## WINDSOR CASTLE LIBRARY IS OF GREAT VALUE

Royal Collection Has 500 of  
900 da Vinci  
Drawings

LONDON, Nov. 11.—Visitors to Windsor Castle have very little notion of the immense value of the library and collection of pictures and drawings, housed in the Royal library, which until lately, when he retired, were under the care of the Hon. John Fortescue, the King's librarian.

Of 900 known drawings by Leonardo da Vinci, no fewer than 500 are in the Royal collection. There are in all 15,000 drawings, including the famous Golbein heads and drawings by Paul Sanby.

**KEPT UNDER LOCK.**  
Partly manuscripts, illuminated missals, autographed letters from famous people, are included in the collection, and some illuminated Persian books so precious that they are kept under lock and key even in the already well-guarded rooms of the Royal library.

Magnificent gold bound books presented to various rulers by Eastern potentates and special editions of great works of history and biography stand in shelves—but these treasures do not prevent a certain cosmopolitan note in the Royal collection. Here you will find works by Rider Haggard, Ian Hay and other popular writers.

The Hon. John Fortescue recently forsook his house in the Edward III. gateway in view of his retirement from the position of King's librarian.

**FORTESCUE'S SUCCESSOR.**  
In his place comes Mr. O. N. Morhouse, who has been in charge of the Peppys Library at Magdalen College. Mr. Morhouse will not take over Mr. Fortescue's house, but will occupy the very beautiful rooms said to have been built for George III. nursery.

The Royal library overlooks Eton and the river, and was built in the main by Queen Elizabeth, whose ghost is said to haunt the room. It was considerably added to and enriched by Charles II., and since then various kings have extended the collection.

**RECOVERS FROM INJURY.**  
HOULTON, Me., Nov. 9.—Albert E. Moores, known as one of the heaviest dealers in potatoes in the country, is slowly recovering from shock and bruises caused by being struck by an automobile while crossing the street.

The driver of the car, Wendell Smith, of New Limerick, has been exonerated from any blame for the accident which appeared to be unavoidable on his part.

## "Ultra-Microscope" Shipped To U. S.

J. E. Barnard, British scientist (seated, with an assistant alongside), is the inventor of the "ultra-microscope," which can magnify twelve million times, and is adjusted to a millionth part of an inch. The microscope is coming to the Rockefeller Institute, New York, from London. Barnard formerly made hats.

## Letters To The Editor

THE ISSUE OF BONDS.

Editor, Times-Star.

Sir:—Your paper of yesterday stated that the Commissioners are about issuing \$74,000 more bonds, largely to pay for that unnecessary City Hall on the West Side. Now this with our \$8,000,000 now running should make the citizens sit up and take notice.

According to the Chamberlain's report, the city's liabilities of over \$8,000,000 will have to be paid to the last dollar, no question about this. The assets, nominally about \$12,000,000, do not produce enough net income to warrant their being taken in stock at any such figure.

Are we not deceiving ourselves by claiming a surplus of \$4,000,000, particularly when we take in such assets as wharf and harbor properties at

\$2,800,000, from which we receive a net revenue of only \$6,800?

Also take some of the city's real estate values—Market Building, with a net revenue of \$4,800 taken at \$150,000—is it worth the amount?

Is City Hall worth \$60,000 when it has to be credited with \$334,700 proceeds of fishing sales to make its rental \$6,817.50 balance its yearly running cost of \$7,365.10?

Is the ferry toll house worth \$16,000 as an asset? Should city interest in exhibition building be taken as a good asset?

Is the water building on the corner of Leinster worth \$25,000? Now is it fair to assume, if the real estate of the taxpayer has gone down in value, that the city owned property has done the same; and, if so, have we the surplus over our liabilities that our statement shows? Should we not stop issuing bonds for about three years, and pay attention to reducing the yearly budget now dangerously near the \$2,000,000?

Yours truly,  
GEORGE H. WATERBURY.  
Saint John, N.B., Nov. 11, 1926.

## SHEIK THUG IN CHICAGO GIVEN 50-YEAR TERM

Durkin's Sentences Mount  
With Lead of 35 Years  
for Murder

CHICAGO, Nov. 11.—The account Martin J. Durkin has been running with society has been tallied, and it will take the "sheik" murderer and automobile thief 50 years and five days of penitentiary service to pay it.

To the state penitentiary service of 35 years for murder and two sentences of five years each in a Federal prison for interstate transportation of stolen automobiles were added five sentences of one year and a day each.

Balked in his hope of a prison break when county jail guards found steel saws in his cell, Durkin went into court apparently anxious to have it over with. He pleaded guilty to each of the remaining five counts on an indictment and was sentenced to a year and a day in each instance.

The court specified that the 35 years' punishment for the slaying of Edwin C. Shanahan, Federal agent, shot to death when he sought to arrest Durkin for automobile thefts, be paid first, and that after that the seven Federal sentences be served consecutively.

