

THE EVENING TIMES, ST. JOHN, N. B., WEDNESDAY, JANUARY 17, 1906.

PRESIDENT'S DAUGHTER WILL WEAR AMERICAN MADE GOWNS

Representative
Congressman
Residence Washington

NEW YORK, Jan. 17.—Quite a large number of the gowns for Miss Alice Roosevelt's wedding outfit are being made in Baltimore, according to a despatch to a morning paper from that city. The wedding gown is to consist of a heavy white satin brocade, being made in an American silk factory, of a design originated for the president's daughter. The old lace belonging to the Lee family of New England, Miss Roosevelt's mother's family, will be used in the trimming of the wedding gown.

Yesterday several of the gowns were sent to Washington for the prospective bride's inspection. Among them is the travelling dress of pale grey broad cloth. For this dress an exquisite set of furs is being made of silver fox, with a turban of the same fur. There is also a white satin evening dress combined with chiffon and real lace, and one of palest sea foam green over green silk.

THE PRINTERS STRIKE HAS TAKEN NEW TURN

New York, Jan. 16.—A new move was made in the job printers' strike in this city today when the stereotypers and electrotypers were ordered by the union officials not to make any plates from non-union-set type. In accordance with these instructions the electrotypers employed in five of the big printing concerns of the city who had adopted the "open shop" principle went on strike.

The typothetae issued a statement to-night, in which it treats of the latest phase of the strike, and declares that 100 non-union electrotypers and stereotypers have applied for positions at the highest salaries paid in this city. The typothetae declares the new strike will cause no inconvenience.

WHAT DO YOU CARE? YOU'VE GOT YOUR HEALTH.

Great Natures Do Not Despair at Disappointment—They Look for Something Else To Do.

The broad-gauged man of today does not get blue because things don't always come his way unless there is something the matter with him. If he "falls down" on one proposition he immediately starts to look up another. He always looks forward and keeps on hustling. A man with his health and faculties has plenty of opportunities and the man who gives up or even feels like it has either a small nature or some physical weakness. Dyspepsia certainly puts the best of men out of condition for work of any kind. You cannot blame the dyspeptic for getting blue. The very nature of his disease is most depressing and calculated to deprive him of ambition, energy and hope. There is hope for him, however, certain and sure. Stuart's Dyspepsia Tablets are recognized throughout the length and breadth of the land as the one cure that is safe and sure. Their unbounded popularity—resulting from the thousands and thousands of cures they have effected, prove beyond the shadow of a doubt their greatness as a cure. Wherein lies their greatness? In the very fact that they are Nature's own simple remedy. They do the exact work in exactly the same way that the digestive fluids of the stomach do because they are composed of exactly the same elements and possess the same properties. They relieve the weak and worn out stomach of its burden of digestion and permit it without let or hindrance to rest and grow sound and well. The stomach will get well quick enough in its own natural way if it is let alone. That is what Stuart's Dyspepsia Tablets do. They not only let it alone themselves but make the food taken into the stomach do the same. You can satisfy yourself of the truth of this statement by putting the food you would eat into a glass jar with sufficient water and one of Stuart's Dyspepsia Tablets. The process of digestion will be taken up and carried out just as the gastric juice and other digestive fluids would do it. Their action is natural and they cause no disturbance in the digestive organs. In fact you forget you have a stomach when they begin to do their work, so mild and natural is the operation. Stuart's Dyspepsia Tablets are for sale by all druggists at 50c. a box.

J. D. Chipman, of St. Stephen, is in the city.

Mr. Preston, Immigration Agent for the Dominion government in London, Eng., has stated that any of the farm peasants from Northern or Middle Europe make the very best agriculturists. Farmers in New Brunswick who need labor and can accommodate a man and his family with lodging and give him the use of a few acres for his own cultivation, cannot do better than apply to Mr. Preston. He describes them as a class that remain on the land for generations, are thrifty and industrious and willing to work as farm laborers or farm tenants. Applications will be gladly forwarded by the St. John branch of trade or through this office.
