FIND OVERLAPPING IN GIVING RELIEF

Civic Commissioner Discovers Seventy-One Duplications of Orders.

LACK CO-OPERATION

Hundreds of Men in Work Getting Free Meal Tickets From the City.

Relief work on a large scale in aid of the unemployed has been going on in the city for three weeks, and still those in charge have not yet succeeded in organizing a workable and economic system. Men by the hundreds who hold jobs have been getting free meal tickets from the city, and overlapping of grocery orders for needy families is common, owing to the jealousy and antagonism existing between the organizations engaged in the administration of the relief. They refuse to co-operate, with the result that in a bunch of orders for gro-ceries sent out by the House of Industry, Property Commissioner Chisholm found 71 duplications of orders sent by other organizations. There is said to be very little left of the \$50,000 that was recently voted by the city for relief. Over \$40,000 has Snow Clearing Provides Work been expended and there are a large number of bills still unpaid.

In order to get down to some kind of a sensible working basis, a conference of the organizations concern ed was held in the property commissioner's office yesterday. is said to be the refusal of the city's social service department, which is under the medical health department, to co-operate with the social service commission and the House of In-

A further improvement in the local employment situation was indicated yesterday in the reduction of the previous day's registration figure at the government employment bureau from 316 to 256. Of this number 130 were married soldiers, 72 single soldiers, 93 married civilians, 61 single civilians. During the day also visitors to the bureau continued to drop in. The want of the majority was to find out if their names were on the voters' list and, as on the day previous, it was in council two years and now seeks a found that in no small number of instances both the living and the dead had been given queer treatment. Names of persons long since gone from life were still holding place among the living, and names of others that ought to have been visible in type, were altogether absent. The pity was that the mistakes were found out too late for remedy for the present campaign. Yet on the premises that it is better late than never, it may be inferred that were it not for the bureau, people might not have wakened up to the need for remedy until it would be too late for the next

year also.