This was ended the career of liberty of a youth who became widely advertised first because of his popularity with women, secondly because of his swift trigger finger and apparent readiness to "shoot it out" with peace officers.

In addition to the slaying of Shanahan, two other deaths are attributed to him, those of a police sergeant and a Durkin relative slain when a police trap laid for the "sheik" miscarried and he shot his way out.

## MOTHERS and Grandmothers for Over 100 Years Have used and recommended

Johnson's  
Liniment

For Coughs, Colds, Cramps, Colic,  
Drops on sugar children love to  
take it. Used externally it quickly  
relieves Sprains, Sore Muscles, Cuts,  
Bruises and Rheumatism.

New and improved package, 25 and  
50 cent sizes at your druggist.  
J. S. Johnson & Co., Inc., Boston, Mass.

## THEATRES FOSTER ANGLO-U. S. UNITY

Give Fresh Life to "Hands  
Across Sea" Movement  
by Programs

NEW YORK, N. Y., Nov. 10.—The "hands across the sea" movement has taken on new life in the theatres this season.

Leaders in the movement believe that Theatricals behind the footlights can be used as successful ambassadors toward bringing about a feeling of brotherhood among the nations. Plays truthfully depicting the characteristics of Americans, for instance, would be presented in London by American actors, while English actors would similarly interpret British life through plays presented in New York. There would be none of the stage caricatures that feature the music halls of London and Paris, wherein foreigners are shown in an unfavorable light.

Basil Dean, London producer, is undertaking to link New York and London through "theatrical diplomacy."

Means for carrying out the project already have been assured, he announces. Meanwhile Sheldon Cheney, of the Independent Theatres Clearing House, is in Europe to arrange for the co-operation of those countries with the United States in this organization's work in behalf of the little theatres, community, and "art" theatres.

Broadway producers also are doing their share this season to present across the footlights, pictures of European life. Scarcely a ship arrives but brings either a foreign group of actors or a play by some European.

**RAIL CROSSING TRAGEDY.**

ELBORNE, Fla., Nov. 11.—Three women and a child were killed near here yesterday when a Seaboard Air Line express train hit their automobile.

and another child was perhaps fatally hurt. The dead are: Mrs. W. J. Moore, Mrs. Rena Hardie, daughter, Louise.

A LONDON physician announces that arsenic will cure laziness. Well, it probably will if taken in large enough doses.

## RED ROSE

"is good COFFEE"

## 7 out of 10 doctors said laxatives are harmful

In a recent coast-to-coast investigation we asked doctors the plain question: "Do you consider cathartics and laxatives harmful?"

64.24% answered unqualifiedly "Yes." 8% more said "Yes, if taken repeatedly." Laxatives make the bowels weak by doing their work for them. If expulsion of waste matter is forced by pills or other drugs, the bowel muscles soon become powerless to do their work without help. In other words, laxatives bring on the laxative habit.

**Doctors Advise Nujol**  
Nine doctors out of every ten told us they were advising the Nujol type of treatment for their patients in place of laxatives—and for these reasons:

1. Nujol is not habit-forming;
2. A more natural method;
3. A lubricant is better than a laxative;
4. Does not gripe;
5. Is not irritating; and
6. Nujol gives lasting relief.

**Unlike Laxatives**  
Laxatives and cathartics act by irritating the intestinal tract. They cause the bowels to frantically expel the contents of the intestines and thus rid the system of the drugs that pills and potions contain.

Nujol acts entirely differently. It contains no drugs, no medicine. Its action is mechanical. It merely softens the dried waste matter in the intestines and lubricates the passage so that the muscles of the bowels can expel the waste matter regularly, naturally and thoroughly.

**Nature-given Remedy**  
Nujol appeals to the medical man because it is a simple, scientific and safe remedy for constipation, no matter how severe the case may be. It is gentle in its action and pleasant to take. Children love it!

Get a bottle of Nujol from your druggist today. Doctors advise it for constipation, whether chronic or temporary. Avoid substitutes.

## This Winter Believe Your Friends and try HATCHWAY

THOUSANDS of men who would not usually talk about their underwear recommend Hatchway to their friends. This is because each man, as he discovers Hatchway for himself, is astonished by an absolutely new degree of comfort.

Hatchway employs a new method of distributing the fabric strains. From waist to ankles—at neck and chest and crotch—it provides a firm but gentle embrace that is built forever into the garment without the use of a single button.

Nearly a million Canadians know this. Discover it yourself this winter—buy Hatchway and be comfortable. Your own haberdasher can show you Hatchway in eight perfectly knit winter weights. Select the one that suits you best.

Men's \$2.50—\$8.00. Boys' \$2.50—\$4.50.  
All qualities unshrinkable.

WOODS UNDERWEAR COMPANY, LIMITED  
70 CRAWFORD ST., TORONTO
