat. Liverpool cables ½d lower. At the opening there was raiding by bear leaders which caused a break of about %d at once, but the market struck good support and recovered ½g very soon. The wheat trade as it exists at present is largely a scalping affair. St. Louis cables reported that the recent hard freeze is believed to have injured wheat in certain localities, but this is conjectural. The chief selling early was by Barrett and St. Louis houses. Later Mitchell, Weare, Poole, Dupée and Frazier and others were buyers. When the market began to harden the bears of the morning became frightened buyers: The buying force returned, helped by the London news on the French crop, and the May price has pushed right up to 76½c. Bullish messages from Minmeapolls in regard to four sales helped the buying. The livestment buying by a few strong people, and the scare of shorts on an oversold market, appeared to be the only explanation. Northwest receipts were 250 cars, against 584 cars a year ago. The close was steady at 755%c to 75%c, May.

Corn and oats—Moderntely active, but ruled within a narrow range, ½c to ½c. Local operators were the best buyers. Cables on corn were unchanged. The volume of trade was only fair. Cash situation somewhat improved. Receipts of corn 584 cars, and oats 221 cars.

Provisions—Weakness was again exhibit.

local and St. Louis shorts. Closing Liver pool quotations showing all the advance lost falled to influence the market, and it advanced 1 cent over opening prices; the closing, however, was weak, at \( \frac{3}{2} \) creaction from best prices. Cash demand has abruptly ceased, both in this market and at the seaboard, and as this demand turned the market firm, it seems reasonable to xpect weaker markets if it does not assert self again. Minneapolis and Duluth stocks gether will show no change from liss eek, but it looks as though the visible body will show another substantial dense, probably 1,500,000 bushels. The set estimate on the French crop is that vill be about 55,000,000 under last year's. It will be about 15,000,000 under hist ye Provisions—Opened easier; receipts hogs 4000 more than expected, and p 5c lower. Commission houses free sel The principal buying of the day has by shorts, the International Packing a pany being the largest buyer. The mar closed stendy at the decline. Estim hogs to-morrow 18,000.
