An Unbreakable Set of Teeth

There is a class of patients who do not object to paying a fair price for artificial teeth, if they can really secure comfort, usefulness and naturalness. I have a set of teeth, such as is unobtainable in any other office in this city, to my knowledge. It is out of the ordinary line and unlike the teeth in general use. Its beauty is at once apparent, and it is practically unbreakable. It will pay those, who are desirous of obtaining the best to be had in the dental line, to call and inspect this for themselves. I will gladly demonstrate its superiority over other plates, even if you have no immediate intention of investing.

JUDGE GREGORY HAS RESIGNED

Report to This Effect Reached The Times Today

The Times is informed that Judge Gregory has resigned his office as a judge of the supreme court of New Brunswick and that his resignation has already been forwarded to the department of justice at Ottawa.

While no reason was given by the Times informant it has been generally known for some time that Judge Gregory has not been enjoying robust health and is probably desirous to take a complete rest—hence his resignation. It is stated that his resignation will take effect in a few days. Judge Gregory is at present on furlough owing to ill health.

INCORRECT STATEMENT

Mr. Wannamaker, proprietor of the Charlotte street restaurant, states that the story that three young women were in the restaurant with Messrs. Logan, McKinnon, Kelly and others the night that Logan was presented with the championship cup by Mayor Bullock, is utterly untrue. No young women were there, and only four young men, nor was there any drinking as alleged, out of the cup in question.

With reference to the statement that Fred Kelley was once before arrested, on a charge of drunkenness and profanity, it is stated that the charge against him was for not giving a proper account of himself when questioned by Officer Marshall, who was in plain clothes; and his friends assert that he should not have been arrested at all on that occasion.

There was also a mistake in the statement concerning organizations to which the young men belonged.

The Times regrets that it should have been misled in any particular in regard to this unhappy affair.

A LIVELY SCENE IN POLICE COURT

F. R. Taylor Accuses E. H. McAlpine of Misrepresentation; Mr. McAlpine Denies It and Invites Mr. Taylor to Repeat Accusation in the Street

The hearing of the information lodged against the C. P. R. Dominion immigration inspector for the alleged impropriety to St. John on February 19, of Gaston Gantari, an insane Finn, was scheduled for this morning before Judge Ritchie, but little progress was made.

At the opening, F. R. Taylor, who represented the C. P. R., requested a postponement, as Col. McLean last night received a telegram from the Chief Selector of the company at Montreal, instructing an application for postponement until the officers of the Empress of Britain could be interviewed. As the Finn was a passenger to this port on the steamship, Mr. Taylor said he could not cross-examine witnesses unless the officers were conferred with.

E. H. McAlpine, who acted for the government, said he was desirous of directly examining Dr. Chas. Bailey, and would not object to recalling the physician at a later date, but Mr. Taylor replied that he had no instructions to even offer a plea, and as the penalty was \$1,000, he deemed it imperative under the circumstances, that a postponement be granted summarily. He asked Dr. Bailey if it was convenient for him to return in three weeks, and the physician assented. Mr. McAlpine interrupted the conversation, and expressed his ability to govern his witnesses. Mr. Taylor complained that Mr. McAlpine was pursuing discreditable tactics.

His Honor ruled that the witness could be directly examined by McAlpine, today, and subsequently when he would be acquainted with the defence. Mr. Taylor could cross-examine him.

Dr. Bailey was sworn, and stated that he was medical examiner at this port for the United States public health and marine hospital service. His duty was to examine all aliens destined for points in the neighboring republic. He said he examined the Finn at the Provincial Hospital for Nervous Diseases on February 20, the day following his landing, and he was melancholic, ranting incoherently, continually endeavoring to escape from his bed, and was unable to account for his behavior on the previous day in the Saint John shed. He diagnosed his plight, as elliptic insanity, and on the preceding day, Gantari was evidently attacked with acute mania.

Mr. Taylor arose at this point and charged Mr. McAlpine with misrepresenting the facts and instances one of the cases wherein he had elicited from Dr. Bailey that he could testify in three weeks, while Mr. McAlpine said Dr. Bailey was unable to come to court at such a distant date.

Mr. McAlpine retaliated by designating the opposing lawyer as a coward, and charging he, as he expressed it, back in Mr. Taylor's teeth. He challenged Mr. Taylor to repeat the accusation on the street. He declined any idea of making a recantation.

Mr. McAlpine queried Mr. Bancy regarding the length of time that Gantari was suffering from his affliction, on expert testimony, to which the physician replied that he doubted his competency to qualify as an expert on insanity. He said that he graduated from Long Island College Hospital in 1888, and served two years in the hospital. He was three years in private practice in Brooklyn and six years in immigration work. Until February, 1888, of that period he was stationed at Ellis Island, New York.

Mr. Taylor objected to Mr. McAlpine questioning the witness on the length of the Finn's insanity, but the objection was over-ruled. However, the physician declined to answer unless directed by the court, as he considered the question for an expert.

Mr. McAlpine at this point vouchsafed that Mr. Taylor's frequent "bobbing up and down and yelling expert, reminded him of a ground squirrel from Ontario," that takes his Kings county," was the facetious query of his honor.

In the opinion of a physician, Dr. Bailey said he judged that the Finn, who was 40 years of age, might have been insane for years. The answer was objected to by Mr. Taylor. The physician said the insanity existed on February 19, and in all probability for some time previous.

Adjustment was made until next Monday morning, but it is not likely that the case will be continued until the steamship arrives on her last trip to St. John.
