

NURSERY STOCK FOR SALE.

Ten Thousand 4 year old Gravensteins,
Twelve Thousand 4 year old King of Tompkins,
Seven Thousand 4 year old Golden Russets.

I solicit inspection of these trees by all who want

FIRST-CLASS STOCK

AT LOWER RATES THAN ORDINARILY SOLD.

Every Tree is Guaranteed true to Kind.

NO TREE LESS THAN SIX FEET HIGH NEED BE TAKEN.

The trees are all thrifty, many of them having made growth of wood this season of two feet.

I have also for sale several thousand trees—

APPLES GRAFTED ON PARADISE STOCK.

These trees will come into bearing almost at once on being removed from the nursery. They are three year olds and many of them BORE FRUIT in the nursery this last season. They are reported to have a life of about twenty years. They are invaluable to any one setting out an orchard who wishes apples at once. They may be planted in the rows between standard trees, and their day is past by the time the standards have grown large enough to produce at all heavily.

These trees take up no more room than plum trees, and are specially adapted to gardens and small lots in towns.

I have this kind of tree in

Gravensteins, Baldwins, and Golden Russets.

W. E. ROSCOE,
